Chapter 1

Projects and Project Management

NOTES for the Instructor:

1. The study projects and the cases are posed as challenging assignments to students. This study guide elaborates all the material needed to teach those study guides and cases. The study projects can be assigned in two different ways:
 - a. If you want to evaluate the ability of the students to form assumptions, research materials, and understand the study projects, you can ask the students to work on the study project without any additional information. In this case, the students should be encouraged to obtain necessary information using the Internet.
 - b. If you want to provide all the information, you can provide that information shown in the following pages to solve the study projects.
