Livingston Elizabeth A. Watry, Robert V. Goss, 2009 In January 1883 barely a month after the Northern Pacific Railroad NPRR finished laying tracks to the last crossing of the Yellowstone River Minnesota's Winona Daily Republican proclaimed Livingston as the future great city of the Yellowstone With the arrival of the NPRR in 1882 the town boomed as it became the division headquarters for the railroad Its future secured by the largest machine shops and roundhouse west of Minnesota Livingston rapidly grew from frontier town to progressive city By late 1883 its downtown area of substantial brick buildings housed more than 100 businesses and supported a residential area of 2 000 stalwart citizens Situated at the junction of the Northern Pacific branch to Yellowstone National Park Livingston hosted the majority of the early tourist trade to America's Wonderland of the West

We Do Not Want the Gates Closed between Us Justin Gage, 2020-10-08 In the 1860s and 1870s the United States government forced most western Native Americans to settle on reservations These ever shrinking pieces of land were meant to relocate contain and separate these Native peoples isolating them from one another and from the white populations coursing through the plains *We Do Not Want the Gates Closed Between Us* tells the story of how Native Americans resisted this effort by building vast intertribal networks of communication threaded together by letter writing and off reservation visiting Faced with the consequences of U S colonialism the constraints population loss and destitution Native Americans far from passively accepting their fate mobilized to control their own sources of information spread and reinforce ideas and collectively discuss and mount resistance against onerous government policies Justin Gage traces these efforts drawing on extensive new evidence including more than one hundred letters written by nineteenth century Native Americans His work shows how Lakotas Cheyennes Utes Shoshones Kiowas and dozens of other western tribal nations shrewdly used the U S government's repressive education system and mechanisms of American settler colonialism notably the railroads and the Postal Service to achieve their own ends Thus Natives used literacy a primary tool of assimilation for U S policymakers to decolonize their lives much earlier than historians have noted Whereas previous histories have assumed that the Ghost Dance itself was responsible for the creation of brand new networks among western tribes this book suggests that the intertribal networks formed in the 1870s and 1880s actually facilitated the rapid dissemination of the Ghost Dance in 1889 and 1890 Documenting the evolution and operation of intertribal networking Gage demonstrates its effectiveness and recognizes for the first time how through Native activism long distance intercultural communication persisted in the colonized American West
