Une Cone F R Orgel Vibraphon:

Catalog of Copyright Entries Library of Congress. Copyright Office, 1971 The Musician's Guide to Acoustics
Murray Campbell, Clive Greated, 1994-04-28 *The Composer's Voice* Edward T. Cone, 2023-04-28 Music we are often told is a language But if music is a language then who is speaking The Composer's Voice tries to answer this obvious but infrequently raised question In so doing it puts forward a dramatistic theory of musical expression based on the view that every composition is a symbolic utterance involving a fundamental act of impersonation The voice we hear is not that of the composer himself but of a persona a musical projection of his consciousness that experiences and communicates the events of the composition Developing his argument by reference to numerous examples in a wide variety of styles Mr Cone moves from song and opera through program music to absolute instrumental music In particular he discusses the implications of his theory for performance According to the dramatistic view not only every singer but every instrumentalist as well becomes a kind of actor assuming a role that functions both autonomously and as a component of the total musical persona In his analysis of the problems inherent in this dual nature of the performer's job Mr Cone offers guidance that will prove of practical value to every performing musician He has much to say to the listener as well He recommends an imaginative participation in the component roles of musical work leading to a sense of identification with the persona itself as the path to complete musical understanding And this approach is shown to be relevant to a number of specialized kinds of listening as well those applicable to analysis historical scholarship and criticism The dance too is shown to depend on similar concepts Although *The Composer's Voice* involves an investigation of how music functions as a form of communication it is not primarily concerned with determine or interpreting the content of the message A final chapter however puts forward a tentative explanation of musical meaning based on an interpretation of the art as a coalescence of symbolic utterance and symbolic gesture While not essential to the main lines of the argument it suggests interesting possibilities for further development of the dramatistic theory This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 **Schwann opus** ,1998 *Catalog of Copyright Entries* Library of Congress. Copyright Office, 1970-07 **Catalog of Copyright Entries. Fourth Series** Library of Congress. Copyright Office, 1970 *World-radio; the BBC Foreign Programme Journal* ,1937 **The Billboard** ,1932
Billboard Music Week ,1932
