Winning the Story Wars Jonah Sachs, 2012-06-19 Trying to get your message heard Build an iconic brand Welcome to the battlefield The story wars are all around us They are the struggle to be heard in a world of media noise and clamor Today most brand messages and mass appeals for causes are drowned out before they even reach us But a few consistently break through the din using the only tool that has ever moved minds and changed behavior great stories With insights from mythology advertising history evolutionary biology and psychology viral storyteller and advertising expert Jonah Sachs takes readers into a fascinating world of seemingly insurmountable challenges and enormous opportunity You ll discover how Social media tools are driving a return to the oral tradition in which stories that matter rise above the fray Marketers have become today s mythmakers providing society with explanation meaning and ritual Memorable stories based on timeless themes build legions of eager evangelists Marketers and audiences can work together to create deeper meaning and stronger partnerships in building a better world Brands like Old Spice The Story of Stuff Nike the Tea Party and Occupy Wall Street created and sustained massive viral buzz Winning the Story Wars is a call to arms for business communicators to cast aside broken traditions and join a revolution to build the iconic brands of the future It puts marketers in the role of heroes with a chance to transform not just their craft but the enterprises they represent After all success in the story wars doesn't come just from telling great stories but from learning to live them

Winning the Story Wars Jonah Sachs, 2012-08-07 Globally recognized storyteller designer and entrepreneur Sachs argues that only those brands that tell values driven stories through the right channels will revolutionize marketing and may become humanity's greatest hope for the future

Hide and Seek Benson P. Fraser, 2020-07-21 As bearers of the divine image all of us are storytellers and artists However few people today believe in truth that is not empirically knowable or verifiable the sort of truth often trafficked through direct forms of communication Drawing on the works of Soren Kierkegaard Benson P Fraser challenges this penchant for direct forms of knowledge by introducing the indirect approach which he argues conveys more than mere knowledge but the capability to live out what one takes to be true Dr Fraser suggests that stories aimed at the heart are powerful instruments for personal and social change because they are not focused directly on the individual listener rather they give the individual room or distance to reconsider old meanings or ways of understanding Indirect communication fosters human transformation by awaking an individual to attend to images or words that carry deep symbolic force and that modify or replace one's present ways of knowing and ultimately make one capable of embodying what he or she believes Through an examination of the indirect approach in Kierkegaard Jesus C S Lewis and Flannery O Connor Fraser makes a strong case for the recovery of indirect strategies for communicating truth in our time

Trump and Hitler Henk de Berg, 2024-03-01 This book compares Trump and Hitler as political performance artists It explores their populist self staging and rhetorical strategies and explains how they connected with their respective audiences It also analyses the two men's character work ethic and management

style In addition the book addresses seemingly peripheral issues like the reasons behind Hitler's toothbrush moustache and Trump's hairstyle By demystifying Hitler and Trump the author throws new light on both of them **The Purpose Gap** Patrick B. Reyes, 2021-03-16 In *The Purpose Gap* Patrick Reyes reflects on a family member's death after a long struggle with incarceration and homelessness As he asks himself why his cousin's life had turned out so differently from his own he realizes that it was a matter of conditions While they both grew up in the same marginalized Chicano community in central California Patrick found himself surrounded by a host of family friends and supporters They created a different narrative for him than the one the rest of the world had succeeded in imposing on his cousin In short they created the conditions in which Patrick could not only survive but thrive Far too much of the literature on leadership tells the story of heroic individuals creating their success by their own efforts Such stories fail to recognize the structural obstacles to thriving faced by those in marginalized communities If young people in these communities are to grow up to lives of purpose others must help create the conditions to make that happen Pastors organizational leaders educators family and friends must all perceive their calling to create new stories and new conditions of thriving for those most marginalized This book offers both inspiration and practical guidance for how to do that It offers advice on creating safe space for failure nurturing networks that support young people of color and professional guidance for how to implement these strategies in one's congregation school or community organization The Storytelling State Cheng Nien Yuan, 2025-07-31 In *The Storytelling State* Cheng Nien Yuan a Singaporean performance scholar and dramaturg charts Singapore's development into a storytelling state since the 2010s In such a state public auto biographical stories of everyday people elicited through visualized narrative interviews proliferate the nation's mediascape Governmental agencies and government linked institutions actively facilitate this phenomenon through campaigns and funding incentives Examining several key campaigns from the period of 2011-2021 Cheng shows how state and society collaborate to cultivate an intimate confessional public Taken together these stories generate a new paradigm of communicating social policy and the Singapore Story by mapping the national archive onto everyday bodies Bite sized pieces of consumable lives are marketed as authentic windows to the private self producing ways of being doing and feeling in the nation in accordance with contemporary societal concerns This book enters a larger debate about storytelling's impact around the world in the digital age Singapore's storytelling state functions within a global network of performing memory with new media Its origins can be traced to popular American models of oral history telling as seen in *StoryCorps* and *Humans of New York* with their techniques appropriated for a Singaporean audience Yet even when well intentioned the claims of such projects of giving voice to the non elite and the marginalized can be undermined by injurious effects that are not unique to the Singaporean context At the same time the embodied and emotional nature of these performances make the absolute control of meaning difficult Often they reveal more than they should transgressing the normative demands of the storytelling state At stake here are performances of identity mobility and belonging When the national stage is set for life

itself what does it mean to have a life **Unreadable** Don Barger, Grant Lovejoy, 2024-08-17 Don Barger and Grant Lovejoy didn't set out to write just another book. They conducted hundreds of interviews with people living and working in dozens of some of the world's largest cities. They sought to learn how people living in cities obtain information that shapes who they are and what they believe. Over the past few years, there has been a fundamental shift in how people consume and process information in urban environments. Today's urban world is media saturated and the way we communicate is evolving. It's no longer about books and print. It's about tapping into the networks people use every day. This book will show you how to reach those who prefer conversations over reading. Discover the power of oral communication and how to connect the gospel message to the hearts of urban audiences. Get ready to transform your ministry with insights that matter even if you don't read every word of this book. Recognizing that many people prefer to obtain information through media, each chapter of **Unreadable** includes a QR code to help the reader quickly grasp each chapter's key points. Just scan and learn. **Telling the Story** Geoff Mead, 2014-03-13 How to master the art of narrative leadership. **Telling the Story** shows how leaders affect our understanding of what is possible and desirable through the stories they tell. It opens a door into the world of narrative leadership: what stories are and how they work, when to tell a story and how to tell one well, and how the language and metaphors we use influence our actions and change how we think about the world. Explains how narrative leadership shapes and defines what's possible on an organizational level. Written by a renowned consultant on the art of narrative leadership. Challenges leaders to consider how narrative can influence and help create the kind of society they envision. *Story Smart* Kendall Haven, 2014-10-14 This one-of-a-kind book reveals the secrets of a story's power to persuade, inspire, influence, and to teach. Our brains have been evolutionarily hardwired to think to make sense and to understand in simple but hidden story terms. You'll discover the Neural Story Net, the Make Sense Mandate, Motive Matching, and the Story Influence Line, and understand how these powerful concepts control listener/reader engagement, attention, and the impact your communications will exert. You'll learn that what reaches the conscious mind of your target audience is significantly different from what first reached their eyes and ears, and that you can control that internal neural process. This easy-to-use guide is organized into four parts: the neuroscience of narrative, your story tools, how narratives exert influence (changing beliefs, attitudes, values, etc.), and the straightforward process of creating **Story Smart** stories. *The Story Paradox* Jonathan Gottschall, 2021-11-23 Storytelling, a tradition that built human civilization, may soon destroy it. Humans are storytelling animals. Stories are what make our societies possible. Countless books celebrate their virtues. But Jonathan Gottschall, an expert on the science of stories, argues that there is a dark side to storytelling: we can no longer ignore it. Storytelling, the very tradition that built human civilization, may be the thing that destroys it. In *The Story Paradox*, Gottschall explores how a broad consortium of psychologists, communications specialists, neuroscientists, and literary quants are using the scientific method to study how stories affect our brains. The results challenge the idea that storytelling is an obvious force for good in human life. Yes,

storytelling can bind groups together but it is also the main force dragging people apart And it s the best method we ve ever devised for manipulating each other by circumventing rational thought Behind all civilization s greatest ills environmental destruction runaway demagogues warfare you will always find the same master factor a mind disordering story Gottschall argues that societies succeed or fail depending on how they manage these tensions And it has only become harder as new technologies that amplify the effects of disinformation campaigns conspiracy theories and fake news make separating fact from fiction nearly impossible With clarity and conviction Gottschall reveals why our biggest asset has become our greatest threat and what if anything can be done It is a call to stop asking How we can change the world through stories and start asking How can we save the world from stories

understand our society our culture and ourselves How do specific doctrines help us engage thoughtfully in the philosophical political and social questions of our day How can we analyze and critique culture and its alternative critical theories through Scripture Informed by the biblical theological structure of Saint Augustine s magisterial work *The City of God* and with extensive diagrams and practical tools *Biblical Critical Theory* shows how the patterns of the Bible s storyline can provide incisive fresh and nuanced ways of intervening in today s debates on everything from science the arts and politics to dignity multiculturalism and equality You ll learn the moves to make and the tools to use in analyzing and engaging with all sorts of cultural artifacts and events in a way that is both biblically faithful and culturally relevant It is not enough for Christians to explain the Bible to the culture or cultures in which we live We must also explain the culture in which we live within the framework and categories of the Bible revealing how the whole of the Bible sheds light on the whole of life If Christians want to speak with a fresh engaging and dynamic voice in the marketplace of ideas today we need to mine the unique treasures of the distinctive biblical storyline
