Rothenberg, 2017-06-01 **Beyond Racial Gridlock** George Yancey, 2006-02-10 Sociologist George Yancey critiques four models of race colorblindness Anglo conformity multiculturalism and white responsibility and introduces a new model mutual responsibility He offers hope that people of all races can walk together on a shared path toward racial reconciliation not as adversaries but as collaborators and partners **The Reflexivity of Pain and Privilege** Ellis Hurd, 2019-01-21 The Reflexivity of Pain and Privilege offers a fresh and critical perspective to people of indigenous and or marginalized identifications It highlights the research shared experiences and personal stories and the artistic collections of those who are of mixed heritage and or identity as well as the perspectives of young adolescents who identify as being of mixed racial socio economic linguistic and ethno cultural backgrounds and experiences These auto ethnographic collections serve as an impetus for the untold stories of millions of marginalized people who may find solace here and in the stories of others who are of mixed identity **Unhooking from Whiteness** , 2021-05-25 What does it look like to let go of Whiteness Whiteness promotes a form of hegemonic thinking which influences not only thought processes but also behavior within the academy Working to dismantle the racism and whiteness that continue to keep oppressed people powerless and immobilized in academe requires sharing power opportunity and access Removing barriers to the knowledge created in higher education is an essential part of this process The process of unhooking oneself from institutionalized whiteness certainly requires fighting hegemonic modes of thought and patriarchal views that persistently keep marginalized groups of academics in their station or at their institution In the explosive **Unhooking from Whiteness Resisting the Esprit de Corps** editors Hartlep and Hayes continued the conversation they began in 2013 with **Unhooking from Whiteness The Key to Dismantling Racism in the United States** This third and final volume focuses on the writers processes to let go of the pathology of Whiteness The contributors in this book have once again come from an intersection of races ethnicities sexual identities and gender identities and includes conversations across these multiple intersections The editors move from prepared pr cises on multicultural

**Converting to Islam** Amy Melissa Guimond, 2017-06-16 This text aims to discover the shared lived experiences of white American female converts to Islam in post 9 11 America It explores the increasingly hostile social climate faced by Muslim Americans as well as the spiritual social physical and mental integration of these women into the Muslim American population In the United States rates of conversion to Islam are rapidly increasing alongside Islamophobic sentiment and hate crimes against Muslims For a period of time there was a lull in this negative sentiment However in light of the Paris terror attacks the increased prominence of ISIS ISIL and the influx of refugees from Syria anti Muslim rhetoric is once again on the rise This volume analyzes how a singular collection of female converts have adapted to life in the United States in the shadow of 9 11

**The State of the American Mind: Stupor and Pathetic Docility Volume II** Amechi Okolo, 2010-06-11 This book The State of the American Mind Stupor and Pathetic Docility Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Harvard educated President Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have

laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands
