Wisdom of the Psyche Ginette Paris, 2013-12-16 In the quest for identity and healing what belongs to the humanities and what to clinical psychology Ginette Paris uses cogent and passionate argument as well as stories from patients to teach us to accept that the human psyche seeks to destroy relationships and lives as well as to sustain them This is very hard to accept which is why so often the body has the painful and dispiriting job of showing us what our psyche refuses to see In jargon free language the author describes her own story of taking a turn downwards and inwards in the search for a metaphorical personal death If this kind of mortality is not attended to then more literal bodily ailments and actual death itself can result Paris engages with one of the main dilemmas of contemporary psychology and psychotherapy how to integrate findings and insights from neuroscience and medicine into an approach to healing founded upon activation of the imagination At present she demonstrates what is happening is damaging to both science and imagination *Wisdom of the Psyche* Ginette Paris, 2016-02-22

The first edition of *Wisdom of the Psyche* engaged with one of the main dilemmas of contemporary psychology and psychotherapy how to integrate findings and insights from neuroscience and medicine into an approach to healing founded upon activation of the imagination In this revised edition Ginette Paris re focuses her attention on the modern lack of desire to become adult and updates the book with brand new neuroscientific research Paris uses cogent and passionate argument as well as stories from patients to demonstrate that the human psyche seeks to destroy relationships and lives as well as to sustain them She makes clear that the way out of those destructive states does not start with an upward positive wilful effort of the ego but with an opening of the imagination and aims to foster the dialogue between psychotherapists and neuroscientists In clear and accessible language Paris describes how depth psychology can be seen as a subject of the humanities rather than the sciences and explains how gaining an understanding of neuroscience will not necessarily make us psychologically wiser A unique and powerful book *Wisdom of the Psyche* will be fascinating reading for Jungian and depth psychologists psychotherapists analysts and others in the helping professions as well as students and those in training and readers with an interest in psychology and neuroscience who want to create an inner life worth living

Marion Woodman and Luigi Zoja *Body, Mind and Healing After Jung* Raya A. Jones, 2010-07-02 It is difficult to point to an aspect of Jungian psychology that does not touch on mind body and healing in some way In this book Raya Jones draws on the triad of body mind and healing and re presents it as a domain of ongoing uncertainty within which Jung s answers stir up further questions Contributors from both clinical and scholarly backgrounds offer a variety of cultural and historical perspectives Areas of discussion include the psychosomatic nature of patients problems transference and counter transference therapeutic techniques centred on movement or touch Striking a delicate balance between theory centred and practice oriented approaches *Body Mind and Healing After Jung* is essential reading for all Jungians The Archetypal Artist Mary Antonia Wood, 2022-03-24 In this thoughtful and revelatory book Wood explores enduring and powerful theories on art creativity and what Jung called the creative spirit in order to illuminate how artists can truly understand what it means to be a creator By bringing together insights on creativity from some of depth psychology s most iconic thinkers such as C G Jung James Hillman and Joseph Campbell as well as featuring a selection of creators who have been influenced by these ideas such as Martha Graham Mary Oliver Stanley Kunitz and Ursula K Le Guin this book explores archetypal thought and the role of the artist in society This unique approach emphasizes the foundational need to understand and work with the unconscious forces that underpin a creative calling deepening our understanding of the transformational power of creativity and the vital role of the artist in the modern world Acting as a touchstone for inquiries into the nature of creativity and of the soul this enlightening book is perfect for artists and creators of all types as well as Jungian analysts and therapists and academics interested in the arts humanities and depth psychology **The Ecocritical Psyche** Susan Rowland, 2013-03-01 The Ecocritical Psyche unites literary studies ecocriticism Jungian ideas mythology and complexity evolution theory for the first time developing the aesthetic aspect of psychology and science as deeply as it explores evolution in Shakespeare and Jane Austen In this book Susan Rowland scrutinizes literature to understand how we came to treat nature as separate from ourselves and encourages us to re think what we call human By digging into symbolic mythological and evolutionary fertility in texts such as *The Secret Garden* *The Tempest* *Wuthering Heights* and *The Lion the Witch and the Wardrobe* the book argues that literature is where the imagination estranged from nature in modernity is rooted in the non human other The Ecocritical Psyche is unique in its interdisciplinary expansion of literature psyche science and myth It develops Jungian aesthetics to show how Jung s symbols correlate with natural signifying providing analytical psychology with a natural home in ecocritical literary theory The book is therefore essential reading for seasoned analysts and those in training as well as academics involved in literary studies and Jungian psychology Climate Psychology Paul Hoggett, 2019-06-01 This book investigates the psycho social phenomenon which is society s failure to respond to climate change It analyses the non rational dimensions of our collective paralysis in the face of worsening climate change and environmental destruction exploring the emotional ethical social organizational and cultural dynamics to blame for this global lack of action The book features eleven

research projects from four different countries and is divided in two parts the first highlighting novel methodologies the second presenting new findings Contributors to the first part show how a deep listening approach to research can reveal the anxieties tensions contradictions frames and narratives that contribute to people s experiences and the many ways climate change and other environmental risks are imagined through metaphor imagery and dreams Using detailed interview extracts drawn from politicians scientists and activists as well as ordinary people thesecond part of the book examines the many different ways in which we both avoid and square up to this gathering disaster and the many faces of alarm outrage denial and indifference this involves

C. G. Jung in the Humanities Susan Rowland,2019-09-23 This book demonstrates for the first time the significance of Jung s work to the humanities and to those areas where the humanities and sciences share borders More radically it shows that Jung was a writer of myth alchemy narrative and poetics as well as on them Jung s core concepts are introduced their ongoing relevance is championed The book also addresses Jung s sometimes questionable judgment on politics and gender and previews contemporary extensions of Jungian theory By privileging the creative psyche and exploring the connections between individual natural environment and social psychological collective Jung anticipates the new holism offering the promise of reconciling the sciences with the arts humanity with nature

Somatic Cinema Luke Hockley,2013-10-30 Films can hold personal psychological meanings that are often at odds with their narratives Examining the intersections between mental health and the cinema Somatic Cinema represents the cutting edge of film theory evaluating the significance of this phenomenon both in therapy and in the everyday world Luke Hockley draws on the insights of phenomenological and Jungian film theory and applies them alongside more established psychoanalytic approaches The result is to combine the idea of affective bodily experience with unconscious processes as a means to explore a new ontology of the cinema The emphasis is therefore shifted from pure intellectual insight to greater inclusion of personally constructed meanings and experiences Several key concepts are developed and explored throughout the book These include The idea of the Third Image occupying the intersubjective space between viewer and screen and therapist and client The concept of the Cinematic Frame as opposed to the Film Frame the container of the psychological relationship between viewer and screen The use of the Cinematic Experience to encapsulate the somatic expression of unconscious effects that develop while a film is viewed and which are central to the creation of personal psychological meanings With a focus on examining why we develop a personal relationship with films Somatic Cinema is ideal for academics and students of film studies media studies and analytical psychology

Environmental Change and the World's Futures Jonathan Paul Marshall,Linda H. Connor,2015-08-27 Climate change and ecological instability have the potential to disrupt human societies and their futures Cultural social and ethical life in all societies is directed towards a future that can never be observed and never be directly acted upon and yet is always interacting with us Thinking and acting towards the future involves efforts of imagination that are linked to our sense of being in the world and the ecological pressures we experience The three key ideas

of this book ecologies ontologies and mythologies help us understand the ways people in many different societies attempt to predict and shape their futures Each chapter places a different emphasis on the linked domains of environmental change embodied experience myth and fantasy politics technology and intellectual reflection in relation to imagined futures The diverse geographic scope of the chapters includes rural Nepal the islands of the Pacific Ocean Sweden coastal Scotland North America and remote rural and urban Australia This book will appeal to researchers and students in anthropology sociology environmental studies cultural studies psychology and politics

Archetypal Psychotherapy Jason A.

Butler, 2014-04-03 Archetypal psychology is a post Jungian mode of theory and practice initiated primarily through the prolific work of James Hillman Hillman's writing carries a far reaching collection of evocative ideas with a wealth of vital implications for the field of clinical psychology With the focus on replacing the dominant fantasy of a scientific psychology with psychology as logos of soul archetypal psychology has shifted the focus of therapy away from cure of the symptom toward vivification and expression of the mythopoetic imagination This book provides the reader with an overview of the primary themes taken up by archetypal psychology as differentiated from both classical Jungian analysis and Freudian derivatives of psychoanalysis Throughout the text Jason Butler gathers the disparate pieces of archetypal method and weaves them together with examples of dreams fantasy images and clinical vignettes in order to depict the particular style taken up by archetypal psychotherapy a therapeutic approach that fosters an expansion of psychological practice beyond mere ego adaptation and coping providing a royal road to a life and livelihood of archetypal significance Archetypal Psychotherapy The clinical legacy of James Hillman will be of interest to researchers and academics in the fields of Jungian and archetypal psychology looking for a new perspective as well as practising psychotherapists

Soulbriety Elisa Hallerman, 2022-12-06

The founder of Recovery Management Agency the world's first agency devoted to helping addicts heal their addictions by reawakening their souls uses her knowledge of depth psychology and her personal experience as a recovering addict to help you reconnect with soul find meaning and live your purpose On her fifth anniversary of sobriety Elisa Hallerman still awoke with a hurting heart This is not right I am not happy Sobriety was supposed to fix her right Isn't that what sobriety is all about Hallerman quickly realized that though she had freed her addiction to substances she had not freed her soul After years of trauma and substance abuse she had only covered up the wounds rather than truly healing them from within Despite her sobriety her current lifestyle a top talent agent and partner at WME representing the best of Hollywood's elite was making her sick While she was no longer clinging to drugs and alcohol she was still using food men work ego inflation and other addictive behaviors to push away the pain And so she quit it all in an effort to ignite her life and reconnect to her soul Since then Hallerman received a doctorate in Depth Psychology and established the first ever Recovery Management Agency one that helps addicts not only recover and their addiction but reawaken their soul connection and live their unique purpose Leaning on her studies and expertise Soulbriety brings together Hallerman's story philosophy and methodology encouraging

and facilitating us to use our soul as our map as nourishment and to create deep meaning in our lives Soulbriety is not just about getting sober it's about true soul centered wellness It starts when you slow down and grow down in a way you've been yearning for but probably didn't quite know how to before To explore your unconscious root system plumb the depths of your soul travel your own individual hero's journey Hallerman shows us exactly how to get there with step by step solutions and incredibly affecting storytelling And Hallerman is not alone in this endeavor she has affected thousands of lives healed many wounds and inspired countless others to take charge of their life by taking charge of their soul As actress Jamie Lee Curtis says in Soulbriety's forward Hallerman is a crucial voice for these unprecedented times

Personal and Cultural Shadows of Late Motherhood Maryann Barone-Chapman, 2019-11-28 Personal and Cultural Shadows of Late Motherhood explores the topic of delayed motherhood from a Jungian psychoanalytic perspective using both quantitative and qualitative research methods including interview transcripts diaries dreams and Jung's world renowned Word Association Experiment It provides a unique contribution to our understanding of the pressures faced by women today on the topic of delayed motherhood We may consider an affect to be in place when a woman allows her relationship to her body and its procreative capacity to slip away from consciousness only to awaken at a point when redeeming her past choices becomes a hunger This book delves into personal cultural and collective spheres of influence that have been split off waiting for the right moment to reintegrate Working with Interpretive Phenomenological Analysis and Jung's Word Association Experiment the author identifies aspects of the psyche arousing late procreative desire and considers the differing accounts of maternal and paternal parents within affective experience of growing up female beside a male sibling The book examines women's procreative identity in midlife identifies complexes of a personal cultural and collective nature and considers how the role of mother is psychosocially performed taking in feminist psychoanalytical thinking as well as Queer theory to explore new meanings for late motherhood This book will be of great interest to clinicians researchers academics postgraduate students of Jungian psychoanalysis gender theory psychosocial studies and those travelling alongside a woman's journey into later motherhood
