Truth Or Death The Quest For Immortality In The Western Narrative Tradition:

Truth Or Death Thierry Hentsch, 2004 A reading of seminal texts from Ulysses to Hamlet and from the Torah to the Gospels that shape Western perspectives *Postmortal Society* Michael Hviid Jacobsen, 2017-03-31 Throughout history mankind has struggled to reconcile itself with the inescapability of its own mortality This book explores the themes of immortality and survivalism in contemporary culture shedding light on the varied and ingenious ways in which humans and human societies aspire to confront and deal with death or even seek to outlive it as it were Bringing together theoretical and empirical work from internationally acclaimed scholars across a range of disciplines *Postmortal Society* offers studies of the strategies adopted and means available in modern society for trying to cheat death or prolong life the status of the dead in the modern Western world the effects of beliefs that address the terror of death in other areas of life the immortalisation of celebrities the veneration of the dead in virtual worlds symbolic immortality through work the implications of understanding immortality in chemical neuronal terms and the apparent paradox of our greater reverence for the dead in increasingly secular capitalist societies A fascinating collection of studies that explore humanity's attempts to deal with its own mortality in the modern age this book will appeal to sociologists anthropologists philosophers and scholars of cultural studies with interests in death and dying *Spiritual Dimensions of Bediuzzaman Said Nursi's Risale-i Nur* Ibrahim M.

Abu-Rabi', 2008-07-24 The Nur community is one of the most significant religious and social movements in contemporary Turkey with millions of adherents and a strong institutional and educational system throughout the country This volume presents a picture of its spiritual dimensions by focusing on the ideas of its founder Turkish theologian Bediuzzaman Said Nursi 1877 1960 Prominent scholars in contemporary Islamic studies and comparative spirituality examine the various facets of Nursi's spirituality as revealed in his magnum opus *Risale-i Nur* which began to take shape in the 1920s and is considered Nursi's deep reflection on the Quran in light of rapidly changing conditions in Turkey Nursi argued that Islam must be organically linked to empire in order to preserve its identity in the modern era fostering a spiritual tradition that has steadfastly survived the secular project of Kemalism **The Social Brain** Sal Restivo, 2023-01-09 *The Social Brain* Sociological Foundations introduces the concept of the social brain including a detailed conceptual model of the social brain networked in the world The idea that our brains are social has its roots in nineteenth century social thought and primate research initiated in the 1950s It was introduced into the neuroscience literature in 1990 as a challenge to the traditional view of the isolated bio medical brain a view that still dominates the scientific media and public imaginations Sal Restivo's foundational thesis is that humans arrive on the evolutionary stage always already and everywhere social We have social selves social brains and social genes He argues the I is a grammatical illusion reflecting the myth of individualism The unique feature of this book is the amount of space devoted to constructing the sociological scaffolding needed to understand what the author means by the social self the social mind and the social brain The approach leads to new ways of thinking about

socialization consciousness and creativity as networked phenomena The result is a novel way of integrating the social self the biological self and the neurological self and erasing the classical boundaries between brain mind and body

Taming Time, Timing Death Rane Willerslev,Dorthe Refslund Christensen,2016-04-01 Departing from a persisting current in Western thought which conceives of time in the abstract and often reflects upon death as occupying a space at life's margins this book begins from position that it is in fact through the material and perishable world that we experience time As such it is with death and our encounters with it that form the basis of human conceptions of time Presenting rich interdisciplinary empirical studies of death rituals and practices across the globe from the US and Europe Asia The Middle East Australasia and Africa Taming Time Timing Death explores the manner in which social technologies and rituals have been and are implemented to avoid delay or embrace death or communicate with the dead thus informing and manifesting humans understanding of time It will therefore be of interest to scholars and students of anthropology philosophy sociology and social theory human geography and religion

Empire of Desire Thierry Hentsch,2008 The second volume in Hentsch's epic survey of the formative texts of the Western narrative tradition
