Vanished The Sixty Year Search For The Missing Men Of World War II:

Vanished Wil S. Hylton, 2014-11-04 From a mesmerizing storyteller the gripping search for a missing World War II crew their bomber plane and their legacy In the fall of 1944 a massive American bomber carrying eleven men vanished over the Pacific islands of Palau leaving a trail of mysteries According to mission reports from the Army Air Forces the plane crashed in shallow water but when investigators went to find it the wreckage wasn't there Witnesses saw the crew parachute to safety yet the airmen were never seen again Some of their relatives whispered that they had returned to the United States in secret and lived in hiding But they never explained why For sixty years the U S government the children of the missing airmen and a maverick team of scientists and scuba divers searched the islands for clues With every clue they found the mystery only deepened Now in a spellbinding narrative Wil S Hylton weaves together the true story of the missing men their final mission the families they left behind and the real reason their disappearance remained shrouded in secrecy for so long This is a story of love loss sacrifice and faith of the undying hope among the families of the missing and the relentless determination of scientists explorers archaeologists and deep sea divers to solve one of the enduring mysteries of World War II

Military Review, 2015 **Professional Journal of the United States Army**, 2015 *All Souls Day*

Joseph M. Pereira, John L. Wilson, 2020-11 The reconstruction of a little known battle during World War II and the impact it has to this day

Solo into the Rising Sun Ed Kittrell, 2020-06-01 When we think about World War II bombers we picture formations of scores of bombers escorted and protected by fighters flying into enemy territory and bombing the hell out of the enemy In Europe and usually the Pacific this was the standard approach but some bomber squadrons flew a different kind of mission This was the case for VPB 117 the Blue Raiders unique not only because its B 24 Liberators flew for the U S Navy and not the Army but also because most of the Raiders missions entailed bombers venturing out over the Pacific alone

to seek and destroy on long range missions of a thousand miles out and a thousand back often at altitudes close enough for sea spray to cloud their windows This is their story *Nightstalkers* Richard Phillip Lawless,2023-02-23 Takes the reader into the Pacific war and offers a front row seat to the exploits of the Wright Project and their highly innovative technology War History Network In August 1943 a highly classified US Army Air Force unit code named the Wright Project departed Langley Field for Guadalcanal in the South Pacific to join the fight against the Empire of Japan Operating independently under sealed orders drafted at the highest levels of Army Air Force the Wright Project was unique both in terms of the war fighting capabilities provided by classified systems the ten B 24 Liberators of this small group of airmen brought to the war and in the success these crash built technologies allowed The Wright airmen would fly only at night usually as lone hunters of enemy ships In so doing they would pave the way for the United States to enter and dominate a new dimension of war in the air for generations to come This is their story from humble beginnings at MIT s Radiation Lab and hunting U boats off America s eastern shore through to the campaigns of the war in the Pacific in their two year march toward Tokyo The Wright Project would prove itself to be a combat leader many times over and an outstanding technology innovator evolving to become the 868th Bomb Squadron Comprehensive and highly personal this story can now be revealed for the very first time based on official sources and interviews with the young men who flew into the night A limber romp across the world of electronics and into the history of World War II ARGunners.com **Vanishing Point** Tom Wilber,2023-05-15 In *Vanishing Point* award winning journalist and author Tom Wilber pieces together the largely forgotten story of the bomber *Getaway Gertie* and an eclectic group of enthusiasts who have spent years searching for it At the height of World War II a B 24 Liberator bomber vanished with its crew while on a training mission over upstate New York The final hours and ultimate resting place of pilot Keith Ponder and seven other US aviators aboard the plane remain mysteries to this day The tale is at once a compelling instance of loss on the World War II American home front and a more extensive largely unreported history Ponder a 21 year old from rural Mississippi and his crew were tragically unexceptional casualties in the monumental effort to recruit and train an air force en masse to counter the global conquest of Nazi Germany and Imperial Japan More than fifteen thousand American airmen and in some cases women burned crashed or fell to their deaths in stateside training accidents during the war their lives and stories shuffled away in piles of Air Force bureaucracy The forgotten story of *Getaway Gertie* was originally inspired by summer evenings around the campfire on the shores of Lake Ontario where parts of the plane have washed up Building on those campfire tales Wilber deftly connects myth with fact and memory with historicity The result is a vivid portrait of the forgotten soldier of the home front and a new take on the meaning of wartime sacrifice as the last survivors of the Greatest Generation pass away Multivocal Archaeologies of the Pacific War, 1941-45 Ben Raffield,Yu Hirasawa,Neil Price,2023-07-21 This volume draws together the ground breaking work of researchers and archaeological practitioners working in multiple countries to explore and understand the material and cultural impacts of the Pacific War

The combat taking place in the Pacific region during the years 1941-45 was characterized by a brutality and violence unmatched in any other theatre of the Second World War. Described by indigenous Micronesians as a typhoon, the war was an unstoppable force that rolled across the islanders' homes leaving only a trail of destruction in its wake with physical, psychological, and cultural impacts that continue to resonate today. This difficult period is examined in a variety of ways through chapters that include targeted studies of archaeological sites, wider surveys of battlefield landscapes, and the ways in which we commemorate the experiences and legacies of both combatants and civilian populations. The translation of important research by Okinawan, Japanese, and Russian archaeologists brings into focus regions that have previously been neglected in Anglophone literature and enriches this comprehensive exploration of the archaeology of the Pacific War. This book will be of interest to archaeological practitioners, students, and members of the general public working in conflict studies or with an interest in the material culture, history, and legacies of the Pacific War.

Bones of My Grandfather Clay Bonnyman Evans, 2018-07-10

War, reclamation, and what Tim O'Brien called the Lives of the Dead are eternal literary themes for men. Clay Bonnyman Evans has honored that lineage with this masterful melding of military history and personal quest. Ron Powers, co-author of New York Times 1 bestsellers *Flags of Our Fathers* and *True Compass*, along with *No One Cares About Crazy People* and others, says: "In November 1943, Marine 1st Lt. Alexander Bonnyman Jr. was mortally wounded while leading a successful assault on a critical Japanese fortification on the Pacific atoll of Tarawa and posthumously awarded the Medal of Honor, the nation's highest military honor. The brutal, bloody 76-hour battle would ultimately claim the lives of more than 1,100 Marines and 5,000 Japanese forces. But Bonnyman's remains, along with those of hundreds of other Marines, were hastily buried and lost to history following the battle, and it would take an extraordinary effort by a determined group of dedicated civilians to find him. In 2010, having become disillusioned with the U.S. government's half-hearted efforts to recover the lost Marines of Tarawa, Bonnyman's grandson, Clay Bonnyman Evans, was privileged to join the efforts of History Flight Inc., a non-governmental organization dedicated to finding and repatriating the remains of lost U.S. service personnel. In *Bones of My Grandfather*, Evans tells the remarkable story of History Flight's mission to recover hundreds of Marines long lost to history in the sands of Tarawa. Even as the organization begins to unearth the physical past on a remote Pacific island, Evans begins his own quest to unearth, reclaim, the true history of his grandfather, a charismatic, complicated hero whose life had been whitewashed, sanitized, and diminished over the decades. On May 29, 2015, Evans knelt beside a History Flight archaeologist as she uncovered the long-lost, well-preserved remains of his grandfather. And more than seventy years after giving his life for his country, a World War II hero finally came home."
