Vaudois Histoire Gabriel Audisio:

A Companion to the Waldenses in the Middle Ages Marina Benedetti, Euan Cameron, 2022-06-27 The medieval dissenters known as Waldenses named after their first founder Valdes of Lyons have long attracted careful scholarly study especially from specialists writing in Italian French and German Waldenses were found across continental Europe from Aragon to the Baltic and East Central Europe They were long lived resilient and diverse They lived in a special relationship with the prevailing Catholic culture making use of the Church's services but challenging its claims Many Waldenses are known mostly or only because of the punitive measures taken by inquisitors and the Church hierarchy against them This volume brings for the first time a wide ranging multi authored interpretation of the medieval Waldenses to an English language readership across Europe and over the four centuries until the Reformation Contributors Marina Benedetti Peter Biller Luciana Borghi Cedrini Euan Cameron Jacques Chiffolleau Albert de Lange Andrea Giraudo Franck Mercier Grado Giovanni Merlo Georg Modestin Martine Ostorero Damian J Smith Claire Taylor and Kathrin Utz Tremp

The Construction of Reformed Identity in Jean Crespin's Livre des Martyrs Jameson Tucker, 2017-03-31 Between 1554 and 1570 the Genevan printer Jean Crespin compiled seven French language editions of his martyrology In The Construction of Reformed Identity in Jean Crespin's Livre des Martyrs Jameson Tucker explores how this martyrology helped to shape a distinct Reformed identity for its Protestant readership with a particular interest in the stranger groups that Crespin included within his Livre des Martyrs By comparing each edition of the Livre des Martyrs this book examines Crespin's editorial processes and considers the impact that he intended his work to have on his readers Through this it provides a window into the Reformed Church and its members during the outbreak of the French Wars of Religion This is the first volume to comparatively study all seven French language editions of Crespin's Livre des Martyrs and will be essential reading for all scholars of the Reformation and early modern France

The Biblical Roots of American Constitutionalism Joseph Livni, 2021-04-14 According to the conventional wisdom American constitutional democracy stemmed from Athenian democracy Roman Law English legal practices and the Magna Carta This book agrees that democracy was born in Athens However as the title suggests the thesis of this book claims that constitutionalism in the sense of an agreed text sanctioning procedures of legislation government and power flow germinated in pre state Israel better known as Israel of the Judges The thesis of the book consists of three concepts 1 The roots of American constitutionalism are in biblical Israel this concept has been debated by scholars of constitutional history 2 Proto Israel also known as Israel of the Judges had no king as the Book of Judges claims however it had a covenant which it enforced Naturally this belief is as old as the Bible however its proof is new 3 American constitutionalism did not stem from studying and applying biblical recipes It rather evolved through a sequence of embodiments each passing on the torch of essential traditions to its heir This concept is new The book is not intended to shake your understanding of the constitution however it will answer questions you might have asked or even questions you

never asked Judging the French Reformation E. William Monter, 1999 This original look at the French Reformation pits immovable object the French appellate courts or parlements against irresistible force the most dynamic forms of the Protestant Reformation Without the slightest hesitation the high courts of Renaissance France opposed these religious innovators By 1540 the French monarchy had largely removed the prosecution of heresy from ecclesiastical courts and handed it to the parlements Heresy trials and executions escalated dramatically But within twenty years the irresistible force had overcome the immovable object the prosecution of Protestant heresy by then unworkable was abandoned by French appellate courts Until now no one has investigated systematically the judicial history of the French Reformation William Monter has examined the myriad encounters between Protestants and judges in French parlements extracting information from abundant but unindexed registers of official criminal decisions both in Paris and in provincial capitals and identifying more than 425 prisoners condemned to death for heresy by French courts between 1523 and 1560 He notes the ways in which Protestants resisted the French judicial system even before the religious wars and sets their story within the context of heresy prosecutions elsewhere in Reformation Europe and within the long term history of French criminal justice

Heresy, Literature and Politics in Early Modern English Culture David Loewenstein, John Marshall, 2006-12-21 This interdisciplinary volume of essays brings together a team of leading early modern historians and literary scholars in order to examine the changing conceptions character and condemnation of heresy in sixteenth and seventeenth century England Definitions of heresy and heretics were the subject of heated controversies in England from the English Reformation to the end of the seventeenth century These essays illuminate the significant literary issues involved in both defending and demonising heretical beliefs including the contested hermeneutic strategies applied to the interpretation of the Bible and they examine how debates over heresy stimulated the increasing articulation of arguments for religious toleration in England Offering fresh perspectives on John Milton Thomas Hobbes John Locke and others this volume should be of interest to all literary religious and political historians working on early modern English culture

Early Modern Ethnic and Religious Communities in Exile Yosef Kaplan, 2017-11-06 In the Early Modern period the religious refugee became a constant presence in the European landscape a presence which was felt in the wake of processes of globalization on other continents as well During the religious wars which raged in Europe at the time of the Reformation and as a result of the persecution of religious minorities hundreds of thousands of men and women were forced to go into exile and to restore their lives in new settings In this collection of articles an international group of historians focus on several of the significant groups of minorities who were driven into exile from the sixteenth to the eighteenth centuries The contributions here discuss a broad range of topics including the ways in which these communities of belief retained their identity in foreign climes the religious meaning they accorded to the experience of exile and the connection between ethnic attachment and religious belief among others
