**White Allies in the Struggle for Racial Justice** Boyd Drick , 2015-10-23 **Damned Whiteness** David F. Evans, 2025-10-28 The memory of the long civil rights movement often celebrates white men and women who drew on their religious faith to support Black demands for racial justice However the visions and actions of these leaders and their organizations often conflicted with those of Black leadership While Black activists fought for a broad vision of freedom white allies focused more narrowly on cultivating interracial friendship marching in parallel to Black movement leaders rather than alongside them Damned Whiteness offers an unflinching history of white led efforts at interracial organizing gone astray Considering the examples of Dorothy Day cofounder of the Catholic Worker Movement Clarence Jordan spiritual father of Habitat for Humanity and Ralph Templin a Christian missionary who studied nonviolence in Gandhi's India David F Evans reveals how religious white progressives inherited strategies that remained disconnected from the ideas and actions of Black communities These disconnects have often been cloaked as disagreements over religious doctrine and practice but Evans reveals how they stem from refusals to acknowledge Black leaders philosophies and freedom dreams Though these patterns persist Evans offers a way out of this legacy of white allyship and into a future where freedom is possible

Unschooling Racism Pierre W. Orelus, 2020-11-06 This book draws on critical race theories and teachers testimonials grounded in 20 years of teaching experiences to reveal the ways in which racial and cultural biases are embedded in school curricula and both their intended and unintended consequences on the learning and well being of students of color More specifically this book examines how these biases have played a significant role in the mis education misrepresentation and marginalization of African American Native American Latino and Asian students But the analysis doesn't stop there The author goes beyond the school walls to underscore how systemic racism paired with colonialism has impacted the lives of racially marginalized groups in both the United States and developing countries This book uncovers these injustices and proposes alternative ways in which racism can be unschooled
