Anderson, 2016-04-20 A History of the Modern Middle East offers a comprehensive assessment of the region stretching from the fourteenth century and the founding of the Ottoman and Safavid empires through to the present day protests and upheavals The textbook focuses on Turkey Iran and the Arab countries of the Middle East as well as areas often left out of Middle East history such as the Balkans and the changing roles that Western forces have played in the region for centuries to

discuss the larger contexts and influences on the region's cultural and political development. Enriched by the perspectives of workers and professionals, urban merchants and provincial notables, slaves, students, women and peasants, as well as political leaders, the book maps the complex social interrelationships and provides a pivotal understanding of the shifting shapes of governance and trajectories of social change in the Middle East. Extensively illustrated with drawings, photographs and maps, this text skillfully integrates a diverse range of actors and influences to construct a narrative that is at once sophisticated and lucid. *A History of the Modern Middle East* highlights the region's complexity and variation, countering easy assumptions about the Middle East: those who governed and those they governed, the rulers, rebels and rogues who shaped a region.

The Qur'an between the Ottoman Empire and the Turkish Republic Susan Gunasti, 2019-03-01. The Qur'an between the Ottoman Empire and the Turkish Republic is one of the few book-length studies on an Ottoman Qur'an commentary. Its premise is that the Ottoman Empire did not come to an end until 1950 so far as Islam was concerned in Turkey. The work explores the relationship between Elmalılı's Qur'an commentary and the intellectual trends of the period, including the impact of materialism, the sciences, notions of civilizational progress and philosophy. In doing so, this study emphasizes the local aspect of the Qur'an commentary through a sustained focus on the Istanbul context in which it was written. This work demonstrates that Elmalılı's Qur'an commentary is a product of and reaction to the religious, intellectual, political and social trends of the period. This work, in considering all the factors that led to the commissioning of Elmalılı's Qur'an commentary, also contributes to our understanding of the history of Islam in early to mid-twentieth century Turkey. This intellectual history of modern Islamic thought contributes to our understanding of the genre of Qur'an commentary in the early twentieth century. It is a key text for students and scholars interested in Islam in the Ottoman Empire and Turkey, modern Islamic thought and the Middle East.

The Korean War in Turkish Culture and Society Nadav Solomonovich, 2021-10-15. This book explores the important role that the Korean War played in Turkish culture and society in the 1950s. Despite the fact that fewer than 15,000 Turkish soldiers served in Korea, this study shows that the Turkish public was exposed to the war in an unprecedented manner, considering the relatively small size of the country's military contribution. It examines how the Turkish people understood the war and its causes, how propaganda was used to sell the war to the public and the impact of these messages on the Turkish public. Drawing on literary and visual sources, including archival documents, newspapers, protocols of parliamentary sessions, books, poems, plays, memoirs, cartoons and films, the book shows how the propaganda employed by the state and other influential civic groups in Turkey aimed to shape public opinion regarding the Korean War. It explores why this mattered to Turkish politicians, viewing this as instrumental in achieving the country's admission to NATO, and why it mattered to Turkish people more widely, seeing instead a war in the name of universal ideas of freedom, humanity and justice, and comparing the Turkish case to other states that participated in the war.

Building Modern Turkey Zeynep Kezer,2015-12-29 Building Modern Turkey offers a critical account of how the built environment mediated Turkey s transition from a pluralistic multiethnic and multireligious empire into a modern homogenized nation state following the collapse of the Ottoman Empire at the end of World War I Zeynep Kezer argues that the deliberate dismantling of ethnic and religious enclaves and the spatial practices that ensued were as integral to conjuring up a sense of national unity and facilitating the operations of a modern nation state as were the creation of a new capital Ankara and other sites and services that embodied a new modern way of life The book breaks new ground by examining both the creative and destructive forces at play in the making of modern Turkey and by addressing the overwhelming frictions during this profound transformation and their long term consequences By considering spatial transformations at different scales from the experience of the individual self in space to that of international geopolitical disputes Kezer also illuminates the concrete and performative dimensions of fortifying a political ideology one that instills in the population a sense of membership in and allegiance to the nation above all competing loyalties and ensures its longevity **Shari`a in the**

Secular State Russell Powell,2016-06-10 Words in both law and religion can shape power relationships and are often highly disputed Shari a lies within the overlap of these two spheres and provides a unique subject for the study of meaning in that liminal space This book contributes important insights related to Islamic jurisprudence and secularism in the Turkish context and regarding the role of language in contested legal and religious contexts The study begins by providing a historical framework for the ideas and terms covered including concepts of religion in general Shari a in particular and secularism in the Turkish state It goes on to examine empirical research to describe and analyze contemporary Turkish understandings of religion and Shari a The author s research indicates that there is often a disconnect between supporting the adoption of Shari a and supporting the regulation of everyday behavior through civil codes Thus Shari a seems to have taken on new meanings as groups have sought either to appropriate or criticize it It is a quintessential example of fractured and contextual meaning at the center of both religious and legal traditions This book is essential reading for both academics and those interested in law linguistics history political science anthropology sociology religious studies or Near Eastern studies

Political Reform in the Ottoman and Russian Empires Adrian Brisku,2017-09-21 Throughout the long 19th century the Ottoman and Russian empires shared a goal of destroying one another Yet they also shared a similar vision for imperial state renewal with the goal of avoiding revolution decline and isolation within Europe Adrian Brisku explores how this path of renewal and reform manifested itself forging new laws and institutions opening up the economy to the outside world and entering the European political community of imperial states Political Reform in the Ottoman and Russian Empires tackles the dilemma faced by both empires namely how to bring about meaningful change without undermining the legal political

and economic status quo The book offers a unique comparison of Ottoman and Russian politics of reform and their connection to the wider European politico economic space **Modernizing Repression** Jeremy Kuzmarov,2012 A probing analysis of the impact of American policing operations abroad Rethinking Modernity and National Identity in Turkey Sibel Bozdoğan,Reşat Kasaba,1997 In the first two decades after World War II social scientists heralded Turkey as an exemplar of a modernizing nation in the Western mold The essays in this book are the first attempt to examine the Turkish experiment with modernity from a broad interdisciplinary perspective encompassing the fields of history the social sciences the humanities architecture and urban planning **Turkey's Engagement with Modernity** C. Kerslake,K. Öktem,P. Robins,2010-02-25 Turkey s Enagement with Modernity explores how the country has been shaped in the image of the Kemalist project of nationalist modernity and how it has transformed if erratically into a democratic society where tensions between religion state and society continue unabated Enlightening Europe on Islam and the Ottomans Carter V. Findley,2019 D Ohsson s Tableau g n ral de l Empire othoman is the most authoritative magnificently illustrated work of the Enlightenment on Islam and the Ottomans A practical work for statesmen the Tableau delighted all readers with profuse illustrations verbal and visual of Ottoman life Modernity, Islam, And Secularism In Turkey Alev Çinar, A fascinating look at the relation between Islam and modernity International Journal of Turkish Studies ,2009 *Social Theory and Later Modernities* Ibrahim Kaya,2004-02-01 The debate on varieties of modernity is central to current social theory and research and this book explores the theme in relation to the culture and society of Turkey The book focuses on the Kemalist project to create a modern Turkish nation state analysing its historical background the role of concepts of ethnicity and nation and the configurations of state society and economy in the new Turkish republic The author then moves on to examine the relations between Islam and modernity arguing that both must be understood as open to multiple interpretations rather than seen as monolithic and as diametrically opposed He considers the rise of Islamism in Turkey and looks in particular at the paradoxical role of women activists within the Islamist movement Ultimately Kaya argues that Islamism must be understood as a modern movement albeit a paradoxical one rather than simply as a return to tradition Islam and Modernity in Turkey B. Silverstein,2011-01-31 In contrast to much of the Muslim world a majority of Turks consider Islam to be primarily a matter of personal choice and private belief How did such an arrangement come about Moreover most observant Muslims in Turkey do not see such a conception and practice of Islam as illegitimate Why not Islam and Modernity in Turkey addresses these questions through an ethnographic study of Islamic discourses and practices and their articulation with mass media in Turkey against the background of late Ottoman and early Republican precedents This ground breaking book sheds new light on issues of commensurability and difference in culture religion and history and reformulates our understanding of Islam secularism and public life in Turkey the Muslim world and Europe **Turkey facing east** Ayla Gol,2015-11-01 Turkey facing east is about the importance of Turkey s relations with its Eastern neighbours Azerbaijan Armenia and the Soviet

Union during the emergence of the modern Turkish nation state from the ruins of the Ottoman Empire The principal strength of this book is that it not only combines historical and theoretical arguments in order to provide a better understanding of the foreign relations of a predominantly Muslim country from a critical and interdisciplinary perspective but it also applies the new approach to the analysis of Turkish foreign policy towards the South Caucasus between 1918 and 1921 Hence it stands out with its original interdisciplinary approach to the Turkish transition and foreign policy making that offers perspectives on the extant possibilities for the particular transitional states resulting from the Arab spring uprisings *Modernity, Islam, and Secularism in Turkey* Alev Cinar, 2005 A fascinating look at the relation between Islam and modernity **New**
