Sport and Gender in Canada Kevin Young, Philip White, 2007 This contributed volume includes articles on sport and gender written by leading scholars in their areas of expertise Part I demonstrates that 1 the relationship between sport and gender has not developed in a smooth uncontested or linear way that always privileges all males and always discriminates against all females and 2 that the relationship between sport and gender can best be understood sociologically by tracing the intersections between sport gender and other ways that Canadian life has been and remains stratified such as social class age race ethnicity and sexuality In Chapter 1 Melissa Parker and Philip White explore the chronological development of theoretical frameworks addressing both the gendering of sport and what it means to be gendered in sport Michael Atkinson argues in Chapter 2 that there is a strong link between types of research methods used and knowledge claims made by researchers In Cultural Struggle and Resistance Gender History and Canadian Sport M Ann Hall traces the early moments of organized women's sport in Canada to show that women's sport in Canada is built on far stronger foundations than is often assumed In the following chapter Kevin Wamsley argues that not all men were privileged by early Canadian sport practices For instance he outlines the process through which sport became an arena for the construction of particular types of masculinity notably masculinities that helped reinforce the dominance of powerful groups of men Beginning from the premise that Canadian society and thus Canadian sport is far from classless Peter Donnelly and Jean Harvey provide numerous examples in Chapter 6 to show that there have been major social

class and gender inequalities throughout the history of sport. Again we are reminded that gender is a complex and multidimensional phenomenon that can best be understood if we trace power differences not only between different groups of men and women but also between different versions of masculinity and femininity associated with particular social groups, social classes and social settings. Part II of this book focuses on the work currently being done by leading researchers in the area of sport and gender in Canada on a broad spectrum of sport related topics. The chapters reflect a variety of theoretical standpoints and methodological procedures. These chapters emphasize the need to study gender in a way that is not only non categorical but perhaps moves beyond the distributive level towards understanding how sport assumes particular forms at particular historical junctures and grows out of relations of power that are determined culturally and reinforced ideologically. In Chapter 6 Sally Shaw and Larena Hoeber show how the prevalence of gendered discourses hinders the achievement of gender equity in Canadian amateur sport organizations. The idea that there is no singular masculinity and femininity operating within Canadian sport is developed in Chapter 7 in which Philip White and Kevin Young review research findings on gender and rates and types of sport injury. In Chapter 8 Caroline Davis observes that some femininities are more closely associated with body image disorders than others and discusses the biological, sociological and psychological factors acting on the relationship between sport, physical activity and eating disorders. Chapter 9 by Peter Donnelly, 'Who's Fair Game? Sport, Sexual Harassment and Abuse' identifies how power differences tend to exist at the heart of abusive and exploitive sport based relationships. Notions of power relations are also central to Chapter 10 written by Patricia Vertinsky and Sandra O'Brien Cousins on the effects of gender on participation in sport among older Canadians. Specifically their chapter demonstrates how older women are disadvantaged relative to men when it comes to involvement in sport and physical activity. Victoria Paraschak's chapter on sport and Canada's First Nations peoples. Chapter 11 provides vivid examples of how unequal gender relations are created and reproduced over time. Chapter 12 calls for a collapsing of the rigid binary categories of hetero/homosexuality on the grounds that these are used to preclude full and equal gay and lesbian participation in sport. Identifying patterns of exclusion from participation in sport and physical activity is also the focus of Chapter 13 which is authored by Wendy Frisby, Colleen Reid and Pamela Ponikvar. This chapter demonstrates how a combination of poverty and prevailing municipal recreation department policies seriously limit the opportunities of many women from active recreation. In Chapter 14 Brian Wilson explores how the media reinforces taken for granted understandings of gender appropriate orientations toward the body and sport. In the following chapter Jamie Bryshun and Kevin Young provide some of the first substantial evidence for the routine involvement of female athletes in initiation/hazing rituals in Canada and conclude that power relations between neophyte and veteran female players may be just as aggressive/coercive and high risk as those occurring on male teams. Sport and Gender in Canada reflects a growing body of work highlighting the diversity that exists among Canadian sportswomen and sportsmen in terms of factors such as age, race, heritage, sexuality and social class.

To speak of a generic sporting masculinity or femininity or indeed of a generic sporting experience simply does not do justice to the complexity of Canadian sporting life International Review for the Sociology of Sport ,2006-12 **Boys, Literacies, and Schooling** Leonie Rowan,2002 Current debates about boys and schooling in many Western nations are increasingly characterised by a sense of crisis as government reports academic research and the day to day experiences of teachers combine to indicate that boys are consistently underperforming in literacy boys are continuing to opt out of English and humanities boys represent the majority of behaviour problems and counselling referrals boys receive a disproportionate amount of special education support This book responds to the complexity of the current debates associated with boys gender reform literacy and schooling by offering a clear map of the current context highlighting the strengths and weaknesses of the various competing solutions put forward and outlining a range of practical classroom interventions designed for dealing with the boys literacy crisis The authors consider the ways in which particular views of masculinity gender reform literacy technology and popular culture can either open up or close down new conceptualisations of what it means to be a boy and what it means to be literate APAIS, Australian Public Affairs Information Service ,1999 Vol for 1963 includes section Current Australian serials a subject list **The Routledge Physical Education Reader** Richard Bailey,David Kirk,2009 Physical education teaching and research is fundamental to the physical and social health of our communities This book presents a selection of the very best international scholarship in physical education drawn from across the full topical range of the discipline **Whatever Happened to the Leisure Society?** Paul Gilchrist,Belinda Wheaton,2008 LSA 2007 What ever happened to the leisure society aims to turn the leisure studies multi disciplinary gaze to the shifts in leisure practices industries cultures and economies over the past 30 years or so The call for this timely reflection aims not only to consider work leisure shifts but also seeks to evaluate developments in the theorising of leisure The conference is aimed at academics including researchers research students and lecturers in leisure studies politics economics history sociology cultural studies cultural policy social policy and media studies Practitioners in the leisure services public private and voluntary will be attracted to the conference by distinctive policy and practice based contributions Practitioners from the cultural industries including market researchers industry analysts and cultural commentators will also find the conference of interest *Seminar* ,1996 **Schooled Bodies?** Majella McSharry,2009 This book explores how adolescents in contemporary western culture are schooled on issues of embodiment Despite an apparently growing lay consensus that adolescence is the time when concerns relating to the body are especially concentrated and complex sociological literature rarely makes any connection between the sociology of the body and the sociology of adolescence With its in depth conversations with adolescents themselves and its exploration of theoretical and empirical discourses the book bridges this gap Schooled Bodies is unique in offering a methodologically detailed account of the complexities encountered by the adolescents in their pursuit of a sense of embodied validation The in depth study allows readers to journey into the worlds of

teenagers from varied backgrounds as they reveal embodied narratives that shift frequently between happiness and heartache Working with these adolescents and their everyday encounters with theoretical perceptions means that the bodies in this book are not mere canvases that have sociological understandings done to them Instead the participants are agents who themselves actively negotiate investigate and instigate sociological understandings
