White Christianity, Mega-Evangelism, Black Self-Alienation and Conservatism Rufus O Jimerson, Dr,Rufus O.

Jimerson,2015-12-07 The purpose of this book is to demonstrate how a faith rooted in Africa was distorted by Indo European invaders to support their enslavement and exploitation of African people and the global melanin majority or people of color This white Christianity is connected to placing capitalism consumption greed and materialism over spiritualism the greater good and empathy for the least of us The ethnocentric and racist version of Christianity reinforces black self alienation and conservatism that capitulates to white domination Black conservatives are aligned with street criminals as black oppressors and threats to unity community and self determination The book demonstrates how Indo Europeans falsified the founding of the Christian Church and why It shows how Indo Europeans presented Africa as the root of Christianity until the Renaissance and the emergence of white nationalism and its ethnocentrism at the offset of the nation states slavery and amassing wealth from the Americas and the Third World Racism was used to justify this exploitation in exchange for untold wealth and natural resources derived from labor and lands of people of color particularly Africa Besides religion civilization culture mores and ethics etc were taken and created to Indo Europeans Black oppressors were developed among Africans to keep blacks among the Servants of the Servants of God God and his leading disciples was and is white Indo Europeans are made in God s image to maintain hegemony over his earthly possessions Blacks like Ben Carson and Clarence Thomas who understood their place in the kingdom are considered quite popular among his faith based Christian flock and Fox News their major electronic media outlet Apparently faith in misinformation prevails among the conservatives as indicated *The Rowman & Littlefield Handbook of Contemporary Christianity in the United States* Mark A. Lamport,2022-02-15 The Handbook of Contemporary Christianity in the United States is a one volume examination of Christianity in its role contributions and embattled engagements with the contemporary culture of the postmodern United States While Christianity has been a sustaining force and dominant storyline of the historical foundations of America obvious social political and scientific inroads have lessened its influence and altered the issues considered The handbook explores the strengths and weaknesses of the Christian faith and traditions in the United States and its rich and textured history with a discernable eye toward how the message strategies and initiatives of Christianity has adapted to contemporary American life **Moral Ambition** Omri

Elisha,2011-07-15 In this evocative ethnography Omri Elisha examines the hopes frustrations and activist strategies of American evangelical Christians as they engage socially with local communities Focusing on two Tennessee megachurches Moral Ambition reaches beyond political controversies over issues such as abortion same sex marriage and public prayer to highlight the ways that evangelicals at the grassroots of the Christian Right promote faith based causes intended to improve the state of social welfare The book shows how these ministries both help churchgoers embody religious virtues and create provocative new opportunities for evangelism on a public scale Elisha challenges conventional views of U S evangelicalism as

narrowly individualistic elucidating instead the inherent contradictions that activists face in their efforts to reconcile religious conservatism with a renewed interest in compassion poverty racial justice and urban revivalism

Polarized by Degrees Matt Grossmann, David A. Hopkins, 2024-09-05 Over the past several decades American society has experienced fundamental changes from shifting relations between social groups and evolving language and behavior norms to the increasing value of a college degree These transformations have polarized the nation's political climate and ignited a perpetual culture war In a sequel to their award winning collaboration *Asymmetric Politics* Grossmann and Hopkins draw on an extensive variety of evidence to explore how these changes have affected both major parties They show that the Democrats have become the home of highly educated citizens with progressive social views who prefer credentialed experts to make policy decisions while Republicans have become the populist champions of white voters without college degrees who increasingly distrust teachers scientists journalists universities non profit organizations and even corporations The result of this new diploma divide between the parties is an increasingly complex world in which everything is about politics and politics is about everything

The Glass Church Mark T. Mulder, Gerardo Martí, 2020-04-17 Robert H Schuller's ministry including the architectural wonder of the Crystal Cathedral and the polished television broadcast of Hour of Power cast a broad shadow over American Christianity Pastors flocked to Southern California to learn Schuller's techniques The President of United States invited him sit prominently next to the First Lady at the State of the Union Address Muhammad Ali asked for the pastor's autograph It seemed as if Schuller may have started a second Reformation And then it all went away As Schuller's ministry wrestled with internal turmoil and bankruptcy his emulators including Rick Warren Bill Hybels and Joel Osteen nurtured megachurches that seemed to sweep away the Crystal Cathedral as a relic of the twentieth century How did it come to this Certainly all churches depend on a mix of constituents charisma and capital yet the size and ambition of large churches like Schuller's Crystal Cathedral exert enormous organizational pressures to continue the flow of people committed to the congregation to reinforce the spark of charismatic excitement generated by high profile pastors and to develop fresh flows of capital funding for maintenance of old projects and launching new initiatives The constant attention to expand constituencies boost charisma and stimulate capital among megachurches produces an especially burdensome strain on their leaders By orienting an approach to the collapse of the Crystal Cathedral on these three core elements constituency charisma and capital *The Glass Church* demonstrates how congregational fragility is greatly accentuated in larger churches a notion we label megachurch strain such that the threat of implosion is significantly accentuated by any failures to properly calibrate the inter relationship among these elements
