Bonney, Xuewen Sheng**

Why Has Japan Succeeded Western Technology And The Japanese Ethos:

Why Has Japan 'Succeeded'? Michio Morishima, 1982 This book by a distinguished Japanese economist now resident in the West offers a new interpretation of the current success of the Japanese economy By placing the rise of Japan in the context of its historical development Michio Morishima shows how a strongly held national ethos has interacted with religious social and technological ideas imported from elsewhere to produce highly distinctive cultural traits While Professor Morishima traces the roots of modern Japan back as far as the introduction of Confucianism Taoism and Buddhism from China in the sixth century he concentrates his observations on the last 120 years during which Japan has had extensive contacts with the West He describes the swift rise of Japan to the status of a first rate power following the Meiji Revolution after 1867 in which Japan broke with a long history of isolationism and which paved the way for the adoption of Western technology and the creation of a modern Western style nation state and a similarly meteoric rise from the devastation of the Second World War to Japan's present position A range of factors in Japan's economic success are analysed her characteristic dualistic social structure corresponding to the divide between large and medium small enterprises the relations of government and big business the poor reception of liberalism and individualism and the strength of the Japanese nationalism Throughout Professor Morishima emphasises the importance of the role played in the creation of Japanese capitalism by ethical doctrines as transformed under Japanese conditions especially the Japanese Confucian tradition of complete loyalty to the firm and to the state This account which makes clear the extent to which the economic rise of Japan is due to factors unique to its historical traditions will be of interest to a wide general readership as well as to students of Japan and its history

The Cambridge Companion to Modern Japanese Culture Yoshio Sugimoto, 2009-06-30 This Companion provides a comprehensive overview of the influences that have shaped modern day Japan Spanning one and a half centuries from the Meiji Restoration in 1868 to the beginning of the twenty first century this volume covers topics such as technology food nationalism and rise of anime and manga in the visual arts The Cambridge Companion to Modern Japanese Culture traces the cultural transformation that took place over the course of the twentieth century and paints a picture of a nation rich in cultural diversity With contributions from some of the most prominent scholars in the field The Cambridge Companion to Modern Japanese Culture is an authoritative introduction to this subject

Japanese Industrialisation Ian Inkster, 2012-08-06 Japan's escape from colonialism and its subsequent industrialisation has taken it to the point where its economy is second only to that of the US This comprehensive volume examines how this rapid change of fortunes occurred and the impact it has had on East Asia and the world at large Taking a wide range and focus Inkster looks at the history of Japan's industrial development in a social and cultural context

China's Economic Rise Sangaralingam Ramesh, 2020-08-29 This book examines the economic and political rise of China from the perspective of Japan's economic development Beginning with Japan's rise to statehood in the Kamakura Period 1185 to 1333 and detailing the evolution of its

economy through to 2018 parallels are drawn with the economic development of China. Many of the challenges Japan faced in the first decades of the 20th century including nationalism, militarism, income disparities, social deprivation and economic crisis are applicable to modern day China. China's Economic Rise: Lessons from Japan's Political Economy aims to detail the possible economic and political upheavals that could accompany the slowing of the Chinese economy from the experience of Japan. The book will be of interest to researchers and students in Political Economy, Economic History, Economic Transition and Development Economics. The book supplements the other publications of the author: China's Lessons for India Volume 1: The Political Economy of Development; China's Lessons for India Volume 2: The Political Economy of Change and The Rise of Empires; The Political Economy of Innovation. *Dimensions of Japanese Society* K. Henshall, 1999-06-23 Japan remains one of the most intriguing yet least understood nations. In a much needed balanced and comprehensive analysis among other remarkable revelations this book presents for the first time a vital key to understanding the organisation of Japan's society and the behaviour of its people. The Japanese are not driven by a universal morality based on Good and Evil but by broad aesthetic concepts based on Pure and Impure. What they include as impure will surprise many readers. **Japanese Business Down Under** David W. Edgington, 2018-10-31 The first comprehensive study of post war Japanese transnational corporations in Australia, this book first published in 1990 gives valuable insights into the particular characteristics of Japanese overseas investment. It looks at how, where and why Japanese corporations have set up their business activities in Australia, focusing on the economic, political and geographic factors shaping their operations. It presents case studies of Japanese trading companies, manufacturing companies, banks and financial institutions. As well as highlighting the essential differences that separate Japanese transnational companies from those of the UK and the USA, the study gives new theoretical insights into the complex behaviour of Japanese corporations in their host countries. *Japanese Perceptions of China in the Nineteenth Century* Sushila Narsimhan, 1999 *Working for the Japanese* Jonathon Morris, Max Munday, Barry Wilkinson, 2013-12-17 Wales has one of the highest concentrations of Japanese manufacturing investment in Europe. It provides a case study for examining the economic and social impact of this investment which is often perceived as being very different from existing foreign investment. The book evaluates this case study looking at the attraction of Japanese capital to Wales, its impact on the Welsh economy, upon employment, management practice, industrial relations, the community and upon the Japanese themselves. First published in 1993, this title is part of the Bloomsbury Academic Collections series. *The Origins of Japanese Industrial Power* Etsuo Abe, Robert Fitzgerald, 2014-02-04 The recognised success of the post war Japanese economy has rested on the qualities of its manufacturing industries. This book explores the origins, rationale and consequences of this transformation. Using theoretical insights and detailed evidence, it reviews the rise of the Japanese economy and the nature, causes and changing objectives of vertical and horizontal integration, ownership, control, financing and bank industry relations and the major operational functions of production, human resources, distribution and marketing.

Informality and Monetary Policy in Japan Adrian van Rixtel, 2002-10-31 The success and misfortunes of the post war Japanese economy has been one of the most debated points in modern economics Many explanations focus on cultural and institutional factors and in particular the role of Informality networks organizing business activity and government policy Adrian van Rixtel an economist at the European Central Bank provides a quantitative and qualitative assessment of Informality in the formation of Japanese monetary policy Having been based in Japan for three years two years of which were spent at the Institute for Monetary and Economic Studies at the Bank of Japan and the Japanese Ministry of Finance he is able to bring a unique insider outsider perspective to the subject *History of Japanese Economic Thought* Tessa Morris Suzuki, 2020-09-16 Economics in the modern sense of the word was introduced into Japan in the second half of the nineteenth century However Japanese thinkers had already developed during the seventeenth and eighteenth centuries a variety of interesting approaches to issues such as the causes of inflation the value of trade and the role of the state in economic activity Tessa Morris Suzuki provides the first comprehensive English language survey of the development of economic thought in Japan She considers how the study of neo classical and Keynesian economics was given new impetus by Japan s economic miracle while Marxist thought particularly well established in Japan was developing along lines that are only now beginning to be recognized by the West She concludes with an examination of the radical rethinking of fundamental economic theory currently occurring in Japan and outlines some of the exciting new approaches which are emerging from this shaking of the foundations U.S./Japan Foreign Trade Rita E. Neri, 2018-02-21 This bibliography first published in 1988 consists of annotated entries of monographs and journal articles published in English that discuss socio economic aspects of Japanese society as well as the general and economic dynamics of United States Japan trade relations Emphasis is on the Japanese perspective **Women's Work in East and West: The Dual Burden of Employment and Family Life** Norman Stockman, Norman Bonney, Xuewen Sheng, 2016-09-16 *Unmasking Administrative Evil* discusses the overlooked relationship between evil and public affairs as well as other fields and professions in public life **Routledge Library Editions: Japan's International Relations** Various Authors, 2021-05-28 This set brings together a collection of key works about the International Relations of Japan Written by a range of international experts the titles cover the essential aspects of Japan s postwar relationship to the outside world its changing notion of its role in the international community and its relations with China and the US **Korea's Political Economy** Lee-Jay Cho, 2019-03-07 Over the past three decades South Korea has moved along a path of strong economic growth and political democratization attracting worldwide attention and providing valuable lessons for other developing economies Yet Korea still must grapple with many intractable problems fueled by its rapid industrialization and uneven growth including unbalanced distribution of wealth concentrated economic power and adversarial relationships between management and labor Within the context of these sweeping changes this volume explores options for economic and social institutional reform in Korea Drawing on models of economic development from Japan the

United States and Europe a distinguished group of Asian and Western scholars relates the experiences of previously industrialized economies to each facet of Korea's economic system including national management taxation and banking land ownership and use trade and industrial strategy and relations among business ownership management and labor In so doing the contributors provide valuable insights and fresh proposals for a viable model of social and economic modernization Throughout the volume the contributors emphasize the importance of Korea's cultural heritage not only in explaining the nation's recent growth but also as a key element of its continued success By providing an overview of the evolution and interaction of Korean economic political and sociocultural institutions the contributors make clear how these structures mediate the movement between cultural values and economic progress *Reconfiguring Institutions Across Time and Space* D. Galvan, R. Sil, 2007-03-19 This book examines how novel institutional forms emerge when actors creatively reinterpret and reconfigure imported or imposed institutional models using case studies from East Asia the Middle East Africa and Latin America **Moral Education in Japan** Marie Roesgaard, 2016-10-04 Japan's Fundamental Law on Education was revised in 2006 and new curriculum guidelines along with new proposals for strengthening the position of moral education reflect the increased political focus particularly by the two Abe administrations Changes include increased emphasis on patriotism on respect for life and the environment on individual responsibility on respecting differences and other countries and on a general strengthening of moral values This volume describes the history of moral education in Japan analyses recent changes in curriculum and practices and takes a closer look at examples of official semi official and local discourses on moral education and values The analysis covers policy statements teaching material and research Japanese as well as Western Using theories of globalization cosmopolitanism and universal human values it is the intention by using an Asian example to illustrate and elaborate upon existing discourses within theories of globalization and cosmopolitanism as well as in education and values and citizenship studies Chapters include Revision of the fundamental law on Education in 2006 and beyond Official and semi official bids for contents of moral education Moral education in practice Risk globalization and meaning in Japanese Moral Education This book will be of interest to scholars specializing in education in Japan and scholars in the academic field of moral character and citizenship education **Resources, Values and Development** Amartya Kumar Sen, Amartya Sen, 1997 *Resources Values and Development* contains many of Amartya Sen's path breaking contributions to development economics including papers on resource allocation in nonwage systems shadow pricing employment policy welfare economics poverty assessment gender based inequality and hunger and famines International Business Handbook Vishnu H. Kirpalani, 1990 Informs about global trends different regions and their consumer cultures and business customs methods of entry and global strategies Emphasizes new concept of global marketing **Economic Reform in Japan** Craig Freedman, 2001-01-01 While many Western economists forcefully urge the Japanese to become more like the US there are other academics who have registered strong reservations to such a simplistic solution In this volume noted scholars

take opposing positions on key issues including financial reform corporate change and international trade The editor contributes a thought provoking introduction which also presents an overview of the topic The papers gathered here present an opportunity for readers to consider the underlying conflicts in Japan s economy and society that makes choosing a new direction such a difficult proposition
