Why Peacekeeping Fails:

Why Peacekeeping Fails D. Jett, 2000-03-01 Dennis C Jett examines why peacekeeping operations fail by comparing the unsuccessful attempt at peacekeeping in Angola with the successful effort in Mozambique alongside a wide range of other peacekeeping experiences The book argues that while the causes of past peacekeeping failures can be identified the chances for success will be difficult to improve because of the way such operations are initiated and conducted and the way the United Nations operates as an organization Jett reviews the history of peacekeeping and the evolution in the number size scope and cost of peacekeeping missions He also explains why peacekeeping has become more necessary possible and desired and yet at the same time more complex more difficult and less frequently used The book takes a hard look at the UN s actions and provides useful information for understanding current conflicts [Why Peacekeeping Fails](#) Dennis C. Jett, 2019-05-15 In this thoroughly revised edition of his bestselling 1999 volume *Why Peacekeeping Fails* Dennis Jett explains why peacekeepers today are dying in record numbers while engaged in operations that either are bound to fail or make little contribution to peace The original book compared a wide range of peacekeeping experiences including the unsuccessful attempt at peacekeeping in Angola with the successful effort in Mozambique in the early 1990 s to argue for the importance of peacekeeping and suggest ways to improve its chances for success Nearly two decades later the number of UN peacekeepers has risen to 100 000 from 15 000 and yet after years of expansion support for peacekeeping seems to be diminishing This thoroughly revised and updated 20th anniversary edition half of which is completely new material provides a timely update to Jett s previous volume examining why the dramatic growth in peacekeeping has occurred how it is now being used and why the challenges peacekeepers face cannot be dealt with alone Also considering the impact of terrorism on both recent and longstanding peacekeeping operations this book will assess the prospects of peacekeeping in an era in which the United States seems to be withdrawing from the world [Why Peace Fails](#) Charles T. Call, 2012-04-03 Why does peace fail More precisely why do some countries that show every sign of having successfully emerged from civil war fall once again into armed conflict What explains why peace sticks after some wars but not others In this illuminating study Charles T Call examines the factors behind fifteen cases of civil war recurrence in Africa Asia the Caucasus and Latin America He argues that widely touted explanations of civil war such as poverty conflict over natural resources and weak states are far less important than political exclusion Call s study shows that inclusion of former opponents in postwar governance plays a decisive role in sustained peace *Why Peace Fails* ultimately suggests that the international community should resist the temptation to prematurely withdraw resources and peacekeepers after a transition from war Instead international actors must remain fully engaged with postwar elected governments ensuring that they make room for former enemies [Sex in Peace Operations](#) Gabrielle Simm, 2013-04-25 This book critically re evaluates the problem of sex between international personnel and local people and offers regulatory solutions to legal problems **United States Congressional Serial Set,**

Serial No. 15001, Senate Documents Nos. 20-24 United States. 79th Congress, 2nd session, The Serial Set contains the House and Senate Documents and the House and Senate Reports This volume includes Senate Reports from 109th Congress 2nd Session 2006 *Historical Dictionary of Multinational Peacekeeping* Terry M. Mays, 2021-04-10 Conflicts require a process to guide the belligerents from the battle field to mutual cooperation But how does one provide the conflict stabilization for this peace process to operate Peacekeeping emerged as one of these tools and has evolved to become an important element to support the peace process between belligerents in major inter state and intra state conflict This book takes a broad definition of multinational peacekeeping in order to provide a basis for comparison and permit researchers to review operations labeled as peacekeeping by international organizations The goal of this work is to assist researchers scholars and others who are interested in peacekeeping and humanitarian operations to sort through the myriad of peacekeeping or peace operations since 1920 and consider some of the trends and issues behind these missions This fourth edition of *Historical Dictionary of Multinational Peacekeeping* contains a chronology an introduction and an extensive bibliography The dictionary section has more than 700 cross referenced entries peacekeeping operations people organizations countries and events associated with peacekeeping This book is an excellent resource for students researchers and anyone wanting to know more about peacekeeping **United Nations Peacekeeping** Oldrich Bureš, 2008

International Security Patrick M. Morgan, 2006-02-27 Conflict be it war between states ethnic violence civil war or terrorist activity endures despite immense efforts to end it How do states cope with conflict minimize future threats and reduce the risk of insecurity Morgan outlines a spectrum of solutions states use to manage violent conflict ranging from strategies that individual governments enact largely on their own such as distribution of power deterrence or arms control to those such as collective security and multilateralism that are more global in nature The book progresses into tactical and practical actions from negotiation and mediation to peace imposition Morgan evaluates each strategy and tactic in terms of how well it addresses three levels of security systemic state and societal to show how they are interrelated and complementary to each other in important ways Addressing insecurity at one level often elicits further insecurity at another Morgan shows students how these various levels interact either to a state s advantage or to its detriment so they can comprehensively analyze the ways that political actors manage or incite conflict Useful pedagogical features help students master the material Terms and Concepts boxes go beyond simple definitions and provide students with a concept s evolution over time or the controversy surrounding the meaning of a certain term Cases and Context boxes offer needed background and interesting detail about pivotal cases of conflict both historical and contemporary in nature Key terms are bolded throughout and compiled in a glossary Annotated bibliographic essays at the end of each chapter point students to additional sources for further study *Constructing Allied Cooperation* Marina E. Henke, 2019-10-15 How do states overcome problems of collective action in the face of human atrocities terrorism and the threat of weapons of mass destruction How

does international burden sharing in this context look like between the rich and the poor the big and the small These are the questions Marina E Henke addresses in her new book *Constructing Allied Cooperation Through qualitative and quantitative analysis of 80 multilateral military coalitions* Henke demonstrates that coalitions do not emerge naturally Rather pivotal states deliberately build them They develop operational plans and bargain suitable third parties into the coalition purposefully using their bilateral and multilateral diplomatic connections what Henke terms diplomatic embeddedness as a resource As *Constructing Allied Cooperation* shows these ties constitute an invaluable state capability to engage others in collective action they are tools to construct cooperation Pulling apart the strategy behind multilateral military coalition building Henke looks at the ramifications and side effects as well As she notes via these ties pivotal states have access to private information on the deployment preferences of potential coalition participants Moreover they facilitate issue linkages and side payments and allow states to overcome problems of credible commitments Finally pivotal states can use common institutional contacts IO officials as cooperation brokers and they can convert common institutional venues into fora for negotiating coalitions The theory and evidence presented by Henke force us to revisit the conventional wisdom on how cooperation in multilateral military operations comes about The author generates new insights with respect to who is most likely to join a given multilateral intervention what factors influence the strength and capacity of individual coalitions and what diplomacy and diplomatic ties are good for Moreover as the Trump administration promotes an America First policy and withdraws from international agreements and the United Kingdom completes Brexit *Constructing Allied Cooperation* is an important reminder that international security cannot be delinked from more mundane forms of cooperation multilateral military coalitions thrive or fail depending on the breadth and depth of existing social and diplomatic networks

The Uprooted Susan F. Martin, Patricia Weiss Fagen, Kari M. Jorgensen, Andrew Schoenholtz, Lydia Mann-Bondat, 2005-07-21 By conservative estimates about 50 million migrants are currently living outside of their home communities forced to flee to obtain some measure of safety and security In addition to persecution human rights violations repression conflict and natural and human made disasters current causes of forced migration include environmental and development induced factors Today s migrants include the internally displaced a category that has only recently entered the international lexicon But the legal and institutional system created in the aftermath of World War II to address refugee movements is now proving inadequate to provide appropriate assistance and protection to the full range of forced migrants needing attention today *The Uprooted* is the first volume to methodically examine the progress and persistent shortcomings of the current humanitarian regime The authors all experts in the field of forced migration describe the organizational political and conceptual shortcomings that are creating the gaps and inefficiencies of international and national agencies to reach entire categories of forced migrants They make policy based recommendations to improve international regional national and local responses in areas including organization security funding and durability of response For all those working on behalf of the world s forced migrants The

Uprooted serves as a call to arms emphasizing the urgent need to develop more comprehensive and cohesive strategies to address forced migration in its complexity **Securing Peace in Angola and Mozambique** Miranda Melcher, 2024-03-21 This book helps explain how and why there are such diverging outcomes of UN peace negotiations and treaties through a detailed examination of peace processes in the Angolan and Mozambican civil wars Does it really matter what's written on page 36 protocol V section III point 5 of a UN endorsed peace treaty Dr Miranda Ruwart Melcher shows that seemingly small details such as who wears suits who has toothbrushes and how specific words are translated between French and English can and have delayed peace or contributed to restarting wars Dr Melcher uses unique primary source data including interviews with key actors who have participated in peace treaty negotiations as well as thousands of previously newly opened UN documents She argues that treaty specificity is an undervalued but important factor in researching the success or failure of peace processes The book offers new insights and policy recommendations for key details whose presence or absence can have a significant impact on how peace processes unfold **The United Nations & Regional Security** Michael Charles Pugh, Waheguru Pal Singh Sidhu, 2003 Events in Europe over the past decade or so have created a dynamic requiring conceptual and practical adjustments on the part of the UN and a range of regional actors This volume explores the resulting collaborative relationships in the context of peace operations in the Balkans **Decolonising Conflicts, Security, Peace, Gender, Environment and Development in the Anthropocene** Úrsula Oswald Spring, Hans Günter Brauch, 2021-01-25 In this book 25 authors from the Global South 19 and the Global North 6 address conflicts security peace gender environment and development Four parts cover I peace research epistemology II conflicts families and vulnerable people III peacekeeping peacebuilding and transitional justice and IV peace and education Part I deals with peace ecology transformative peace peaceful societies Gandhi's non violent policy and disobedient peace Part II discusses urban climate change climate rituals conflicts in Kenya the sexual abuse of girls farmer herder conflicts in Nigeria wartime sexual violence facing refugees the traditional conflict and peacemaking process of Kurdish tribes Hindustani family shame and communication with Roma Part III analyses norms of peacekeeping violent non state actors in Brazil the art of peace in Mexico grass roots post conflict peacebuilding in Sulawesi hydrodiplomacy in the Indus River Basin the Rohingya refugee crisis and transitional justice Part IV assesses SDGs and peace in India peace education in Nepal and infrastructure based development and peace in West Papua Peer reviewed texts prepared for the 27th Conference of the International Peace Research Association IPRA in 2018 in Ahmedabad in India Contributions from two pioneers of global peace research a foreword by Johan Galtung from Norway and a preface by Betty Reardon from the United States Innovative case studies by peace researchers on decolonising conflicts security peace gender environment and development in the Anthropocene the new epoch of earth and human history New theoretical perspectives by senior and junior scholars from Europe and Latin America on peace ecology transformative peace peaceful societies and Gandhi's non violence policy Case studies on climate

To Reform the World Guy Fiti Sinclair, 2017-02-16 This book explores how international organizations IOs have expanded their powers over time without formally amending their founding treaties IOs intervene in military financial economic political social and cultural affairs and increasingly take on roles not explicitly assigned to them by law Sinclair contends that this mission creep has allowed IOs to intervene internationally in a way that has allowed them to recast institutions within and interactions among states societies and peoples on a broadly Western liberal model Adopting a historical and interdisciplinary socio legal approach Sinclair supports this claim through detailed investigations of historical episodes involving three very different organizations the International Labour Organization in the interwar period the United Nations in the two decades following the Second World War and the World Bank from the 1950s through to the 1990s The book draws on a wide range of original institutional and archival materials bringing to light little known aspects of each organization s activities identifying continuities in the ideas and practices of international governance across the twentieth century and speaking to a range of pressing theoretical questions in present day international law and international relations

The History and Practice of Humanitarian Intervention and Aid in Africa B. Everill, J. themes continuities and discontinuities in Western humanitarian engagement with Africa

UN Peace Operations and International Policing Charles T. Hunt, 2014-09-15 This book addresses the important question of how the United Nations UN should monitor and evaluate the impact of police in its peace operations UN peace operations are a vital component of international conflict management Since the end of the Cold War one of the foremost developments has been the rise of UN policing UNPOL Instances of UNPOL action have increased dramatically in number and have evolved from passive observation to participation in frontline law enforcement activities Attempts to ascertain the impact of UNPOL activities have proven inadequate This book seeks to redress this lacuna by investigating the ways in which the effects of peace operations and UNPOL in particular are monitored and evaluated Furthermore it aims to develop a framework tested through field research in Liberia for Monitoring and Evaluation M E that enables more effective impact assessment By enhancing the relationship between field level M E and organisational learning this research aims to make an important contribution to the pursuit of more professional and effective UN peace operations This book will be of much interest to students of peace operations conflict management policing security studies and IR in general
