Conspiracies and Conspiracy Theories in American History Christopher R. Fee, Jeffrey B. Webb, 2019-05-24 This up to date introduction to the complex world of conspiracies and conspiracy theories provides insight into why millions of people are so ready to believe the worst about our political legal religious and financial institutions Unsupported theories provide simple explanations for catastrophes that are otherwise difficult to understand from the U S Civil War to the Stock Market Crash of 1929 to the terrorist attacks on the World Trade Center in New York Ideas about shadowy networks that operate behind a cloak of secrecy including real organizations like the CIA and the Mafia and imagined ones like the Illuminati additionally provide a way for people to criticize prevailing political and economic arrangements while for society s disadvantaged and forgotten groups conspiracy theories make their suffering and alienation comprehensible and provide a focal point for their economic or political frustrations These volumes detail the highly controversial and influential phenomena of conspiracies and conspiracy theories in American society Through interpretive essays and factual accounts of various people organizations and ideas the reader will gain a much greater appreciation for a set of beliefs about political scheming covert intelligence gathering and criminal rings that has held its grip on the minds of millions of American citizens and encouraged them to believe that the conspiracies may run deeper and with a global reach *Unholy Trinity* Mark Aarons, John Loftus, 1998-06-15 Written in riveting fashion by the coauthors of *The Secret War Against the Jews* Mark Aarons and John Loftus s *Unholy Trinity* tells one of the darkest tales of World War II After the war had ended fearing a surge of Soviet growth the Papacy entered into an espionage alliance with British and American intelligence agents Subsuming justice to the nascent Cold War ideology these three powers ferreted Nazi criminals out of Europe so that they could be used in the supposedly greater fight against Communism The Vatican s Nazi smuggling network was penetrated by Prince Anton Turkul the great Soviet double agent who turned the operations into a sting for his masters in the Kremlin *Unholy Trinity* exposes Turkul s Red Nazi operation for the first time and shows how Kim Philby the infamous British Soviet double agent and his network were nearly sacrificed to preserve Turkul s Vatican operation Exploring the Vatican s role in aiding Nazi criminals to escape punishment for their crimes this book originally published in 1991 first revealed the Vatican Swiss bank connection to Nazi gold and documented the hidden links to Western investors in Nazi Germany Since its publication major revelations about the role of Swiss banks have confirmed *Unholy Trinity* s expose of the flight of the Nazi s stolen treasures the new introduction and new final chapters written by Aarons and Loftus for this edition bring the book completely up to date and show how the media have missed the vital Vatican connection in the Swiss bank story Among other things the authors demonstrate that U S and British code breakers were fully aware of the Holocaust as early as 1941 but lied to the Western press that the code breakers bugged the Swiss banks and then buried secrets of Nazi gold transfers to protect U S

intelligence chief Allen Dulles and that the Australian British and Canadian governments are still waging a campaign to keep their citizens ignorant about the Nazi war criminals living among them Covering all these topics and more Unholy Trinity is the definitive history of a series of profoundly disturbing cover ups involving the Holy See Allen Dulles the Swiss banks and the remnants of the Third Reich Lethal Elites Alex Alvarez, Richard R. Fernández, 2025-11-13 This eye opening book highlights the role of elites in constructing systems of persecution and extermination during the Holocaust Being highly educated or living within a certain social class doesn't prevent us from being lured into destructive systems especially when they operate to our benefit The perception that the Holocaust was largely a crime carried out by ill educated thugs acting on nationalistic hysteria and xenophobic prejudice is a myth Leaders from many sectors of society including industry science and religion came to support and enable the Nazi government often due to the ways in which they were able to profit and benefit from the policies of persecution and genocide With both a social science and historical approach Lethal Elites highlights and assesses the ways in which the influence training and expertise of the most powerful and best educated were used in service to the genocidal agenda of the National Socialist Regime Something Gorgeous Burke, Junior, 2005 SOMETHING GORGEOUS is Junior Burke's debut novel Set in the world of Fitzgerald's *Gatsby* Something Gorgeous weaves historical figures with imaginative characters Faye Kingsley had blue eyes She would say they were green simply because green was her favorite color It was as though by telling so obvious an untruth she was daring people to deny her something And many people even boys and young men who got close enough to gaze at her face came away saying that Faye Kingsley's eyes at certain angles in certain lights were indeed green *Trump and Hitler* Henk de Berg, 2024-03-01 This book compares Trump and Hitler as political performance artists It explores their populist self staging and rhetorical strategies and explains how they connected with their respective audiences It also analyses the two men's character work ethic and management style In addition the book addresses seemingly peripheral issues like the reasons behind Hitler's toothbrush moustache and Trump's hairstyle By demystifying Hitler and Trump the author throws new light on both of them **The Myth of Race** Robert W. Sussman, 2014-10-06 Biological races do not exist and never have This view is shared by all scientists who study variation in human populations Yet racial prejudice and intolerance based on the myth of race remain deeply ingrained in Western society In his powerful examination of a persistent false and poisonous idea Robert Sussman explores how race emerged as a social construct from early biblical justifications to the pseudoscientific studies of today The Myth of Race traces the origins of modern racist ideology to the Spanish Inquisition revealing how sixteenth century theories of racial degeneration became a crucial justification for Western imperialism and slavery In the nineteenth century these theories fused with Darwinism to produce the highly influential and pernicious eugenics movement Believing that traits from cranial shape to raw intelligence were immutable eugenicists developed hierarchies that classified certain races especially fair skinned Aryans as superior to others These ideologues proposed programs of intelligence testing selective breeding and

human sterilization policies that fed straight into Nazi genocide Sussman examines how opponents of eugenics guided by the German American anthropologist Franz Boas's new scientifically supported concept of culture exposed fallacies in racist thinking Although eugenics is now widely discredited some groups and individuals today claim a new scientific basis for old racist assumptions Pondering the continuing influence of racist research and thought despite all evidence to the contrary Sussman explains why when it comes to race too many people still mistake bigotry for science The Duchess Of Windsor Greg King,2011-05-01 A sympathetic and believable portrait of the American woman for whom King Edward VIII gave up the throne with photos included Christian Science Monitor A woman's life can really be a succession of lives each revolving around some emotionally compelling situation or challenge and each marked off by some intense experience It was the love story of the century the king and the commoner In December 1936 King Edward VIII abdicated the throne to marry the woman I love Wallis Warfield Simpson a twice divorced American who quickly became one of the twentieth century's most famous personalities a figure of intrigue and mystery both admired and reviled Wrongly blamed for the abdication crisis Wallis suffered hostility from the Royal Family and much of the world Yet interest in her story has remained constant resulting in a small library of biographies that convey a thinly veiled animosity toward their subject The truth however is infinitely more fascinating than the shallow pathetic portrait that has often been painted Using previously untapped sources acclaimed biographer Greg King presents a complete and for the first time sympathetic portrait of the Duchess that sifts the decades of rumor and accusation to reveal the woman behind the legend From her birth in Pennsylvania during the Gilded Age to her death in Paris in 1986 King takes the reader through a world of privilege palaces high society and love with the accompaniment of hatreds feuds conspiracies and lies The cast of characters is vast politicians and presidents dictators and socialites Twenty four pages of photographs reveal the life of the Duchess in all its incomparable glamour and romance A wide absurd cast of characters led by the British royal family Wallis lavish decorati **The Palgrave Handbook of Social Movements, Revolution, and Social Transformation** Berch Berberoglu,2018-09-26 This handbook on social movements revolution and social transformation analyzes people's struggles to bring about social change in the age of globalization It examines the origins nature dynamics and challenges of such movements as they aim to change dominant social economic and political institutions and structures across the globe Departing from a theoretical introduction that explores major classical and contemporary theories of social movements and transformation the contributions collected here use a class based approach to examine key cases of social movements rebellions and revolutions worldwide from the turn of the twentieth to the early twenty first centuries Against this wide ranging background the handbook concludes by charting the varied and competing future developments and trajectories of social movements revolutions and social transformations The Family Kitty Kelley,2004-09-14 From the First Lady of unauthorized tell all biography this is the first real inside look at the most powerful and secretive family in the world From Senator Prescott Bush's alcoholism to his son George Herbert

Walker Bush's infidelities to George Walker Bush's religious conversion shady financial deals and military manipulations Kitty Kelley captures the portrait of a family that has whitewashed its own story almost out of existence Brownshirt Princess Lionel Gossman, 2009 Princess Marie Adelheid of Lippe Biesterfeld was a rebellious young writer who became a fervent Nazi Heinrich Vogeler was a well-regarded artist who was to join the German Communist Party Ludwig Roselius was a successful businessman who had made a fortune from his invention of decaffeinated coffee What was it about the revolutionary climate following World War I that induced three such different personalities to collaborate in the production of a slim volume of poetry entitled *Gott in mir* about the indwelling of the divine within the human Lionel Gossman's study situates this poem in the ideological context that made the collaboration possible The study also outlines the subsequent life of the Princess who until her death in 1993 continued to support and celebrate the ideals and heroes of National Socialism Publisher's description

Nationalism and Ethnic Conflict Berch Berberoglu, 2005-12-13 This book examines the origins and development of nationalism and national movements in the twentieth century and provides an analysis of the nature and dynamics of nationalism and ethnic conflict in a variety of national settings Examining the intricate relationship between class state and nation the book attempts to develop a critical approach to the study of nationalism and ethnonational conflict within the broader context of class relations and class struggles in the age of globalization The book consists of three parts made up of seven chapters Part I examines classical and contemporary conventional and Marxist theories of nationalism Part II provides a series of empirical comparisons of nationalism and ethnic conflict on a world scale focusing on the Third World the advanced capitalist countries and Eastern Europe and the former Soviet Union A highlight of this section of the book is a detailed comparative case study of the Palestinian and Kurdish nationalism and national movements Part III provides a political analysis of the relationship between class state and nation and lays out the class nature of nationalism and the role of the state in ethnonational conflicts that are the political manifestations of deeper class struggles that have been the driving force of nationalism and ethnic conflict in the era of globalization Berberoglu contends that future studies of nationalism and ethnonational conflict must pay closer attention to the dynamics of class forces that are behind the ideology of nationalism by examining national movements in class terms For only through a careful class analysis of these forces and their ideological edicts will we be able to clearly understand the nature of nationalism and ethnonational conflicts around the world

Decades of Crisis Ivan T. Berend, 2023-11-15 Only by understanding Central and Eastern Europe's turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and after that the collapse of Soviet-controlled state socialism Ivan Berend looks closely at the fateful decades preceding World War II and at twelve countries whose absence from the roster of major players was enough in itself he says to precipitate much of the turmoil As waves of modernization swept over Europe the less developed countries on the periphery tried with little or no success to imitate Western capitalism and liberalism Instead they remained as Berend shows

rural agrarian societies notable for the tenacious survival of feudal and aristocratic institutions In that context of frustration and disappointment rebellion was inevitable Berend leads the reader skillfully through the maze of social cultural economic and political changes in Hungary Czechoslovakia Yugoslavia Poland Romania Bulgaria Albania Austria Latvia Lithuania Estonia and the Soviet Union showing how every path ended in dictatorship and despotism by the start of World War II Only by understanding Central and Eastern Europe s turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and after that the collapse of Soviet controlled st

Dark Crusade Clifford A Kiracofe,2009-05-30 Dark Crusade offers the most nuanced analysis yet written of the dangerous and complex phenomenon of Christian Zionism s influence on American foreign policy Despite its efforts to promote peace and instil democracy in the region America is viewed by many in the Middle East as a dishonest broker waging a dark crusade against its enemies in covert collaboration with Israel The crucial hostility to Arab and Palestinian interests of the so called Zionist lobby in the US has long been recognised But it is another less familiar element in US politics that increasingly calls the shots on Capitol Hill directing the course of American foreign policy there Christian Zionism Christian Zionists now influence not only the Republican Party but also the White House and Congress Protestant fundamentalists anticipating the end of the world they have long made common cause with the most extreme political elements in the state of Israel But why Jews and fundamentalist Christians hardly look like natural allies Adhering to a feverish apocalyptic ideology Christian Zionists nevertheless believe that restoration of the entire biblical Holy Land to the Jewish people will result the thousand year reign of Christ During his eleven years working in the Senate Christian Kiracofe observed at first hand the deep seated influence of Christian Zionism on American foreign policy and is uniquely qualified to assess its significance Dark Crusade offers the most nuanced analysis yet written of this dangerous and complex phenomenon
