**Mechanical Ventilation from Pathophysiology to Clinical Evidence** Giacomo Bellani, 2022-03-16 This book aims to give a comprehensive overview of the current challenges and solution posed to the health care professionals who need to use mechanical ventilation to treat their patients Mechanical ventilation is a cornerstone of the treatment of critically ill patients as also dramatically underlined by the recent COVID 19 pandemic The topic is not simple to approach since it requires

integration of multiple data which in turn result from complex interplays between patient's condition and ventilatory settings. While technological development empowered advanced monitoring and decision support, these also increase the burden of data on the practitioners. Furthermore, considering that sometimes mechanical ventilation is seen under two apparently opposite approaches: physiology vs protocols, the book aims to reconcile these two aspects. And this has been done by each author following the above trajectory in their chapters. The exposure of the topic begins from the pathophysiology, i.e. the physiology of the disease, so that the reader can better understand the concept and rationale of any given approach. At the same time, any rationale or hypothesis for as much as supported by physiology must hold at the proof of clinical research and evidence, which is summarized in each chapter. In summary, the purpose is that the readers understand not only which is the best clinical practice to adopt but also why and which mechanisms this is based upon and how to approach a novel issue they might encounter. The book is addressed to physicians, nurses, and respiratory therapists. Features chapters on novel or hot topics like obviously COVID-19, ECMO, but also MV in low resource setting.

**The Other "F" Word** John Danner, Mark Coopersmith, 2015-03-04. Leverage the power of failure in your organization. Nobody wants to fail, but failure is a fact of life. Most of us treat it as a regrettable, even shameful event, best overlooked. In truth, failure can be a game-changing strategic resource that can help you and your organization achieve the greater success you crave. The Other F Word shows how successful leaders and teams are putting failure to work every day to re-engage employees, spark innovation, and accelerate growth. Authors Danner and Coopersmith, with their rare blend of senior-level executive experience, global advising, teaching acumen, and cross-discipline perspective, share these valuable new practices and show how they can improve results across your organization. Based on exclusive interviews with prominent leaders and insightful examples from their own in-depth work, the book features a practical seven-stage framework to liberate failure as a force to advance your leadership agenda. After all, everyone creates and confronts failure on a daily basis. Why not use it to your advantage? The Other F Word shows you how to: Start an open, productive conversation about failure across your organization; Reduce the fear of failure that stifles initiative, creativity, and engagement; Anticipate, prepare for, and respond to failure so you can leverage it when it happens; Harness failure as a catalyst to drive innovation, improve performance, and strengthen culture. Failure's like gravity: pervasive and powerful. Whether you're a leader or team member of a startup, a growing business, or an established enterprise, failure is today's lesson for tomorrow. Let The Other F Word show you how to apply this lesson and take your company where it needs to go.

**A Place to Call Home** Dr. Tom Obondo Okoyo, 2015-11-20. A Place to Call Home is a story of refugees, no community wanted to see anywhere close to them as if they were good for nothing. It is an epic portrayal of a painful dilemma of thousands of homeless, internally displaced persons (IDPs) who were victims of the highly contested and disputed presidential election. The novel is a true tear-jerking reflection of a botched election in December 2007 and January 2008, which culminated into a post-election violence that brutally killed almost a thousand innocent people. Some were burned.

alive inside a church Gods territory as they called where they had taken safe haven About seven hundred thousand people were forcibly removed from their homes some took refuge at police stations while others fled to neighboring countries to remain alive Business premises vehicles and other properties worth billions of shillings were destroyed and domestic animals were stolen This spate of violence happened at a time when thousands of ethnic militias heavily armed with homemade crude weapons were chanting war slogans and singing traditional war songs everywhere in the country Loyal to their respective presidential candidates the militias roamed the streets of towns and villages making every journey perilous Enemies who got caught were beheaded and their heads were paraded or displayed on the main highways Women were seized and gang raped by the militias and got infected with the deadly HIV AIDS virus Amazingly communities turned their backs against the combined IDPs who were looking for a permanent settlement calling them foreigners invaders or land grabbers in their own country Breathing under such horrifying circumstances all IDPs drawn from various tribes resolved to live together in peace and harmony and to prove to the world that they could live with people from other communities without any problem in spite of their language and cultural barriers The idea of living together was instilled in the IDPs by VP Nyandege who emerged as the leading light in their plight and the quest for what they could call home VP Nyandege won a special place in fellow IDPs hearts and made them believe that life was worth fighting for For seven years these IDPs have been living in squalid conditions or in makeshift camps waiting to be settled as promised by the ruling elite The IDPs lived in rough and ready dwellings with no food water toilet facilities social amenities or sanitation at all They were living in a world of their own no laws rules or culture to observe The fate of these IDPs is reminiscent of the Jews when they lived in Europe and were rejected by people in all countries after World War II and consequently had no place to call their home After seven years in isolated makeshift camps the IDPs were offered land to settle on by the Biblical Good Samaritan to prove that tribal groups once sworn enemies could live together peacefully and harmoniously And now these IDPs would like to build the countrys first utopia the same way the Israelis have transformed the desert land of Israel into another biblical Promised Land of Canaan the land of milk and honey This unfortunate event was disseminated throughout the world by the mass media
