looked almost exclusively at narrative source material plays theological accounts historical reports Those narrative forms consequently have emphasized death the narrative dimension of mortality an event in time life s climactic ending Eileen Sperry looks instead to lyric forms which embrace nonlinear modes of time and argues these texts reveal an aspect of mortality best described as decay the material instability of the body in the here and now Chapters explore expressions of decay in works by William Shakespeare Edmund Spenser John Donne and Hester Pultner through subjects like temperance poetic immortality the temporality of grief and bodily resurrection all of which capture decay s presence across a variety of experiences These early modern lyrics and the model of decay that emerges from them are read in conversation with contemporary disability studies and the work of theorists like Tobin Siebers Alison Kafer David Mitchell and Sharon Snyder Disability theory offers an essential framework for understanding how the forms of texts shape the meaning we assign to bodies of all kinds Bringing together disability studies lyric studies and new formalist methods *This Body of Death* reveals new ways of thinking about what it means to die
