Philippine-American Military History, 1902-1942 Richard B. Meixsel, 2015-10-02 Military obligations rested lightly upon the Filipino people for much of the period that America occupied the Philippines but Filipinos could enlist in the United States Army and Navy attend the service academies at West Point and Annapolis or join military organizations restricted to duty in the islands such as the Philippine Scouts Philippine Constabulary Philippine National Guard and the navy's insular force In the 1930s the Philippine government established its own armed forces Throughout much of this time the U S army also kept a substantial portion of its troop strength in the Philippines This annotated bibliography of nearly 700 titles highlights the extent and variety of the Philippine American military experience from the conquest of the islands by the United States in 1902 to the defeat of Philippine and American forces by the Japanese in 1942 The bibliography includes memoirs and biographies of Filipino and American officers and enlisted men from MacArthur to Ferdinand Marcos unit histories army post and navy base histories medals and insignia books and the most extensive list of prisoner of war memoirs yet published Annotations address controversies such as the widely disparate estimates of American deaths on the Bataan Death March and include previously unpublished information such as casualty figures for American and Philippine forces in 1941 1942 The Start of World War II in the Pacific Theater Charles River Editors, 2025-05-02 All Americans are familiar with the day that will live in infamy At 9 30 a m on Sunday December 7 1941 Pearl Harbor the advanced base of the United States Navy's Pacific Fleet was ablaze It had been smashed by aircraft launched by the carriers of the Imperial Japanese Navy All eight battleships had been sunk or badly damaged 350 aircraft had been knocked out and over 2 000 Americans lay dead Indelible images of the USS Arizona exploding and the USS Oklahoma capsizing and floating upside down have been ingrained in the American conscience ever since In less than an hour and a half the Japanese had almost wiped out America's entire naval presence in the Pacific Less than 24 hours earlier Japanese and American negotiators had been continuing their diplomatic efforts to stave off conflict in the region but as they did President Roosevelt and his inner circle had seen intelligence reports strongly suggesting an imminent attack though they did not know where The U S rightly believed that Japan would take action to prevent the Americans from interfering with their military activities in Southeast Asia and American military forces in the Philippines were already bracing for a potential attack However as the negotiations were ongoing the powerful Japanese carrier fleet had been surging southwards through the Pacific while maintaining radio silence

preparing to strike the blow that would ignite war in an area spanning half the globe Navy Commander in Chief Isoroku Yamamoto whose code of honor demanded that the Japanese only engage enemies after a formal declaration of war had been given assurances that his nation would be formally at war with the United States prior to the arrival of his planes over Pearl Harbor As it turned out those assurances were worth nothing and Yamamoto had been misled by extremists in his government just as the Americans were misled In fact the Japanese would infamously deliver documents formally cutting off negotiations with the American government after the attack on Pearl Harbor had already been conducted Far from a formal declaration of war America was attacked without warning plunging the world s largest democracy into history s deadliest conflict Pearl Harbor was unquestionably one of the seminal events in American history and given the nature of the surprise attack the entry of the U S into the war and the lingering controversies and conspiracy theories the attack on Pearl Harbor continues to be a highly charged and heavily debated event Those who had decoded and seen the Japanese communications in early December 1941 would not be surprised when they heard about an attack on December 7 1941 They would however be astonished when they heard where that attack took place Posted on the other side of the world it was early on the morning of December 8 in the Philippines when American general Douglas MacArthur received news of the Japanese attack on Pearl Harbor hours earlier With that it could only be a matter of time before the Japanese attacked the Philippines Although MacArthur and Allied forces tried to hold out they could only fight a delaying action and the Japanese managed to subdue all resistance by the spring of 1942 However in the aftermath of Japan s successful invasion as the nation s military strategists began preparations for the next phase of military actions in the theater their forces had to deal with a critical logistical problem they had not foreseen The Japanese had to deal with large numbers of Filipino and American soldiers who had surrendered after a lengthy defense in the Bataan peninsula but they were not prepared for so many prisoners of war because their own military philosophy emphasized rigid discipline and fighting until the end

have been figured in anglophone literary fiction The Pacific War 1941-1945 was fought across the world's largest ocean and left a lasting imprint on anglophone literary history However studies of that imprint or of individual authors have focused on American literature without drawing connections to parallel traditions elsewhere Beyond Hostile Islands contributes to ongoing efforts by Australasian scholars to place their national cultures in conversation with those of the United States particularly regarding studies of the ideologies that legitimize warfare Consecutively the book examines five of the most significant historical and thematic areas associated with the war island combat economic competition internment imprisonment and the atomic bombing of Hiroshima and Nagasaki Throughout the central issue pivots around the question of how or whether at all New Zealand fiction writing differs from that of the United States Can a sense of islandness the tyranny of distance Mori cultural heritage or the political legacies of the nuclear free movement provide grounds for distinctive authorial insights As an opening gambit Beyond Hostile Islands puts forward the term ideological coproduction to describe how a territorially and demographically more minor national culture may accede to the essentials of a given ideology while differing in aspects that reflect historical and provincial dimensions that are important to it Appropriately the literary texts under examination are set in various locales including Japan the Solomon Islands New Zealand New Mexico Ontario and the Marshall Islands The book concludes in a deliberately open ended pose with the full expectation that literary writing on the Pacific War will grow in range and richness aided by the growth of Pacific Studies as a research area
