White Mythologies White Mythologies:

White Mythologies Robert Young, 2004 In 1990 Robert Young's *White Mythologies* set out to question the very concepts of history and the West. Is it possible he asked to write history that avoids the trap of Eurocentrism? Is history simply a Western myth? His reflections on these topics provided some of the most important new directions in postcolonial studies and continue to exert a huge influence on the field. This new edition reprints what has quickly become a classic text along with a substantial new essay reflecting on changes in the field and in the author's own position since publication. An essential read for all those working in postcolonial theory, literature and history, this book cemented Young's reputation as one of the country's most influential scholars and as a new preface by Homi Bhabha comments made an original and invaluable intervention in the field, leading even the most established figures to rethink their own positions. Provoking further re-evaluation with the new introductory essay, this second edition will like its predecessor be a key text for every academic and student in the field.

On Jameson , The Postmodern History Reader Keith Jenkins, 1997 The *Postmodern History Reader* introduces students to the new points of controversy in the study of history and provides a framework by which to understand postmodernism and a guide to explore it further. *The Ethics of Marginality* John Champagne, 1995 *Border Culture* Victor Konrad, Anne-Laure Amilhat Szary, 2022-12-29 This book introduces readers to the cultural imaginings of borders, the in-between spaces in which transnationalism collides with geopolitical cooperation and contestation. Recent debates about the refugee crisis and the spread of the COVID-19 pandemic have politicized culture at and of borders like never before. Border culture is no longer culture at the margins but rather culture at the heart of geopolitics, flows and experience of the transnational world. Increasingly, culture and borders are everywhere yet nowhere. In border spaces, national narratives and counter narratives are tested and evaluated, coming up against transnational culture. This book provides an extensive and critical vision of border culture, on the move, drawing on numerous examples worldwide and a growing international literature across border and cultural studies. It shows how border culture develops in the human imagination and manifests in human constructs of nation and state as well as in transnationalism. By analyzing this new and expanding cultural geography of border landscapes, the book shows the way to a fresh, broader dialogue. Exploring the nature and meaning of the intersection of border and culture, this book will be an essential read for students and researchers across border studies, geopolitics, geography and cultural studies.

Signs, Solidarities, & Sociology Blasco José Sobrinho, 2001-07-17 *Signs, Solidarities, Sociology* addresses the formation and fragmentation of identity in today's postmodern world. Informed by the conceptual convergence in the theories of Durkheim, Peirce, Mead and Lacan, this book surveys the range of twentieth-century sociology to deconstruct those favored nostrums of subjective meaning, personal power and autonomous selfhood that comprise its semantics. Revealed beneath this semantic screen is the triad of pragmatic codes: premodern affiliation, modern calibration and postmodern globalization that govern the social construction

of the self While the ill comprehended confluence of these three signification codes in the present world situation can indeed fragment personal identity their formal structural linkages as shown in this book may inform a truly postmodern globally applicable science of culture *Postcolonism* Diana Brydon,2023-01-06 First published in 2004 This is Volume I of Postcolonialism part of a series of critical concepts in literary and cultural studies This edition includes part one framing the field part two Marxist Liberation and Resistance Theory and also part three on Manifestos **Orientalism and Religion** Richard King,2013-04-03 Orientalism and Religion offers us a timely discussion of the implications of contemporary post colonial theory for the study of religion Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted He shows us how religion needs to be reinterpreted along the lines of cultural studies Drawing on a variety of post structuralist and post colonial thinkers such as Foucault Gadamer Said and Spivak King provides us with a challenging series of reflections on the nature of Religious Studies and Indology **Reading Postcolonial Theory** Bibhash Choudhury,2016-02-26 This book is an essential introduction to significant texts in postcolonial theory It looks at seminal works in the moments of their making and delineates the different threads that bind postcolonial studies Each chapter presents a comprehensive discussion of a major text and contextualises it in the wake of contemporary themes and debates The volume Studies major texts by foremost scholars Edward W Said Chinua Achebe Albert Memmi Gayatri Chakravorty Spivak Paul Carter Homi Bhabha Frantz Fanon Ashis Nandy Robert J C Young Ngũgĩ wa Thiong'o and Sara Suleri Shifts focus from colonial experience to underlying principles of critical engagement Uses accessible jargon free language Focused engaging and critically insightful this book will be indispensable to students and scholars of literary and cultural studies comparative literature and postcolonial studies **Cultural Construction of Empire** Janne Lahti,2012-12-01 From 1866 through 1886 the U S Army occupied southern Arizona and New Mexico in an attempt to claim it for settlement by Americans Through a postcolonial lens Janne Lahti examines the army its officers their wives and the enlisted men as agents of an American empire whose mission was to serve as a group of colonizers engaged in ideological as well as military conquest Cultural Construction of Empire explores the cultural and social representations of Native Americans Hispanics and frontiersmen constructed by the officers enlisted men and their dependents By differentiating themselves from these less civilized groups white military settlers engaged various cultural processes and practices to accrue and exercise power over colonized peoples and places for the sake of creating a more civilized environment for other settlers Considering issues of class place and white ethnicity Lahti shows that the army's construction of empire took place not on the battlefield alone but also in representations of and social interactions in and among colonial places peoples settlements and events and in the domestic realm and daily life inside the army villages **Questioning History** Greg Clingham,1998-07 Traditional eighteenth century paradigms of reason truth and nature underlie modern concepts of self gender sex etc that are challenged today in the name of a more liberated and pluralistic problematics This book is the first of two volumes of

Merleau-Ponty between Philosophy and Symbolism Rajiv Kaushik,2019-11-01 Argues that symbolism is an important and unique element of Merleau Ponty s phenomenology Merleau Ponty says in his *Institution and Passivity* lectures that he wants to consider criticism itself as a symbolic form instead of doing a philosophy of symbolic form This invites the possibility of an unconventional thought If critical philosophy is a symbolic form it cannot disclose its own limits and is in fact uncritical Furthermore the symbolic form can never itself be thought according to the terms of the criticism it produces but is always only constellated and matrixed within them a symbolic form within both reflection and what it reflects on within consciousness and the world Thus as Rajiv Kaushik argues the symbolic form is another name for what Merleau Ponty calls ontological divergence Only now divergence introduces the question of a limit to both the subject and philosophy itself This is nothing less than a psychoanalysis of philosophy Kaushik s analyses of the matrices between space imagination light dark awake asleep and repression expression reveal this symbolism in its form of divergence its lack of origin and destination Kaushik also argues that the phenomenology of symbolism must detour from the purely descriptive method Drawing from Merleau Ponty s recently published course materials and attentive to his reliance on literature and literary language Merleau

Ponty between Philosophy and Symbolism continues the living force of Merleau Ponty s thought and develops his radical insight of the primacy of the symbolic form even in an ontology that claims to be about the sensible and its elements One of the best most original books in Merleau Ponty studies in recent years Galen A Johnson author of The Retrieval of the Beautiful Thinking Through Merleau Ponty s Aesthetics Homi K.
