Valerius Gedenck Clanck

John Alexander Fuller-Maitland

Valerius Gedenck Clanck:

The Lute in the Netherlands in the Seventeenth Century Jan W.J. Burgers, Tim Crawford, Matthew Spring, 2016-08-17 The lute played a central role in the rich musical culture of the seventeenth century Golden Age of the Dutch Republic Like the piano in the nineteenth century the lute was not just a popular instrument for solo music making but was also used widely in ensembles and to accompany singers Though mainly an instrument of the social elite and the aristocracy it was also played by the numerous and prosperous burgher class The first part of the book deals with psalm settings for the lute the way professional lutenists coped with the harsh rules of the free market Leiden as a veritable international lute centre and the different types of lutes that can be reconstructed on the basis of the Dutch paintings of the period The second part of the book is dedicated to Constantijn Huygens 1596 1687 the well known poet and statesman and avid player of and composer for the lute The third and final section deals with Dutch sources of lute music printed as well as those in manuscript Taken together this volume provides a broad and many layered overview of the lute in the seventeenth century Collectively the articles will further the reader's understanding of the lute in its social and cultural context not only in the Netherlands but also on the wider European canvas

Grove's Dictionary of Music and Musicians George Grove, Henry Cope Colles, 1926

The Embarrassment of Riches Simon Schama, 1988 In a brilliantly inventive work bestselling author Simon Schama explores the enigma of 17th century Holland a nation that attained an unprecedented level of affluence yet lived in constant dread of being corrupted by prosperity Drawing on a vast array of period documents and sumptuously reproduced art THE EMBARRASSMENT OF RICHES throbs with life on every page 314 photos illustrations Copyright Libri GmbH All rights reserved

Vedantic Hinduism in Colonial Bengal Victor A. van Bijlert, 2020-08-31 This book explores the ways in which modern Hindu identities were constructed in the early nineteenth century It draws parallels between sixteenth and seventeenth century Protestantism and the rise of modernity in the West and the Hindu reformation in the nineteenth century which contributed to the rise of Vedantic Hindu modernity discourse in India The nineteenth century Hindu modernity it is argued sought both individual flourishing and collective emancipation from Western domination For the first time Hinduism began to be constructed as a religion of sacred texts In particular texts belonging to what could be loosely called Vedanta Upanishads and the Bhagavad Gita In this way the main protagonists of this Vedantist modernity were imitating Western Protestantism but at the same time also inventing totally novel interpretations of what it meant to be Hindu The book traces the major ideological paths taken in this cultural religious reformation from its originator Rammohun Roy up to its last major influence Rabindranath Tagore Bringing these two versions of modernity into conversation brings a unique view on the formation of modern Hindu identities It will therefore be of great interest to scholars of religious Hindu and South Asian studies as well as religious history and interreligious dialogue

European Music, 1520-1640 James

Innocence Abroad Benjamin

Schmidt, 2001-11-12 *Innocence Abroad* explores the encounter between the Netherlands and the New World in the sixteenth and seventeenth centuries

The Ideology of Burgundy Jonathan Boulton, Jan Veenstra, 2006-07-01 This book is a collection of eight essays on the ideology of Burgundy dealing with the body of ideas, images, institutions and narrative fictions produced at the behest of the Valois dukes to create and maintain their incipient domanial state in the period from roughly 1364 to the 1560s. Nation building requires an ideological framework and the successive dukes, their officers and their court intellectuals all contributed to a self-determinative image of Burgundy which became visible in their literature in their quest for a regal title in the foundation of the Order of the Golden Fleece and in their propaganda. The essays approach the themes of the collection from the perspective of several disciplines and together present a well-rounded picture of Burgundian nation building. Contributors include D. A. J. D. Boulton, Jan Dumolyn, Malte Prietzel, Graeme Small, Robert Stein, Bernhard Sterchi, Jan R. Veenstra and David J. Wrisley

Grove's Dictionary of Music and Musicians John Alexander Fuller-Maitland, 1909

The Lute in the Dutch Golden Age Jan W.J. Burgers, 2025-10-01 The lute's cultural impact throughout the Dutch Golden Age can be compared to that of the piano in the 19th century. It was the universal instrument for solo music making as well as in ensembles and to accompany singers, mainly associated with the social elite, the aristocracy and the prosperous burghers. This richly illustrated book is the first to showcase famous and obscure lutenists, professional musicians and amateurs, the lute music in books and manuscripts, the lute makers and the international lute trade while also exploring the place of the instrument in the Dutch literature and art of the period

Grove's Dictionary of Music and Musicians Sir George Grove, 1909

Delve into the emotional tapestry woven by Crafted by in **Valerius Gedenck Clanck** .
