Through Wagners Nibelung Nibelungen Classic:

The Ring of the Nibelung Richard Wagner, 2018-07-26 A superb new translation of one of the greatest nineteenth century poems the libretto to Wagner's Ring cycle The scale and grandeur of Wagner's The Ring of the Nibelung has no precedent and no successor It preoccupied Wagner for much of his adult life and revolutionized the nature of opera the orchestra the demands on singers and on the audience itself The four operas The Rhinegold The Valkyrie Siegfried and Twilight of the Gods are complete worlds conjuring up extraordinary mythological landscapes through sound as much as staging Wagner wrote the entire libretto before embarking on the music Discarding the grand choruses and bravura duets central to most operas he used the largest musical forces in the context often of only a handful of singers on stage The words were essential he was telling a story and making an argument in a way that required absolute attention to what was said The libretto for The Ring lies at the heart of nineteenth century culture It is in itself a work of power and grandeur and it had an incalculable effect on European and specifically German culture John Deathridge's superb new translation with notes and a fascinating introduction is essential for anyone who wishes to get to grips with one of the great musical experiences

Ring Des Nibelungen Richard Wagner,1882 **Wagner's Ring of the Nibelung** Barry Millington,Stewart Spencer,2013-06-14

Scrupulous planned and executed with quite unusual care Opera There has long been a need for a modern English translation of Wagner s Ring a version that is reliable and readable yet at the same time is a true reflection of the literary quality of the German libretto This acclaimed translation which follows the verse form of the original exactly fills that niche It reads smoothly and idiomatically yet is the result of prolonged thought and deep background knowledge The translation is accompanied by Stewart Spencer s introductory essay on the libretto and a series of specially commissioned texts by Barry Millington Roger Hollinrake Elizabeth Magee and Warren Darcy that discuss the cycle s musical structure philosophical implications medieval sources and Wagner s own changing attitude to its meaning With a glossary of names a review of audio and video recordings and a select bibliography the book is an essential complement to Wagner s great epic
