Varieties of Secularism in Asia Nils Ole Bubandt, Martijn Van Beek, 2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology Varieties of Secularism in Asia

Secularization and Democratic Politics in South Asia Humeira Iqtidar, Tanika Sarkar, 2018-07-19 What is the relationship between secularization and tolerance Critically analyzing the empirical and theoretical foundations of a putatively linear relationship between the two this volume argues for moving past both romanticised readings of pre modern tolerance and the unthinking belief that secularization will inevitably lead to tolerance The essays collected in this volume include contributions from across South Asia that suggest that democratic politics have added a layer of complexity to questions of peaceful co existence Modern transformations in religious thought and practice have had contradictory implications for tolerance which offer rich insights into contemporary debates in the region This multi disciplinary volume

which spans history sociology anthropology and political theory questions the uncritical acceptance of tolerance as the best framework for engaging with difference and probes the complications created by and through democratic politics *Asia and the Secular* Pascal Bourdeaux,Eddy Dufourmont,André Laliberté,Rémy Madinier,2022-09-20 This volume looks at the secular state in the context of contemporary Asia and investigates whether there existed before modernity antecedents to the condition of secularity understood as the differentiation of the sphere of the religious from other spheres of social life The chapters presented in this book examine this issue in national contexts by looking at the historical formation of lexicons that defined the secular the secular state and secularism This approach requires paying attention to modern vernacular languages and their precedents in written traditions with often a very long tradition This book presents three interpretive frameworks multiple modernities variety of secularisms and typologies of post colonial secular states **Secularism, Religion, and Democracy in Southeast Asia** Vidhu Verma,2019-08-24 Until the 1990s secularism was understood largely as exclusion of religion from the public domain However in the last two decades the world has witnessed the return of religion as a medium and subject of national regional and global politics With such a shift the previously unquestioned Western values of modernity and secularism find themselves at loggerheads with the increasing assertion of religious identity which results in difference based conflicts This antagonism also gives rise to a vibrant religiously pluralistic civil society and speaks of a post secular turn in modern Southeast Asian democracies *Secularism Religion and Democracy in Southeast Asia* tries to understand the rise of religion in modern democracies and how everyday economic social and political conditions aid this post secular phenomenon in Southeast Asia Setting itself apart from most studies of religion in Southeast Asia through its regional focus this volume explores the ideas practices state responses and anxieties related to the religious secular divide in this geopolitical region **Secularism, Decolonisation, and the Cold War in South and Southeast Asia** Clemens Six,2017-07-20 The intensifying conflicts between religious communities in contemporary South and Southeast Asia signify the importance of gaining a clearer understanding of how societies have historically organised and mastered their religious diversity Based on extensive archival research in Asia Europe and the United States this book suggests a new approach to interpreting and explaining secularism not as a Western concept but as a distinct form of practice in 20th century global history In six case studies on the contemporary history of India Indonesia Malaysia and Singapore it analyses secularism as a project to create a high degree of distance between the state and religion during the era of decolonisation and the emerging Cold War between 1945 and 1970 To demonstrate the interplay between local and transnational dynamics the case studies look at patterns of urban planning the struggle against religious nationalism conflicts around religious education and anti communism as a dispute over secularism and social reform The book emphasises in particular the role of non state actors as key supporters of secular statehood a role that has thus far not received sufficient attention A novel approach to studying secularism in Asia the book discusses the different ways that global transformations such as decolonisation and the Cold War

interacted with local relations to reshape and relocate religion in society It will be of interest to scholars of Religious Studies International Relations and Politics Studies of Empire Cold War Studies Subaltern Studies Modern Asian History and South and Southeast Asian Studies **State And Secularism: Perspectives From Asia** Chin Liew Ten, Michael Siam-heng

Heng, 2010-02-03 The concept of a secular state is important in many parts of Asia and how this is resolved has important implications for the social economic and political development of various Asian countries Unfortunately problems of the secular state have all along been studied based on the historical experience of state formation in Europe with little or no input from the Asian perspective This book will for the very first time present mainly Asian perspectives while drawing on Western experience as well Conceptual issues are discussed together with detailed accounts on how different countries and traditions understand and seek to implement the ideas of a secular state The Secular in South, East, and Southeast Asia Kenneth Dean, Peter van der Veer, 2018-06-13 This innovative edited collection provides a comprehensive analysis of modern secularism across Asia which contests and expands prevailing accounts that have predominantly focused on the West Its authors highlight that terms like secular secularization and secularism do not carry the same meanings in the very different historical and cultural contexts of Asia Critiquing Charles Taylor's account of secularism this book examines what travelled and what not in the imperial encounter between Western secular modernity and other traditions outside of the West Throughout the book state responses to religion at different points in Chinese and South East Asian history are carefully considered providing a nuanced and in depth understanding of post secular strategies and relations in these areas Particular attention is given to Catholicism in the Philippines Vietnam and Singapore and Hinduism and Chinese religion in Malaysia Singapore and India This theoretically engaged work will appeal to students and scholars of Asian studies anthropology religious studies history sociology and political science **Controversies in Contemporary Religion** Paul

Hedges, 2014-09-09 Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world Written by a range of scholarly contributors this three volume set provides contextual background information and detailed explanations of religious controversies across the globe Controversies in Contemporary Religion Education Law Politics Society and Spirituality is a three volume set that addresses a wide variety of current religious issues analyzing religion's role in the rise of fundamentalism censorship human rights environmentalism and sustainability sexuality bioethics and other questions of widespread interest Providing in depth context and analysis far beyond what's available in the news or online this work will enable readers to understand the nature of and reasons for controversies in current headlines The first volume covers theoretical and academic debates the second looks at debates in the public square and ethical issues while the third examines specific issues and case studies These volumes bring detailed and careful debate of a range of controversies together in one place including topics not often covered for example how religions promote or hinder social cohesion and peace the relationship of religions to human rights and the intersection of Buddhism and violence Written by a range of

experts that includes both established and emerging scholars the text explains key debates in ways that are accessible and easy to understand for lay readers as well as undergraduate students researching particular issues or global religious trends

Tibetan Democracy Trine Brox, 2016-06-10 How do you govern 130 000 people from exile Tibet and the struggles of diaspora Tibetans are elements of an ongoing and highly debated issue The Dalai Lama's democratisation process during his time in India from 1959 2011 and the subsequent election of Lobsang Sangay as prime minister in exile marked to the Tibetan people the move away from a seemingly feudal societal structure and traditional theocratic governance Central to these Tibetan democracy aspirations is the freedom struggle in which Tibetans dream of an ideal politics which includes both Tibetans residing in Tibet and those in exile with the ultimate goal of returning to a self ruled Tibet However some have questioned whether the fight for democracy has helped or hindered a united and free Tibet To elucidate this complex debate Trine Brox has undertaken extensive fieldwork investigating how democracy is viewed and practised amongst Tibetans in exile In so doing she explores how the Tibetans living in India imagine organise and negotiate governance that is modern and democratic but uniquely Tibetan This is an important book for those with an interest in Tibet diaspora communities and democracy
