**Deep Truth** Gregg Braden, 2012-10-15 The Crisis Best selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families cultures and nations seemingly disparate issues such as war terrorism abortion genocide poverty economic collapse climate change and nuclear threats are actually related They all stem from a worldview based upon the false assumptions of an incomplete science The History The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization Our reluctance to accept new discoveries about our relationship to the earth one another and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today The Facts The scientific method allows for and expects new information to be revealed and assimilated into our existing beliefs It's the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest current and meaningful To continue teaching science that is not supported by the new discoveries ones based upon accepted scientific methods is not in fact scientific But this is precisely what we see happening in traditional textbooks classrooms and mainstream media today The Opportunity Explore for yourself the discoveries that change 150 years of scientific beliefs yet are still not reflected in mainstream thinking including Evidence of advanced near ice age civilizations The origin of and reasons for war in our ancient past and why it may become obsolete in our time The false assumptions of human evolution and of the Darwinian theory Let the strongest live and the weakest die and how this plays out in corporations societies warfare and civilization today Deep Truth reveals new discoveries that change the way we

think about everything from our personal relationships to civilization itself When the facts become clear our choices become obvious
