The Space of Sex Shelton Waldrep,2021-05-20 As film and television become ever more focused on the pornographic gaze of the camera the human body undergoes a metamorphosis becoming both landscape and building part of an architectonic design in which the erotics of the body spread beyond the body itself to influence the design of the film or televisual shot The body becomes the mise en sc ne of contemporary moving imagery Opening The Space of Sex Shelton Waldrep sets up some important tropes for the book the movement between high and low art the emphasis on the body looking and framing the general intermedial and interdisciplinary methodology of the book as a whole The Space of Sex s second half focuses on how sex gender and sexuality are represented in several recent films including Paul Schrader s The Canyons 2013 Oliver Stone s Savages 2012 Steven Soderbergh s Magic Mike 2012 Lars Von Trier s Nymphomaniac 2013 and Joseph Gordon Levitt s Don Jon 2013 Each of these mainstream or independent movies and several more are examined for the ways they have attempted to absorb pornography if not the pornography industry specifically into their plot According to Waldrep the utopian elements of seventies porn get reprocessed in a complex way in the twenty first century as both a utopian impulse the desire to have sex on the screen to re eroticize sex as something positive and lacking in shame with a mixed feeling about pornography itself with an industry that can be seen in a dystopian light In other words sex in our contemporary world still does not come without compromise
