The Great Disruption Francis Fukuyama, 1999 The bestselling author of Trust examines the social upheavals of the last few decades and in a bold thought provoking book shows why America is poised for a revival 24 charts graphs Trust in an Age of Arrogance C FitzSimons Allison, 2011-05-26 God is in the dock Shall we convict him or forgive him Shall we replace the God of Scripture with another of our choosing mock and deride him or ignore him Shall we replace revelation with the chaos of speculation We perceive ourselves rather than God as the center of the world and this universal condition leads to conflict with others and with God Maintaining our center causes cheating lying litigation divorce wars genocide and human misery Western civilization is giving up trust in the promise of God's mercy justice and forgiveness and replacing it with trust in the goodness of man Jesus warned us to beware the teaching of the Sadducees and Pharisees The Sadducees who denied hope of eternal life are a rough equivalent of our modern day secularists with their religious trust that this world is all there is Replacing God with trust in flawed human nature is a mark of arrogance that even pagans would have characterized as hubris evoking divine wrath The Pharisee's yeast of self righteousness is a natural condition of us all Even when cleansed it reappears in every tradition rendering forgiveness and transformation a promise only for those who think they have earned and deserve it Such a distortion of God's word is congenial to our self as center but it robs us sinners of the justice and mercy of a loving God Following Jesus's warning we have the opportunity to wipe away the Sadducee arrogance and the Pharisee self righteousness and discover anew the supreme power and joy of the Christian faith **China's Philosophical Studies:**

The Post-Soviet Decline of Central Asia Eric W. Sievers, 2013-12-02 Sievers draws on his experience of Central Asia to take on the task of explaining the remarkable economic declines of the post Soviet Central Asian states Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan in the past decade and the turn of these states towards despotism **Trust** Geoffrey Hosking, 2014-08-07 Today there is much talk of a crisis of trust a crisis which is almost certainly genuine but usually misunderstood Trust A History offers a new perspective on the ways in which trust and distrust have functioned in past societies providing an empirical and historical basis against which the present crisis can be examined and suggesting ways in which the concept of trust can be used as a tool to understand our own and other societies

Geoffrey Hosking argues that social trust is mediated through symbolic systems such as religion and money and the institutions associated with them such as churches and banks. Historically these institutions have nourished trust but the resulting trust networks have tended to create quite tough boundaries around themselves across which distrust is projected against outsiders. Hosking also shows how nation states have been particularly good at absorbing symbolic systems and generating trust among large numbers of people while also erecting distinct boundaries around themselves despite an increasingly global economy. He asserts that in the modern world it has become common to entrust major resources to institutions we know little about and suggests that we need to learn from historical experience and temper this with more traditional forms of trust or become an ever more distrustful society with potentially very destabilising consequences.
