Adam Moon,2015-03-11 With the mechs guarding planet Beetar for a century they failed to notice new enemies coming for them One is an advanced alien species from another galaxy and the other is a former ally they thought was long dead The aliens enigmatically vanish promising to return to vanquish the mechs once they ve properly prepared for battle but the reprieve is momentary when the newest threat emerges The man who created them has come back to finish them off once and for all with a small army of his own creation Can Zero and a handful of rusty old mechs defeat a foe who has been preparing for their demise for a century Keywords space aliens first contact colonization starship spaceship robot space marine alien invasion *Zero 4.0* Adam Moon,2015-04-16 The red cloaked extragalactic aliens are poised to strike and the mechs have little time to prepare for them The new colony on planet Harbon

is thriving but the Reds can end that prosperity in seconds if the mechs can't stop them. The mechs decide that waiting is no longer an option and give chase but they may not like what they find. Meanwhile the Reds work tirelessly to reverse engineer a captured mech to create an army of their own. Once complete they'll drop most of them off on Earth to eradicate the pesky humans and drop the remainder off on Harbon to destroy the upstart colony. Zero and his handful of friends must go landside to take on those larger mechs leaving their ship virtually defenseless against attack. Can Zero survive the greatest threat the mechs have ever faced? Keywords: space aliens, first contact, colonization, starship, spaceship, robot, space marine, alien invasion.

They are an oppressive alien race who've subjected all other races to their rule and tricked humanity into doing their bidding for a century. The mechs don't know that the first battle was to be the easiest. They will face two more Beetar Commanders, the last being a living legend, before they can claim victory over planet Beetar and end tyranny throughout the galaxy. But the enemy isn't going to bow down for a ragtag group of humans and mechs. They'll stop at nothing to end the uprising, even going so far as to threaten Earth with total annihilation.
