Basics of a Roman Catholic Theology William A. Van Roo,1982 The

author says what I say here briefly will be found stated and elaborated at appropriate places in the course of the book But anyone who considers reading a book has a right to know some things before he or she decides whether the book is worth looking into I gather here such helpful information First a few words about the title of the book Some may be shocked or repelled or both by the qualification Roman Catholic So I shall try to provide a shock absorber I Entitle the book as I do simply to be coherent with my conception of what theology is and my intention to set forth some basics of the theological works which I myself project As I understand it theology is the effort to understand within a life of faith As a work it is the result of that effort The matrix the living setting in which alone a theology can develop is religious experience of the theologian within his or her community of believers Outside or apart from such a concrete setting no one can reflect in any meaningful way on the structures of such experience and of the experienced reality I cannot therefore write a book of basics of theology in general for I have no experience of what it is to be a Jew or a Moslem for example and I could say nothing which would have any claim to account for Jewish or Moslem theology

The Structure of Theological Revolutions Mark S. Massa SJ, 2018-07-02 On July 29 1968 Pope Paul VI ended years of discussion and study by Catholic theologians and bishops by

issuing an encyclical on human sexuality and birth control entitled *Humanae Vitae* On Human Life That document which declared that each and every marriage act must remain open to the transmission of life lead to widespread dissent and division within the Church particularly in the United States The divide that *Humanae Vitae* opened up is still with us today Mark Massa argues that American Catholics did not simply ignore and dissent from the encyclical's teachings on birth control but that they also began to question the entire system of natural law theology that had undergirded Catholic thought since the days of Aquinas Natural law is central to Catholic theology as some of its most important teachings on issues such as birth control marriage and abortion rest on natural law arguments Drawing inspiration from Thomas Kuhn's classic work *The Structure of Scientific Revolutions* Massa argues that *Humanae Vitae* caused a paradigm shift in American Catholic thought one that has had far reaching repercussions How can theology the study of God whose nature is imagined to be eternal and unchanging change over time This is the essential question that *The Structure of Theological Revolutions* sets out to answer Massa makes the controversial claim that Roman Catholic teaching on a range of important issues is considerably more provisional and arbitrary than many Catholics think *The Publishers Weekly*, 2000
