Why The West Is Best A Muslim Apostates Defense Of Liberal Democracy:

Why the West is Best Ibn Warraq, 2011-12-13 We in the West in general and the United States in particular have witnessed over the last twenty years a slow erosion of our civilizational self confidence Under the influence of intellectuals and academics in Western universities intellectuals such as Gore Vidal Susan Sontag Edward Said and Noam Chomsky and destructive intellectual fashions such as post modernism moral relativism and multiculturalism the West has lost all self confidence in its own values and seems incapable and unwilling to defend those values By contrast resurgent Islam in all its forms is supremely confident and is able to exploit the West's moral weakness and cultural confusion to demand ever more concessions from her The growing political and demographic power of Muslim communities in the West aided and abetted by Western apologists of Islam not to mention a compliant pro Islamic US Administration has resulted in an ever increasing demand for the implementation of Islamic law the Sharia into the fabric of Western law and Western constitutions There is an urgent need to examine why the Sharia is totally incompatible with Human Rights and the US Constitution This book the first of its kind proposes to examine the Sharia and its potential and actual threat to democratic principles This book defines and defends Western values strengths and freedoms often taken for granted This book also tackles the taboo subjects of racism in Asian culture Arab slavery and Islamic Imperialism It begins with a homage to New York City as a metaphor for all we hold dear in Western culture pluralism individualism freedom of expression and thought the complete freedom to pursue life liberty and happiness unhampered by totalitarian regimes and theocratic doctrines

An American Bride in Kabul Phyllis Chesler, 2025-10-16 Few westerners will ever be able to understand Muslim or Afghan society unless they are part of a Muslim family Twenty years old and in love Phyllis Chesler a Jewish American girl from Brooklyn embarked on an adventure that has lasted for more than a half century In 1961 when she arrived in Kabul with her Afghan bridegroom authorities took away her American passport Chesler was now the property of her husband's family and had no rights of citizenship Back in Afghanistan her husband a wealthy westernized foreign college student with dreams of reforming his country reverted to traditional and tribal customs Chesler found herself unexpectedly trapped in a posh polygamous family with no chance of escape She fought against her seclusion and lack of freedom her Afghan family's attempts to convert her from Judaism to Islam and her husband's wish to permanently tie her to the country through childbirth Drawing upon her personal diaries Chesler recounts her ordeal the nature of gender apartheid and her longing to explore this beautiful ancient and exotic country and culture Chesler nearly died there but she managed to get out returned to her studies in America and became an author and an ardent activist for women's rights throughout the world *An American Bride in Kabul* is the story of how a naive American girl learned to see the world through eastern as well as western eyes and came to appreciate Enlightenment values This dramatic tale re-creates a time gone by a place that is no more and shares the way in which Chesler turned adversity into a passion for world wide social educational and political reform

The Muslim Discovery of America Frederick William

Dame,2013 Some so called authorities claim that Muslims came to America hundreds of years before Columbus arrived in the New World Are the claims true Columbus expedition represents the first major discovery of the Americas and the first appearance of non Native Americans The conventional wisdom is that Columbus ended tens of thousands of years of near total isolation for the Native Americans Since the Americas had been initially populated probably between 13 000 BC and 11 000 BC there had been no engagement with peoples from any other continent save small ventures by the Norse into Northeastern Canada Did Muslims come to the Americas possibly as early as the 700s These researchers argue that Muslims came from Islamic Spain particularly the port of Delba Pelos during the rule of Caliph Abdullah Ibn Mohammed 888 912 A Muslim historian Abul Hassan Ali Nadwi c 895 957 added a map of the world to his book one that contained a large area in the ocean of darkness and fog the Atlantic ocean which he referred to as the unknown territory the Americas This book demonstrates that this assertion is important for Muslims because in conjunction with the relevant verses from the Koran and quotes from Mohammed it establishes the claim of Muslims that Allah intended America to be Islamic The book also investigates the lives of selected Muslims in America and organizations from the eighteenth century into the twenty first century It reveals that there was nothing more than a continuation of typical Islamic deception and subversive jihad It also documents the lie of the Islamic claim that hundreds of place names in the United States of America and Canada derive from Arabic Islamic roots Finally the book exposes the rewriting of American history by Islamic and pro Islamic media This book is alarming informative interesting and true *Theoterrorism v. Freedom of Speech* Paul Cliteur,2025-10-01 The Rushdie Affair the Danish Cartoon Affair the assault on Charlie Hebdo and the earlier Carrell Affair are examples of religious fanatics extreme reactions to religious satire and criticism Perpetrators of these actions consider themselves as true believers This book aims to understand their motives by means of the concept of theoterrorism terrorism grounded in religious zealotry

Muhammad in the Digital Age Ruqayya Yasmine Khan,2015-11-15 The early twenty first century has experienced an unrivaled dissemination of information and misinformation about Islam its prophet Muhammad and its followers largely facilitated by the fact that the tragedy of 9 11 roughly coincided with the advent of the digital age In the first collection of its kind Ruqayya Khan has compiled essays that treat Muhammad and the core elements of Islam as focal points in an exploration of how the digital era including social media and other expressions have both had an effect on and been affected by Islam Scholars from a variety of fields deal with topics such as the 2005 cartoon controversy in Denmark and the infamous 2012 movie trailer Innocence of Muslims that some believe sparked the attacks on the US consulate in Benghazi as well as how the digitization of ancient texts have allowed the origins of Islam to be studied in new ways Other essays examine how Muhammad s wives have been represented in various online sources including a web comic the contrasting depictions of Muhammad as both a warrior and peacemaker and how the widespread distribution of the look of Islamic terrorists has led to attacks on Sikhs whose only point of resemblance to them may be a full beard These findings illuminate the role of the

Internet in forms of representation advocacy and engagement concerning Islam and Muslims in our world today

Christianity, Islam, and Atheism William Kilpatrick, 2012 Christianity Islam and atheism argues that Islam is a religion of conquest and subjugation and that in spite of 9 11 and thousands of other terrorist attacks throughout the world many in the West still do not know or admit this because it conflicts with their multiculturalism and their belief in the equivalence of all cultures and religions

The Political Economy of Iran Farhad Gohardani, Zahra Tizro, 2019-03-07 This study entails a theoretical reading of the Iranian modern history and follows an interdisciplinary agenda at the intersection of philosophy psychoanalysis economics and politics and intends to offer a novel framework for the analysis of socio economic development in Iran in the modern era A brief review of Iranian modern history from the Constitutional Revolution to the Oil Nationalization Movement the 1979 Islamic Revolution and the recent Reformist and Green Movements demonstrates that Iranian people travelled full circle This historical experience of socio economic development revolving around the bitter question of Why are we backward and its manifestation in perpetual socio political instability and violence is the subject matter of this study Michel Foucault's conceived relation between the production of truth and production of wealth captures the essence of hypothesis offered in this study Foucault 1980 93 94 maintains that In the last analysis we must produce truth as we must produce wealth indeed we must produce truth in order to produce wealth in the first place Based on a hybrid methodology combining hermeneutics of understanding and hermeneutics of suspicion this monograph proposes that the failure to produce wealth has had particular roots in the failure in the production of truth and trust At the heart of the proposed theoretical model is the following formula the Iranian subject's confused preference structure culminates in the formation of unstable coalitions which in turn leads to institutional failure creating a chaotic social order and a turbulent history as experienced by the Iranian nation in the modern era As such the society oscillates between the chaotic states of socio political anarchy emanating from irreconcilable differences between and within social assemblages and their affiliated hybrid forms of regimes of truth in the springs of freedom and repressive states

of order in the winters of discontent Each time after the experience of chaos the order is restored based on the emergence of a final arbiter Iranian leviathan as the evolved coping strategy for achieving conflict resolution This highly volatile truth cycle produces the experience of socio economic backwardness and violence The explanatory power of the theoretical framework offered in the study exploring the relation between the production of truth trust and wealth is demonstrated via providing historical examples from strong events of Iranian modern history The significant policy implications of the model are explored This monograph will appeal to researchers scholars graduate students policy makers and anyone interested in the Middle Eastern politics Iran development studies and political economy

Baffling Puzzle Luke Lloyd, 2012-11-20 The truth is in the eye of the beholder This is a popular expression that enables many people to twist reality and historical truth to their own advantage without requiring accountability Thus political correctness becomes censorship and truth is sidelined Knowing this Luke Lloyd a retired army colonel who spent thirty years in airborne infantry and armor combat units as well as intelligence related to the Middle East couldnt resist setting forth the realities of Islam as he had studied and experienced them at American University of Beirut and lived with them while working in Saudi Arabia and Egypt Since September 11 2001 Lloyd has taught and spoken on issues concerning the Middle East and authored an educational novel titled Out of Darkness He believes Islam provides our greatest national security threat because of our appeasing leadership and an unsuspecting populace that interprets it broadly as a religion but in general is oblivious to its political focus

Berlioz's *Romeo and Juliet* enhances the pleasures of this text **Marriage and Civilization** William Tucker, 2014-02-03 Marriage built civilization Will its collapse lead to our downfall In *Marriage and Civilization* Tucker takes readers on a journey through the history of the human race to demonstrate how a pattern of life long monogamous pairings has enabled humans to build modern civilization Drawing extensively on biological anthropological and historical evidence Tucker makes the case that marriage is not only a desirable institution for societies it's actually the bedrock of civilization Tucker also examines America and the world's current marriage crisis and the factors that have led to the decline of marriage the dramatic rise of divorce and the epidemic of single parenthood He draws bold predictions about what could happen to American society if marriage collapses entirely and he sketches out the threat from polygamous groups such as fundamental Muslim sects Polygamy Tucker argues not only generates discontent and disorder within a society but promotes violence against others Monogamous marriage is vital not only to our domestic well being but our survival in the face of violent enemies

Science and the Decolonization of Social Theory Gennaro Ascione, 2016-08-12 This book addresses the ideological figure of modernity its presumed historical significance as an era and its theoretical adequacy as a frame It shows how science is evoked to prevent the sociological imagination from elaborating non Eurocentric categories and terminologies that are more adequate for a global age The idea of modernity should not only be contested but radically unthought in its foundational assumptions These assumptions inform concepts such as secularization emancipation the global and accumulation of capital This book frees these concepts from ethnocentrism and discloses a path toward a new non Eurocentric global social theory Gennaro Ascione explores the transformative potential of decolonizing knowledge through a radical reconsideration of the historical and epistemological role that the intellectual reference to science plays in the construction of concepts This ground breaking work challenges social theorists to think globally beyond modernity bringing together social theory and science in an unprecedented way Importantly it makes accessible a new space of missing theorization for further developments and inquiries in the field

Jihad in Sub-Saharan Africa Jonathan Matusitz, Doris Wesley, 2024-04-08 This book examines how jihadist groups in sub Saharan Africa have managed to advance their extremist agenda and recruit new followers thanks to digital media fueled by the information revolution since the dawn of the 21st century This examination is based on a mixture of historical accounts contemporary descriptions case studies theoretical applications and an in depth applied study in the late chapters of the manuscript An important conclusion is that the progress of jihadism in sub Saharan Africa has been commensurate with the development and availability of digital media This book breaks new ground in three ways It is the first major academic work to devote most of its content exclusively to the use of digital media by jihadist groups in that region Examples of jihadist digital media include social networking sites online instructional videos propaganda videos and online jihadist magazines among others Secondly it provides detailed case studies of both well known African groups e.g. Al Shabaab Boko Haram and lesser known ones e.g. the Allied Democratic

Forces in the Congo which have nevertheless wreaked so much damage Lastly it is the first book to include an in depth thematic analysis of online jihadist magazines Inspire Dabiq Rumiyah and Gaidi Mtaani on their content dedicated to sub Saharan Africa

Religious Offence and Human Rights Lorenz Langer,2014-07-10 Should international law be concerned with offence to religions and their followers Even before the 2005 publication of the Danish Mohammed cartoons Muslim States have endeavoured to establish some reputational protection for religions on the international level by pushing for recognition of the novel concept of defamation of religions This study recounts these efforts as well as the opposition they aroused particularly by proponents of free speech It also addresses the more fundamental issue of how religion and international law may relate to each other Historically enforcing divine commands has been the primary task of legal systems and it still is in numerous municipal jurisdictions By analysing religious restrictions of blasphemy and sacrilege as well as international and national norms on free speech and freedom of religion Lorenz Langer argues that on the international level at least religion does not provide a suitable rationale for legal norms

The Influence of Averroes on European Thought Koert Debeuf,2024-11-14 By exploring the influence of the Andalusian philosopher Averroes or Ibn Rushd 1126 1198 AD on European philosophy from the 13th to the 18th century Koert Debeuf sheds light on a neglected side of the history of philosophy the influence of Arabic thought on European philosophy In this book Debeuf reveals the true extent of Averroes s role showing it as much larger than we read about in popular histories of philosophy His ideas have been followed fought and discussed in Europe for centuries deeply influencing generations of thinkers Why has Averroes role been forgotten By focusing on histories of philosophy written from the 17th to the 21st century Debeuf provides a chronological overview that shows that Arabic philosophy was not just forgotten but purposefully written out of the history of philosophy Until the early Enlightenment most European thinkers were convinced that the history of philosophy was universalistic That changed in the 18th century with the rise and dominance of Christian and European idea Although the battle against Arabic philosophy started more than 700 years ago we see how it is still alive today This much needed study encourages us to challenge and reassess our existing ideas about the history of philosophy and Eurocentric interpretations of one of philosophy s major figures

Disintegration Andrei Martynanov,2021-05-01 The United States is undergoing a profound and radical transformation all features of which point to the fact of its departure at an accelerated rate from its largely self proclaimed status as a global hegemon The United States has lost ground in every single category that defines the power and status of a nation in relation to its rivals This book delves into the reasons for a catastrophic decline of the American nation addressing a range of factors from the economic especially energy to cultural technological and military factors America s deindustrialized economy is now deeply affected by what can only be described as a massacre of her small and middle size businesses and the implosion of the US commercial aerospace industry America s only driver of real growth the shale oil industry is facing realities which may make the Great Depression pale in comparison Disintegration also seeks answers to the precipitous

moral and professional decline of the always mediocre qualities of the American elites from the corridors of political power to those of the military and business now spiraling out of control More alarmingly the trend also points to the possibility of the actual physical disintegration of the United States as a unified entity whether the divisions are ethnic or ideological The most profound fault line is cultural between the Coastal self proclaimed elites backed by the secular liberal media and deep state who promote the most radical ideologies as it concerns gender and race and the working class majority whom the former polemicize as deplorables Christian fundamentalists white supremacists and climate and science denialists Investigating these factors sheds light on America's future which holds very little promise for the country which had once proclaimed itself to be a shining city on the hill The American collapse is not just coming we are presently experiencing it How can we deal with a catastrophe which is unfolding before our very eyes Disintegration lays out some possibilities

After Saturday Comes Sunday Elizabeth Natalie Kendal, 2016-06-08 The post Christian West is in decline revived Islam is on the rise and Mesopotamia Syria Iraq the cradle of civilization has become ground zero in a battle for civilization Despised as infidels unbelievers and kafir unclean Mesopotamia's indigenous Christian peoples are targeted by fundamentalist Muslims and jihadists for subjugation exploitation and elimination Pushed deep into the fog of war buried under a mountain of propaganda and rendered invisible by a shroud of silence they are betrayed and abandoned by the West's progressive political academic and media elites who cling to utopian fantasies about Islam while nurturing deep seated hostility towards Christianity If they are to survive as a people in their historic homeland the Christians of Mesopotamia will need all the help they can get If Western civilization is to survive as a force in its historic heartland Europe then we had better start seeing hearing and believing the Christians of the Middle East for their plight prefigures our own

Religion and the Global Politics of Human Rights Thomas Banchoff, Robert Wuthnow, 2011-03-01 Are human rights universal or the product of specific cultures Is democracy a necessary condition for the achievement of human rights in

practice And when if ever is it legitimate for external actors to impose their understandings of human rights upon particular countries In the contemporary context of globalization these questions have a salient religious dimension Religion intersects with global human rights agendas in multiple ways including whether universal human rights are in fact an imposition of Christian understandings whether democracy the rule of the people is compatible with God s law and whether international efforts to enforce human rights including religious freedom amount to an illicit imperialism This book brings together leading specialists across disciplines for the first major survey of the religious politics of human rights across the world s major regions political systems and faith traditions The authors take a bottom up approach and focus particularly on hot button issues like human rights in Islam Falun Gong in China and religion in the former Soviet Union Each essay examines the interaction of human rights and religion in practice and the challenges they pose for national and international policymakers
