## **Who Owns America A New Declaration Of Independence:**

**Who Owns America?** Herbert Agar, Allen Tate, 1999 Though written over sixty years ago *Who Owns America* still challenges many assumptions at play in the American public psyche and is also indispensable in understanding a crucial period of American history **BOOK JACKET** *Who Owns America? A New Declaration of Independence. [Essays by Various Authors.] Edited by H. Agar & Allen Tate* Herbert AGAR (and TATE (John Orley Allen)), John Orley Allen TATE, 1936 **J.P. Morgan & Co. and the Crisis of Capitalism** Martin Horn, 2022-03-03 Examines how J P Morgan then the world's leading bank responded to the greatest crisis in the history of financial capitalism [The Fourth Ghost](#) Robert H. Brinkmeyer, Jr., 2009-01-01 In the 1949 classic *Killers of the Dream* Lillian Smith described three racial ghosts haunting the mind of the white South the black woman with whom the white man often had sexual relations the rejected child from a mixed race coupling and the black mammy whom the white southern child first loves but then must reject In this groundbreaking work Robert H Brinkmeyer Jr extends Smith's work by adding a fourth ghost lurking in the psyche of the white South the specter of European Fascism He explores how southern writers of the 1930s and 1940s responded to Fascism and most tellingly to the suggestion that the racial politics of Nazi Germany had a special problematic relevance to the South and its segregated social system As Brinkmeyer shows nearly all white southern writers in these decades felt impelled to deal with this specter and with the implications for southern identity of the issues raised by Nazism and Fascism Their responses varied widely ranging from repression and denial to the repulsion of self recognition With penetrating insight Brinkmeyer examines the work of writers who contemplated the connection between the authoritarianism and racial politics of Nazi Germany and southern culture He shows how white southern writers both those writing cultural criticism and those writing imaginative literature turned to Fascist Europe for images analogies and metaphors for representing and understanding the conflict between traditional and modern cultures that they were witnessing in Dixie Brinkmeyer considers the works of a wide range of authors of varying political stripes the Nashville Agrarians W J Cash Lillian Smith William Alexander Percy Thomas Wolfe William Faulkner Katherine Anne Porter Carson McCullers Robert Penn Warren and Lillian Hellman He argues persuasively that by engaging in their works the vital contemporary debates about totalitarianism and democracy these writers reconfigured their understanding not only of the South but also of themselves as southerners and of the nature and significance of their art The magnum opus of a distinguished scholar *The Fourth Ghost* offers a stunning reassessment of the cultural and political orientation of southern literature by examining a major and heretofore unexplored influence on its development [A Spreading and Abiding Hope](#) Jacob Shatzer, 2015-10-13 Every tradition has its surprising voices its thinkers who look at things slightly differently than most Evangelicalism is no exception Many surprising evangelical voices end up being embarrassments of one sort or another everyone can choose their favorite example of this phenomenon Rather than seeking to expose these sorts of negative surprises this book explores the surprising voice of the late evangelical

theologian A J Conyers Conyers's political theology is a resource for a robust evangelical theopolitical imagination By learning from Conyers evangelicals can overcome common weaknesses and engage in a more thoroughly Christian biblical and evangelical approach to the modern world and its various institutions and challenges Conyers speaks beyond evangelicalism as well His vision of the modern world including its development and major challenges provides insight into contemporary political theology His work on the nation state free market capitalism and the notions of toleration and vocation speaks into and advances important debates Thus Conyers's evangelical political theology provides both the evangelical tradition itself as well as political theology as a broader discipline with a compelling and challenging vision

Underwood, 2001 Underwood's carefully selected collection of six key Agrarians essays combined with a revealing new introduction offers a radically revised view of the movement as it was redefined and revived during the New Deal      **The New Agrarian Mind** Allan C. Carlson, 2017-07-05 The self sufficiency and regional outlook of farm life characterized the United States until the Civil War period With the triumph of the industrial North over the rural South the expansion of urbanism and the closing of the frontier the agrarian sector became an economic and cultural minority The social benefits of rural life a sense of independence commitment to democracy an abundance of children stable community life were threatened This volume examines the rise of a distinctive agrarian intellectual movement to combat these trends The New Agrarian Mind now in paperback synthesizes the thought of twentieth century agrarian writers It weaves together discussions of major representative figures such as Liberty Hyde Bailey Carle Zimmerman and Wendell Berry with myth shattering analyses of the movement's cultural diversity intellectual influence and ideological complexity Collectively labeled the New Agrarians to distinguish them from the simpler Jeffersonianism of the nineteenth century they shared a coherent set of goals that were at once socially conservative and economically radical      *Catholic Converts* Patrick Allitt, 1997 Introduction intellectuals becoming Catholics New pride and old prejudice Loss and gain the first English converts Tractarians and transcendentalists in America Infallibility and its discontents America modernism and hell The lowliness of his handmaidens women and conversion The British apologists spiritual Aeneid Revival and departure Fascists communists Catholics and total war Transforming the past the convert historians Novels from Hadrian to Brideshead The preconciliar generation 1935 1962      *Ancient Greece and American Conservatism* John Bloxham, 2018-03-28 US conservatives have repeatedly turned to classical Greece for inspiration and rhetorical power In the 1950s they used Plato to defend moral absolutism in the 1960s it was Aristotle as a means to develop a uniquely conservative social science and then Thucydides helped to justify a more assertive foreign policy in the 1990s By tracing this phenomenon and analysing these and various other examples of selectivity subversion and adaptation within their broader social and political contexts John Bloxham here employs classical thought as a prism through which to explore competing strands in American conservatism From the early years of the Cold War to the 2003 invasion of Iraq Bloxham

illuminates the depth of conservatives engagement with Greece the singular flexibility of Greek ideas and the varied and diverse ways that Greek thought has reinforced and invigorated conservatism This innovative work of reception studies offers a richer understanding of the American Right and is important reading for classicists modern US historians and political scientists alike

**World War I and Southern Modernism** David A. Davis, 2017-11-27 Winner of the 2018 Eudora Welty Prize When the United States entered World War I parts of the country had developed industries urban cultures and democratic political systems but the South lagged behind remaining an impoverished agriculture region Despite New South boosterism the culture of the early twentieth century South was comparatively artistically arid Yet southern writers dominated the literary marketplace by the 1920s and 1930s World War I brought southerners into contact with modernity before the South fully modernized This shortfall created an inherent tension between the region s existing agricultural social structure and the processes of modernization leading to distal modernism a form of writing that combines elements of modernism to depict non modern social structures Critics have struggled to formulate explanations for the eruption of modern southern literature sometimes called the Southern Renaissance Pinpointing World War I as the catalyst David A Davis argues southern modernism was not a self generating outburst of writing but a response to the disruptions modernity generated in the region In *World War I and Southern Modernism* Davis examines dozens of works of literature by writers including William Faulkner Ellen Glasgow and Claude McKay that depict the South during the war Topics explored in the book include contact between the North and the South southerners who served in combat and the developing southern economy Davis also provides a new lens for this argument taking a closer look at African Americans in the military and changing gender roles

**Selected Essays and Other Writings of John Donald Wade** John Donald Wade, 2010-12-01 One of the most important of the Southern magazines in the 1920s was *The Fugitive* a magazine of verse and brief commentaries on literature in general Among its contributors were John Crowe Ransom Allen Tate Robert Penn Warren Donald Davidson and Merrill Moore Publication began in April 1922 and ended in December 1925 Soon thereafter the *Fugitive* writers and some others became profoundly concerned with the materialism of American life and its effect upon the South The group became known as Agrarians Their thinking and discussion culminated in a symposium *I ll Take My Stand* published in 1930 In his first two lectures Davidson describes the underlying nature and aims of the *Fugitive* and Agrarian movements He brings to the discussion his intimate and thorough knowledge of Southern life and letters The third lecture deals with the place of the writer in the modern university posing the questions of whether the writer needs the university and whether the university needs or wants the writer

Transnational America Russell Duncan, Clara Juncker, 2004 This is an interdisciplinary analysis of the interaction between today s globalisation and Americanisation Transnationalism involves a loosening of boundaries a deterritorialisation of the nation state and higher degrees of interconnectedness among cultures and peoples across the

globe As people make transnational voyages and live lives of flexible citizenship in two or more cultures they adhere to a new type of nationalism that creates an exclusionist discourse and builds the Other as conservative defenders of cruder territorial loyalties This transnational solidarity a new communitarianism beyond the loyalties to any one place or ethnic group threatens the old order with its conceptions that assimilation and integration will remake the foreigner into a particular national citizen The authors address the complex issues of globalisation American mythology Christian proselytising modern slavery conspiracy theory apocalyptic terrorism Vietnam stories international feminism changing gender roles resurgent regionalism and the changing definitions of place **Burke, War, Words** M.
