The Debt Trap Sebastien Canderle, 2016-09-19 This is the inside story of private equity dealmaking Over the last 40 years LBO fund managers have demonstrated that they are good at making money for themselves and their investors But when one looks beneath the surface of the transactions they engineer it is apparent that these deals can at times go spectacularly wrong Through 14 business stories all emanating from the noughties credit bubble and including headline grabbing names like Caesars Debenhams EMI Hertz Seat Pagine Gialle and TXU The Debt Trap shows how via controversial practices like quick flips repeat dividend recaps heavy cost cutting and asset stripping leveraged buyouts changed for better or for worse the way private companies are financed and managed today From technological disruption in the worlds of music recording and business directory publishing to economic turbulence in the gambling real estate and energy sectors highly levered corporations are often incapable of handling market corrections when debt commitments start piling up Behind the historical events and the financial empires erected by some of the elite private equity specialists these 14 in depth case studies examine how value maximising techniques and a short cut mentality can impact investment returns and portfolio assets Whether you are a PE practitioner investor business manager academic or business student you will find The Debt Trap to be an authoritative and fascinating account

Prison Law Mary Rogan, 2016-08-19 Prison litigation is becoming increasingly common in Ireland. Prison numbers are at an all time high and conditions in many Irish prisons have been criticised by international and domestic human rights bodies such as the Irish Penal Reform Trust and the Inspector of Prisons who have voiced concern about the lack of accountability for decisions taken by prison administrators on issues such as discipline, transfers and release. The rights of prisoners are a key focus of the book. These rights are examined in relation to prison conditions, contact with the outside world, discipline, remission, transfer and release. *Prison Law* analyses practical issues that prison law practitioners are likely to come up against such as causes of action, evidential difficulties and time limits. Written from both a domestic and international perspective, the book sets out the position in Irish prisons of particular groups including women, children, foreign prisoners and those from an ethnic minority background and identifies areas in which the treatment of prisoners gives rise to concerns under the Constitution or the European Convention on Human Rights. The most up to date book in this legal area, *Prison Law* also includes an appendix setting out the fully consolidated Prison Rules 2007/2013. This title is included in Bloomsbury Professional's Irish Criminal Law online service.

The SAGE Handbook of Global Policing Ben Bradford, Beatrice Jauregui, Ian Loader, Jonny Steinberg, 2016-07-14 The SAGE Handbook of Global Policing examines and critically retraces the field of policing studies by posing and exploring a series of fundamental questions to do with the concept and institutions of policing and their relation to social and political life in today's globalized world. The volume is structured in the following four parts: Part One: Lenses; Part Two: Social and Political Order; Part Three: Legacies; Part Four: Problems and Problematics. By bringing new lines of vision and new voices to the social analysis of policing and by clearly demonstrating why policing matters, the Handbook will be an essential tool for anyone in the field.

From the moment it was published, one thing was clear: no university could afford to ignore its well documented and disturbing findings about the failings of undergraduate education. Now Arum and Roksa are back and their new book follows the same cohort of undergraduates through the rest of their college careers and out into the working world. Built on interviews and detailed surveys of almost a thousand recent college graduates from a diverse range of colleges and universities, *Aspiring Adults Adrift* reveals a

generation facing a difficult transition to adulthood Recent graduates report trouble finding decent jobs and developing stable romantic relationships as well as assuming civic and financial responsibility yet at the same time they remain surprisingly hopeful and upbeat about their prospects Analyzing these findings in light of students performance on standardized tests of general collegiate skills selectivity of institutions attended and choice of major Arum and Roksa not only map out the current state of a generation too often adrift but enable us to examine the relationship between college experiences and tentative transitions to adulthood Sure to be widely discussed *Aspiring Adults Adrift* will compel us once again to re examine the aims approaches and achievements of higher education
