Unesco Southeast Asia Comparative Perspective:

UNESCO in Southeast Asia Victor T. King, 2016 **UNESCO in Southeast Asia** Victor T. King, Universiti Brunei Darussalam. Institute of Asian Studies, 2013 World Heritage and Tourism Bailey Ashton Adie, 2019-05-16 This book provides a comprehensive discussion of the phenomenon of World Heritage tourism through a critical global perspective that encompasses both supply and demand Individual chapters critically engage with four main topics crucial to this subject area A chapter on visitors defines the World Heritage tourist segment highlighting on site behavior and visitor needs Building on this a marketing chapter questions the functionality of the World Heritage brand as a tourist attractor and instead argues that tourist growth is due to effective marketing following World Heritage inscription The third chapter presents a holistic management framework centred on planning place and people while the concluding chapter situates World Heritage tourism in a global context discussing threats such as climate change International case studies from a wide variety of both natural and cultural sites provide a representative discussion of the topic across varying geographical political and cultural contexts This will be of great interest to upper level students researchers and academics in the fields of tourism heritage studies and geography as well as practitioners in these fields who wish to better understand the crucial interplay of these areas

Asia's Heritage Trend Jongil Kim, Minjae Zoh, 2023-09-20 Kim and Zoh bring together a team of contributors to analyse the role of heritage studies across Asia and its impact on Asia and its constituent countries Is there such a thing as Asian heritage Is it more helpful to understand Asia as a single unit or as a set of sub regions What can we learn about Asia s present through its archaeology and heritage Covering a wide range of countries including Afghanistan Cambodia China Korea Laos Myanmar Japan Taiwan Thailand and Vietnam the contributors to this book address these key questions In doing so they look at a number of critical issues such as UNESCO World Heritage status cultural propaganda cultural erasure and difficult heritage While addressing Asia s past they also observe key issues within present day Asia further providing conceptual and practical insights into the methods that are being applied to the study of Asia s heritage today A valuable resource for scholars and students of Asian history and culture archaeology heritage studies anthropology and religious studies

Decolonising Heritage in South Asia Himanshu Prabha Ray, 2018-09-05 This volume cross examines the stability of heritage as a concept It interrogates the past which materialises through multi layered narratives on monuments and other objects that sustain cultural diversity It seeks to understand how interpretations of monuments as texts are affected at the local level of experience even as institutions such as UNESCO work to globalise and fix constructs of stable and universal heritage Shifting away from a largely Eurocentric concept associated with architecture and monumental archaeology this book reassesses how local and regional heritage needs to be balanced with the global and transnational It argues that material objects and monuments are not static embodiments of culture but are rather a medium through which identity power and society are produced and reproduced This is especially relevant in South and Southeast Asian contexts

where debates over heritage often have local regional and national political implications and consequences Reevaluating how traditional valuation of monuments and cultural landscapes could help aid sustainability and long term preservation of the heritage this book will be useful for scholars and researchers of South and Southeast Asian history heritage studies archaeology cultural studies tourism studies and political history as well

World Heritage and Urban Politics in Melaka, Malaysia Pierpaolo Giosa, 2025-10-01 Already celebrated as a busy entrep t and the most glorious of the Malay kingdoms of the past Melaka has been on the UNESCO World Heritage List together with George Town since 2008 on the strength of its multi ethnic and multi religious urban fabric Yet contrary to the expectations of heritage experts and aficionados the global mission of safeguarding cultural heritages has become a tumultuous issue on the ground In World Heritage and Urban Politics in Melaka Malaysia A Cityscape below the Winds how the World Heritage label has been and continue to be used by different actors such as international organizations nation states and society at large to generate new economic revenues as well as to attract tourists and investments for large scale real estate development projects is analyzed revealing the complex and often contradictory stories behind heritage designations in urban milieus

Architectural Encounters in Asia Pacific Amanda Achmadi, Paul Walker, Soon-Tzu Speechley, 2024-09-19 Architectural Encounters in Asia Pacific explores the architecture of colonial trade and industry revealing a complex network of transnational connections across the built heritage of the world s most dispersed and culturally diverse region A wide ranging collection of case studies uncover these forgotten connections drawing together stories of migratory architects imperial commodities and indentured labour From Iran to Tasmania Japan to Java and Imperial China to the Pacific Islands the chapters reveal how remnants of colonial trade and industry shed light on the many multi faceted mobilities of the imperial age and their enduring legacy in the postcolonial built environments of Australasia the Pacific Southeast Asia and beyond The chapters also reveal deep strands of cultural influences and material imprints long neglected by national histories of architecture and showcase new methodologies to analyse the interconnectivities and bordering practices which are shaping our experiences of the 21st century With almost every chapter arising from new archival sources this richly interdisciplinary volume brings together the work of architectural historians geographers and heritage practitioners to provide a new understanding of the rich and contested history of this region

World Heritage and Human Rights Peter Bille Larsen, 2017-11-20 The World Heritage community is currently adopting policies to mainstream human rights as part of a wider sustainability agenda This interdisciplinary book combines a state of the art review of World Heritage policy and practice at the global level with ethnographic case studies from the Asia Pacific region by leading scholars in the field By joining legal reviews anthropology and practitioner experience through in depth case studies it shows the diversity of human rights issues in both natural and cultural heritage sites From site designation to their conservation and management the book explores the various rights issues and analyses the diverse social cultural and legal challenges and responses at both regional and global level Detailed

case studies are included from Australia Cambodia China Malaysia Myanmar Nepal the Philippines and Vietnam The book will appeal to both natural and cultural heritage professionals and human rights and heritage scholars and will serve as a useful compendium for courses use allowing students to compare contrast and contextualize different contexts

Borneo and Sulawesi Ooi Keat Gin,2019-11-28 This book presents a great deal of new research findings on the history of Borneo the history of Sulawesi and the interrelationship between the two islands Some specific chapters focus on empires and colonizers including the activities of James Brooke in Sulawesi of Chinese mining communities in Borneo and of the quisling issue in immediate post war Sarawak Other chapters consider indigenous peoples and how different regimes have handled them The book is published in honour of Victor T King a leading scholar in the field of Southeast Asian studies and a final chapter discusses his contribution to scholarship in particular his views on how area studies should be approached and the implications of this for future research
