Seeing the Big Picture Dr Alastair T. Ferrie,2012-10-22 To many Christians the Old Testament is a mysterious document a treasure hidden in the dust of antiquity It is historical it tells the story of ancient Israel but has it anything to do with me Seeing the Big Picture is the story of one mans voyage of discovery The Bible as a whole is the dramatic story of redemption which comes to a climax in the New Testament In every book of the Old Testament the theme of the coming of Christ is there burning brightly like a lamp in the darkness heralding the day when the glory of the Christ would burst majestically forth Suddenly I saw that this was truly one story It was almost as if someone had turned a light on I could see things much more clearly and so many aspects of the New Testament study were brought into such clear focus that I understood as never before

Christian Life God's Way Larry Harmsen,2022-08-01 Larry has come to understand that there are two basic ways that the Bible can be taught The first is the most prevalent It consists of telling the Christian the things that he or she should be doing and the things that he or she should not be doing sometimes accompanied with relatively meaningless ways of doing or not doing these things The second way to teach the Bible is to teach it by revealing what God says in the Bible which we call expository preaching or teaching I am very much in favor of expository teaching If a Christian is taught the Bible not taught about the Bible but actually taught to understand God and God s desire to live in and through us in a fulfilling meaningful way the Christian will be able to determine for him or herself what to do or what not to do as it becomes a part of the person s life rather than just something added to the person s life If living the vibrant Christian life through knowing God and His Word becomes the desire and goal of the Christian life learned from the Holy Spirit through God s Word that inner force becomes an external force far more useful to God than being told what to do or what not to do That desire to teach Christians in a way to build that inner force of God through knowing Him has been mine for many years This book contains Bible studies to help develop that inner force that is only by grace

[The Power of Pictures in Christian Thought](#) Anthony C. Thiselton,2018-11-15 A biblical historical and theological investigation into the tendency of literary images to either enlighten or mislead and how we can learn to distinguish between the two Part One considers key

philosophical and aesthetic evaluations of literary images and symbols The power of pictures is widely appreciated as in the adage a picture is worth a thousand words Sometimes Christian discourse can be smothered by endless prose which demands much inferential reasoning There is however a contrary argument An isolated visual representation can be misleading if it is improperly interpreted For example some mystical visions are interpreted as direct instructions from the Holy Spirit as happened with the Radical Reformers who advocated the Peasants Revolt Hence theories of symbol metaphor and visual representation must be examined Part Two discusses visual representation in the Old Testament the teaching of Jesus pictures and analogies in Paul and the Book of Revelation This shows the range of authentic visual representations In contrast to biblical material we find throughout Christian history abundant examples of misleading imagery which is often passed off as Christian A notorious example is found in the visual representation and metaphors used by Gnostic writers Almost as bad are some visual representations used by the medieval mystics Radical Reformers and extreme charismatics all of which lack valid criteria of interpretation relying instead on subjective conviction Similarly sermons and prayers today can be enriched with pictorial images but some can be misleading and unhelpful for the life of the Church
