DJDS,2020-08-14 The tale of the immigrant in America is an old one The names and faces change but the struggles of those who come seeking a new and better life are the same In this story we have a hard working tax paying friendly young man from the Philippines He found some trouble through faults of his own with a young woman as young men are prone to do But then the American Justice system stepped in and through incompetence stupidity and self righteous actions cost him his livelihood freedom and cost America a hard working tax paying good member of society I hope in small part to embarrass the people in the Justice system to self reflection and modification of the rules that hide bad behavior and move to action those that have in the past tolerated it among their peers If that does not happen I hope this will be one of many calls to reform the system by the people of the United States to throw out those in office and positions of power who have for too long run a system of injustice pretending to be one of justice And if some of those in power can be made to feel just a little shame for their actions and inactions that will make me smile Dedicated to those who see injustice and act *The American Dream*

Power of Wealth Heather Beth Johnson,2014-05 In contemporary America the racial wealth gap is growing with families

transmitting race and class inequalities from generation to generation Yet Americans continue to hold deep rooted beliefs in the principles of individualism equal opportunity and meritocracy Education the Great Equalizer is supposed to level the playing field ensuring that every child regardless of family of origin gets an equal chance at success Drawing on in depth interviews with 200 black and white families The American Dream and the Power of Wealth starkly reveals the enormous extent to which parents defend their beliefs in the values that lie at the heart of the American Dream Yet the way wealth is acquired and the way it is used categorically puts children from different families on vastly different educational trajectories leaving them with uneven sets of opportunities
