Why Alternative Medicine And Why Now A Primer On Holistic Medicine:

Why Alternative Medicine and Why Now? T. Anthony Kampner, 2002 *Why Alternative Medicine and Why Now* tells of how our society has progressed through a series of decisions that have resulted in the polarization of all aspects of our perception of reality. We have fragmented our lives w c we have come to love insist that we take it into our daily activities then the reality of spirit will repeatedly be denied because of our scientific process. I humbly offer this theory as a framework to help us restore the missing ingredients so that we will be able to approach the future with optimism joy. For more information about the book please visit www.BecomingWholeAgain.com *Holistic Government* T. Anthony Kampner, 2004-07 *Holistic Government*. There are only two types of government. Representative government was attempted only once in the early days of the United States. Our founding fathers designed a constitution which was the only known attempt to establish government of the people by the people and for the people. As time has passed we have drifted away from our founding ideals toward the only other type of government that has ever existed: government of the elite designed to control the people, their subjects. You will discover We need to unite behind an idea, not a candidate. If you believe in human rights then you must believe that we are spiritual beings. If there is no God then people have no rights. If we have rights then we need to live by a moral code. The code that would be most universally acceptable is the American Ideal of Truth, Justice and Individual Liberty. Secular Society is an atheistic state religion that allows our leaders to control society without any moral restrictions. The U.S. constitution is the blueprint for governing a spiritual people. It was designed to keep power decentralized. The American Ideal is our birthright and it can be restored if we rally around ideas rather than candidates.
