Why Liberals And Conservatives Clash A View From Annapolis:

Why Liberals and Conservatives Clash Bruce Edward Fleming, 2006 This book offers an explanation for the extreme polarization between liberal and conservative that is the hallmark of the American political landscape today Why Liberals and Conservatives Clash Bruce Fleming, 2006-04-19 Why Liberals and Conservatives Clash offers an explanation for the extreme polarization between liberal and conservative that is the hallmark of the American political landscape today It suggests that liberal thought is intrinsically different from conservative thought and that each constitutes a self subsistent world view with its specific quali Saving Our Service Academies Bruce Fleming, 2024-01-09 Once proud citadels of virtue the US military academies have lost their way and are running on fumes They need to be fixed before it s too late Saving Our Service Academies covers one man s unrelenting thirty year fight with the military bureaucracy to instill qualities of force and thoughtfulness in officers to be to show young men how to be adults with other men and women and to show young women how to deal with the men Bruce Fleming has spent over thirty years teaching midshipmen and future officers at the US Naval Academy in Annapolis This position was both a dream job and a nightmare for the enthusiastic athletic young Fleming He found in the thousands of midshipmen he taught mentored and exercised with for three decades a heartbreaking waste of potential as promising officers to be lapsed into apathy and cynicism because of the dispiriting reality behind the gleaming facade of the Naval Academy What happened to duty honor and country at Annapolis These values have disappeared in the wake of changes in the world such as the rise of ROTC and the increase in expense of civilian colleges the service academies are free to the students and in the attempt to use the service academies as experiments in trendy social engineering A staunch advocate for military strength Fleming shows how the smoke and mirrors of service academies produce officers who are taught to say SIR YES SIR rather than to have the guts to say things their commanding officer doesn t want to hear Is that why the US hasn t won a war since World War II By writing op eds about the waste fraud and abuse of government and taxpayer money Fleming put a target on his back that the USNA administration used to fire him in 2018 despite being a tenured civilian professor He was reinstated by a federal judge in 2019 The service academies are government programs that no longer fill the needs for which they were created and so like all government programs can be re examined Indeed as Fleming argues they teach blind obedience in officers rather than informed and respectful questioning and so sap our military strength rather than increasing it They need to be re imagined not as stand alone undergraduate institutions that wall off future officers in an increasingly untenable isolation from the country they are to defend but either be combined with the officer commissioning sources that currently produce over 80 percent of our new officers or re purposed to post civilian college training institutions **Democracy's Achilles Heel** Bruce Fleming, 2023-12-12 Democracy s Achilles Heel argues that the structure of democracy is a combination of two incompatible worldviews one relativist and liberal the other absolutist and conservative This combination of opposites is essential for its survival yet places democracy at

risk since each worldview is prone to trying to engulf the other creating threats from both the right and the left This is democracy's Achilles heel it never goes away and can only be avoided The nature of open societies means that absolutisms for example of a religious kind can exist quite comfortably within democracy yet for democracy to succeed they must permit other belief systems and worldviews absolute or otherwise to exist alongside them Likewise relativism can undermine the liberal nature of democracy itself in seeking to reduce the existence of absolutisms to nothing thus threatening freedom and destabilizing democracy Reacting to the recent clashes in Western democracies between left and right and drawing on the theories of such now classic thinkers as Fromm Berlin and Hoffer as well as more recent sources such as Levitsky and Ziblatt's *How Democracies Die* the author moves beyond the usual defenses of democracy accepting the fact that democracy because of its combination of opposites is always unstable and always at risk while urging those who live within democratic polities to strengthen its chances of survival by remembering its fundamental value and purpose An impassioned defense of the democratic way of life even given and indeed because of its eternally threatened nature Democracy's Achilles Heel will appeal to scholars students and readers with interests in political sociology philosophy and political theory

The End of the Modernist Era in Arts and Academia Bruce Fleming, 2022-03-28 This book identifies the now moribund Modernist spirit of the twentieth century with its make it new attitude in the arts and its tendency towards abstraction and the scientific process as the impetus behind the academic structures of universities and museums together with the development of discrete scholarly disciplines such as literary theory sociology and art history based on quasi scientific principles Arguing that the Modernist project is approaching exhaustion and that the insights that it has left to yield are approaching triviality it explores the Modernist links between the arts and academic pursuits of the West and their relationship with street protests in the long twentieth century considering what might follow this Modernist era An examination of the broad cultural and intellectual and now political trends of our age and their decline *The End of the Modernist Era in Arts and Academia* will appeal to scholars and students of social theory philosophy literary studies and cultural studies

The Civilizing Process and the Past We Now Abhor Bruce Fleming, 2022-04-19 Drawing on the thought of Norbert Elias and using as a thread a purposely apolitical example of cruelty to animals to focus on changes in attitudes this book explores the ways in which we deal with a past that we now abhor As we struggle to deal with the fact that our past shapes us indeed is us but is not us and cannot be changed the modern tendency is to demand merely cosmetic rather than real changes to the world and to judge harshly the individuals with whom the past is populated pulling down statues or re naming institutions An examination of our modern colonialism of time rather than place which refuses to consider or accept the fact that without our past we wouldn't be here at all let alone in a position to judge *The Civilizing Process and the Past We Now Abhor* will appeal to scholars and students of sociology cultural studies and literature with interests in contemporary questions of race morality and efforts to correct the wrongs of our past

Disappointment Bruce E. Fleming, 2006 In his new work *Disappointment* Bruce Fleming

starts from the realization that even objective views of the world are so only under specific circumstances Subjects range from war and the nature of explanation systems such as science and astrology to a concept Fleming calls coloring When we identify coloring it seems to us that a single quality of something larger has eclipsed all its other qualities for example skin color or sexual orientation coming to stand for the whole much more complex individual Once identified coloring can be questioned and rejected However to eliminate coloring we must already have identified it as such Before we perceive coloring we think we ve given an objective description of the world today s coloring was yesterday s objective But this in turn suggests that today s objective may be tomorrow s coloring Realizing this is what leads to the technical notion of disappointment examined in this text a feeling that life is a process of constant revision not a final state Through the consideration of literature artistic and philosophical works Fleming explores the impact of disappointment on our view of the world Beginning with the imagery of Wordsworth who lamented the glory in the flower of our youth fading into the light of common day and the iconography of the death mask of King Tut Disappointment suggests that the world both is what it claims to be and yet is not
