Akindele, 2002-03-12 This book is about life and how to attain or approximate our most important aspirations It is designed to benefit everyone involved in any kind of venture or relationship The book is especially important to people who on a daily basis have to achieve important personal or business objectives by persuading others to see things their way or at least to meet them half way for a constructive and beneficial outcome This book is about life in all of its aspects It attempts to reach and be helpful to each reader in most aspects of life which the reader may need to improve or re evaluate Part of the objective of this book is to make a person acting in an informed manner become more comfortable with the choices that may from time to time be made Understanding why those choices were made and owning the benefits and being prepared to stoically deal with the attendant consequences that may flow from those choices To be sure this book is partly a concession to the sometimes unfathomable world in which we live It is therefore no more than my own imperfect effort of attempting to make some sense out of how and why things are the way they are How and why things have tended to work best for most people who have been deemed successful in various aspects of human endeavor whether as a great parent effective leader a good advocate an inspired creator of abundant wealth an admired citizen a trusted partner or a great friend Briefly therefore this book is divided into

three broad chapters Each chapter is further sub divided into appropriate sections for an easy and hopefully logical flow Chapter one attempts to lay out the general foundation for the kinds of issues and challenges to be addressed Chapter two addresses these issues in the context of various life circumstances and relationships we each find or may from time to time find ourselves Chapter three the last chapter hopefully succeeds in tying it all together The goal of the book is achieved By the time one completes reading the book each reader will be able to identify a personal road map for success And this road map is applicable to whatever field of endeavor or aspect of life that each person may desire greater measure of success As we each pursue our respective aspirations which could range from a desire to be loved and embraced a quest to be perceived as worthy an important recognition respect reward or some other opportunity it is very important to be very cognizant of the kinds of actions attitude or mind set that are more likely than not to aid us in attaining the ultimate goal we crave I call the constructive application of these various life tenets **THE WINNING FORMULA Winston Churchill an American Idol** Leonard Spencer-Lewis,2010 To really gain an insight into how Winston managed WW2 you need to read the many thousands of memos he wrote during the war Churchill s memoirs are packed full of stories and information however they were written in the rosy glow of victory The memo s tell the real story written in the heat of the moment they provide a lasting imprint of who Churchill really was and more importantly for my book how he went about saving the west from an unspeakable tyranny By stating that Churchill is an American Idol clearly I am not referring to the popular TV show Every day across America Churchill is quoted in a thousand different ways and used as a source of inspiration and reference in a thousand more Blogs Newspapers TV Radio there are more books written about Churchill than just about any other figure through the ages His popularity increases with each passing year as new generations of Americans discover one of the great icons of history To be clear this is a business focused book with a twist The subtitle of the book states The X Factors that prove the greatest Briton had talent Churchill had the X Factor there was something about Winston that marked him out as special Easy to say challenging to detail Over the next 250 pages I will share those X Factors I have identified from my years studying Churchill s approach to running the war in a way that enables the reader to transfer these skills into modern business I would like to think that I have achieved this feat whilst delivering a thoroughly entertaining and informative read with a few surprises thrown in for good measure
