Zero-sum World Gideon Rachman, 2010 As chief foreign affairs columnist for the Financial Times Gideon Rachman is one of the most influential commentators on international affairs This landmark first book shows that the international political system is entering a period of dangerous instability and crisis **Understanding American Power** Bryan Mabee, 2013-10-01 This broad ranging assessment of US power in the twenty first century covers not just the nature and mechanics of foreign policy but the broad array of economic military political social and ideological forces that shape America s global position and role all set in a clear historical context The Uncertain Legacy of Crisis Richard Youngs, 2014-01-21 The European Union is mired in the worst crisis it has seen for many decades And the crisis does not stop at Europe s edge It threatens to undercut the EU s ambitions to develop a coherent and active foreign policy but it is also forcing European states to reevaluate their approach to security and defense Richard Youngs examines the legacy of the crisis and what it will mean for the EU s international role The fallout undermines the EU s foreign policy capacity and tarnishes its normative brand compelling some member states to focus on realpolitik and their own national level policies But there are also signs of enhanced European cooperation greater international ambition and deepened commitment to the values of a liberal world order Youngs details how the EU can craft an effective foreign policy strategy while confronting an internal economic crisis and a reshaped global order **Just War and International Order** Nicholas J. Rengger, 2013-04-04 Argues the just war tradition rather than being a restraint on war has expanded its scope and criticises this trend **Global Power Europe - Vol. 1** Astrid Boening, Jan-Frederik Kremer, Aukje van Loon, 2013-03-28 This two volume project provides a multi sectoral perspective over the EU s external projections from traditional as well as critical theoretical and institutional perspectives and is supported by numerous case studies covering the whole extent of the EU s external relations The aim is to strive to present new approaches as well as detailed background studies in analyzing the EU as a global actor Volume 1 The first volume Theoretical and Institutional Approaches to the EU s External Relations addresses the EU s overall external post Lisbon Treaty presence both globally and regionally e g in its neighborhood with a special emphasis on the EU s institutional framework It also offers fresh and innovative theoretical approaches to understanding the EU s international position With a preface by Alvaro de Vasoncelos former Director European Union Institute for Security Studies Volume 2 The second volume Policies Actions and Influence of the EU s External Relations examines in both quantitative and qualitative contributions the EU s international efficacy from a political economic and social perspective based on a plethora of its engagements *Chinese Foreign Policy* Marc Lanteigne, 2013-03-05 This updated and expanded new edition of Chinese Foreign Policy examines the patterns of engagement with various domestic and international actors that have shaped Beijing s foreign policy since the Cold War It explores a series of ongoing questions and trends as well as offering an in depth look at the key areas of China s modern global relations Bringing together the

Zero-Sum Future Gideon Rachman, 2011-02-01 With a new foreword on the revolutions in the Arab world and the euro crisis one of the world's most influential commentators on international affairs offers a stark warning about a gathering global political crisis From one of the world's most influential commentators on international affairs chief foreign affairs columnist for the Financial Times comes a stark warning about a gathering global political crisis Successive presidents have welcomed globalization and the rise of China But with American unemployment stubbornly high and U.S. power facing new challenges the stage is set for growing rivalry between America and China The European Union is also ripping itself apart The win-win logic of globalization is giving way to a zero-sum logic of political and economic struggle The new world we now live in an age of anxiety is a less prosperous less stable world with old ideas overthrown and new ideologies and powers on the rise Rachman shows how zero-sum logic is thwarting efforts to deal with global problems from Afghanistan to unemployment climate change to nuclear proliferation This timely and important book details why international politics is

now more dangerous and volatile and suggests what can be done to break away from the crippling logic of a zero sum world
