For some time now, the prefix ‘inter-’ has characterized the grammatical morphology of discourses on language, culture, and the relationship of scientific disciplines to one another. The fact that both migratory and purely medially transferred knowledge and traditions lead to interactions with receiving cultures, such as through syncretization or the formation of a hybrid result, gave rise to the research field of interculturality. The prefix ‘inter-’ is also connected with the phenomenon of multilingualism. This describes the coexistence of different languages in one and the same society, as well as their inter-existence in the form of language mixtures. Furthermore, lexis and reflections on liminality manifest themselves in a cross-disciplinary scientific ethos; interdisciplinarity has become the unchallenged custom of scientific work. The clear interest in hybridization and the crossing of thresholds is not least a response, both direct and indirect, to a changed world consciousness, a changed experience of the world. Globalization, all-encompassing commercialization, and the *New Media* are making the *Global Village* visibly smaller and narrower, as well as more complex and sometimes more complicated. Everything, even the most distant things, are continuously moving closer together—too close, as the ever more visible and louder eternal ‘yesterdays’ believe, who camouflage their reactionary ideas with the harmless-seeming vocabulary of ‘ethnopluralism.’

While the ‘inter-’ has only recently become an object of theoretical reflection within its historical background, its practice has determined world- and cultural history in unacknowledged ways from the very beginning. The best examples of this are the cultures of antiquity, such as those of Greece and Rome, which combined previous archives of knowledge and traditions of the entire Mediterranean region (as well as much besides) with their own and were only able to develop into

Hungarian Perspectives on the Western Canon László Bengi, Gábor Mezei, Ernő Kulcsár Szabó, 2017-05-11 In this collection Hungarian literature is read together with canonical works of the Western literary tradition The book studies the distinction between major and minor literatures showing that such parallel readings may highlight previously unknown components of the literary tradition The book does not hold traditional comparative methods based on verifiable mediations or transactions between national philologies and national literary narratives to be the exclusive standard of interpretation readings can concentrate on common surfaces and textual events instead This is what is meant by post comparative perspectives a term to indicate that the conditions of a comparative reading never precede the reading itself On this basis the present volume points at several possibilities of how a common ground between texts can be created especially because the chapters within it perform parallel readings in highly different ways **Sprachmedialität** Hajnalka Halász, Csongor Lőrincz, 2019-06-13 Die künftigen Herausforderungen der Kulturwissenschaften können nur vor dem Hintergrund der geschichtlichen Betrachtung ihrer Sprach und Medienbegriffe sichtbar und entsprechend formuliert werden Diese Betrachtung lässt jedoch die Gegenüberstellung von Sprache und Technik und damit eine Reihe von Oppositionen fraglich erscheinen Materialität vs Immaterialität Natur vs Kultur Leib vs Sprache Die Leitfrage des Bandes zielt daher auf Verflechtungen der Begriffe von Sprachlichkeit und Medialität die diese in einem differenzierteren Licht zeigen Hierbei wird der begriffsgeschichtliche analytische und systematische Bogen von antiken über romantische und moderne bis zu zeitgenössischen Sprachbegriffen und ihren medialen Indizes gespannt Mit Beiträgen von Georg Bertram Natalie Binczek Erhard Schüttgen u a Formen des Essayistischen Sarah Scheibenberger, 2023-05-22 Obgleich Walter Benjamin unbestritten als unerreichter Meister Adornos des Essays gilt hat die Forschung dieser scheinbar selbstevidenten Gattungszuschreibung bislang kaum Aufmerksamkeit geschenkt Dabei kreist Benjamins Schreiben und Denken in allen Werkphasen performativ wie

Life After Literature Zoltán Kulcsár-Szabó, Tamás Lénárt, Attila Simon, Roland Végső, 2020-04-24 This book offers innovative investigations of the concept of life in art and in theory It features essays that explore biopoetics and look at how insights from the natural sciences shape research within the humanities Since literature works of art and other cultural products decisively shape our ideas of what it means to be human the contributors to this volume examine the question of what literature literary and cultural criticism and philosophy contribute to the distinctions or non distinctions between human animal and vegetal existence Coverage combines different methodological aspects and addresses a wide field of comparative literary studies The essays consider the question

of language as a distinctive feature of human existence in a number of different contexts which range from Aristotle's works through several historical layers of the philosophical discourse on the origins of speech to modern anthropology and 20th century continental philosophy. In addition the volume includes concrete case studies to the current post humanism debate and provides literary art historian and philosophical perspectives on animal studies. The historical multiplicity of the various cultural representations of biological existence be that human animal vegetal or mixed might serve as a productive foundation for discussing the nature and forms of literature's critical contributions to our understanding of these fundamental categories. This volume opens up this subject to students and scholars of literature art philosophy ethics and cultural studies and to anyone with a theoretical interest in the questions of life.

Zeugnissen der Literatur Csongor Lőrincz, 2016-04-15 Wie lässt sich Literatur als eine Unterart der Zeugnishaftigkeit begreifen wie ist das Zeugnis konstitutiv auf die Fiktion angewiesen Csongor Lőrincz widmet sich dem Zusammenhang von Zeugnishaftigkeit und Literatur grundlegend unter sprach text und lesenstheoretischer Perspektive Systematisch und zugleich auch komparativ untersucht er anhand literarischer Beispiele mit prägnanten textuellen und referentiellen Merkmalen z.B. Insularità Luca Vargiu, 2021-01-28T00:00:00+01:00 A partire dai primi anni del XX secolo anzitutto in area germanofona e poi in Italia e in altri contesti all'interno delle concezioni che hanno insistito sull'autonomia come carattere distintivo dell'arte si è fatto ricorso a più riprese alla metafora dell'insularità. Le particolarità di un'isola, l'essere separata dalle altre terre e incorniciata dal mare, l'avere contorni ben definiti, il distinguersi per particolari elementi autoctoni sono state adattate all'opera d'arte per rivendicarne l'autosufficienza semantica e la conseguente esigenza di essere compresa e interpretata secondo principi a essa immanenti. Di qui l'impiego di vocaboli quali il tedesco Inselhaftigkeit e il suo corrispettivo italiano insularità. Alla storia di questi termini in ambito estetico e storico artistico che coinvolge personalità come Simmel Lukács Dessoir Ortega y Gasset Schöller Croce Betti Pareyson e altri studiosi sono dedicate le pagine di questo volumetto.
