Zoontologies The Question Of The Animal:

Zoontologies Cary Wolfe, 2003-01-01 Those nonhuman beings called animals pose philosophical and ethical questions that go to the root not just of what we think but of who we are Their presence asks what happens when the other can no longer safely be assumed to be human This collection offers a set of incitements and coordinates for exploring how these issues have been represented in contemporary culture and theory from Jurassic Park and the horse whisperer Monty Roberts to the work of artists such as Joseph Beuys and William Wegman from foundational texts on the animal in the works of Heidegger and Freud to the postmodern rethinking of ethics and animals in figures such as Singer Deleuze Lyotard and Levinas from the New York Times investigation of a North Carolina slaughterhouse to the first appearance in any language of Jacques Derrida s recent detailed critique of Lacan s rendering of the human animal divide

Phenomenology and the Non-Human Animal Corinne Painter, Christian Lotz, 2007-07-26 The question of the relation between human and non human animals in theoretical ethical and political regards has become a prominent topic within the philosophical debates of the last two decades This volume explores in substantial ways how phenomenology can contribute to these debates It offers specific insights into the description and interpretation of the experience of the non human animal the relation between phenomenology and anthropology the relation between phenomenology and psychology as well as ethical considerations

Animal Subjects Jodey Castricano, 2008-05-20 Although Cultural Studies has directed sustained attacks against sexism and racism the question of the animal has lagged behind developments in broader society with regard to animal suffering in factory farming product testing and laboratory experimentation as well in zoos rodeos circuses and public aquariums The contributors to *Animal Subjects* are scholars and writers from diverse perspectives whose work calls into question the boundaries that divide the animal kingdom from humanity focusing on the medical biological cultural philosophical and ethical concerns between non human animals and ourselves The first of its kind to feature the work of Canadian scholars and writers in this emergent field this collection aims to include the non human animal question as part of the ethical purview of Cultural Studies and to explore the question in interdisciplinary terms

Poetry and Prose Małgorzata Poks,2023-07-28 Decolonial Animal Ethics in Linda Hogan s Poetry and Prose is a plea for an urgent redefinition of human animal relations on the basis of a nonanthropocentric animal ethic embraced by premodern Indigenous communities but depreciated by coloniality Without decolonial revisions of animal subjectivity and personhood the animal genocide can never truly stop It is also a close reading of Linda Hogan s poetry and prose in search of the coordinates of a decolonized animal ethic which would foster interspecies becoming Having defined the recurring tropes motifs and attitudes that underpin Hogan s treatment of nonhuman animals the book moves on to trace the way she depicts the human animal bond especially in the face of the destructive anthropogenic impact The major questions guiding the analysis of Hogan s oeuvre are as follows who are the animals we share our earthly lives with what can they teach us about ourselves how can animals guide us toward more sustainable futures and what are the conditions of possibility of an interspecies human animal thriving This book will be of interest to scholars and students of Indigenous Studies Decolonial Studies Animal Studies Ecocriticism Anthropocene Studies as well as readers of Linda Hogan s literary works **The**

Political Animal Chris Danta,Dimitris Vardoulakis,2010-09-01 In the variegated history of the philosophical definitions of man one has survived since it has been given the status of the self evident The definition in question comes from Aristotle s Politics the human is a political animal 1253a3 There is something indisputable about this characterization humans are indeed the most social of animals they are denizens of the polis with its institutions and laws its rulers judges and generals It would be difficult to contend that any other animal has recourse to the political as much as the human Aristotle s Politics need not be surrendered to the strictures of humanism It remains amenable to the new schema for the political animal that we are sketching here Each article collected in this issue responds in its own way and by establishing its own protocols to the exigency of the animal as it was formulated in Aristotle s Politics Each article is an act of response a moment of interruption

Animal Ethics and Philosophy Elisa Aaltola,John Hadley,2014-11-24 Debate in animal ethics needs reenergizing To date philosophers have focused on a relatively limited number of specific themes whilst leaving metaphilosophical issues that require urgent attention largely unexamined This timely collection of essays brings together new theory and critical perspectives on key topics in animal ethics foregrounding questions relating to moral status moral epistemology and moral psychology Is an individualistic approach based upon capacities the best way to ground the moral status of non human

animals or should philosophers pursue relational perspectives What does it mean to know animals and speak for them What is the role of emotions such as disgust empathy and love in animal ethics and how does emotion inform the rationalism inherent in analytic animal ethics theory The collection aims to broaden the scope of animal ethics rendering it more inclusive of important contemporary philosophical themes and pushing the discipline in new directions

The Media, Animal Conservation and Environmental Education John Blewitt, 2013-10-31 Natural History filmmaking has a long history but the generic boundaries between it and environmental and conservation filmmaking are blurred Nature environment and animal imagery has been a mainstay of television campaigning organisations and conservation bodies from Greenpeace to the Sierra Club with vibrant images being used effectively on posters leaflets and postcards and in coffee table books media releases short films and viral emails to educate and inform the general public However critics suggest that wildlife film and photography frequently convey a false image of the state of the world s flora and fauna The environmental

educator David Orr once remarked that all education is environmental education and it is possible to see all image based communication in the same way The Media Animal Conservation and Environmental Education has contributions from filmmakers photographers researchers and academics from across the globe It explores the various ways in which film television and video are and can be used by conservationists and educators to encourage both a greater awareness of environmental and conservation issues and practical action designed to help endangered species This book is based on a special issue of the journal Environmental Education Research Edinburgh Companion to Animal Studies Lynn

Turner,2017-11-22 The first critical appraisal of Chabrol s A uvre as a whole from 1958 to 2009 **Humans and Other Animals in Eighteenth-Century British Culture** Frank Palmeri,2020-07-09 Combining historical and interpretive work this collection examines changing perceptions of and relations between human and nonhuman animals in Britain over the long eighteenth century Persistent questions concern modes of representing animals and animal human hybrids as well as the ethical issues raised by the human uses of other animals From the animal men of Thomas Rowlandson to the part animal part human creature of Victor Frankenstein hybridity serves less as a metaphor than as a metonym for the intersections of humans and other animals The contributors address such recurring questions as the implications of the Enlightenment project of naming and classifying animals the equating of non European races and nonhuman animals in early ethnographic texts and the desire to distinguish the purely human from the entirely nonhuman animal Gulliver s Travels and works by Mary and Percy Shelley emerge as key texts for this study The volume will be of interest to scholars and students who work in animal colonial gender and cultural studies and will appeal to general readers concerned with the representation of animals and their treatment by humans Animal Encounters Manuela S. Rossini,Tom Tyler,2009-02-28 The fast growing field of Animal Studies is a varied and much contested domain Engagement with animals has encouraged both collaboration and conflict between researchers within the arts humanities and social sciences Animal Encounters comprises a series of meetings not only between diverse beasts but also between distinct disciplinary methods theoretical approaches and ethical positions The essays here collected come together from literary and cultural studies sociology and anthropology ecocriticism and art history philosophy and feminism science and technology studies history and posthumanism to study that most familiar and most foreign of creatures the animal These encounters between leading practitioners in the field highlight the promise and potential of interspecies exchange and mutual provocation **Anarchism and Animal Liberation** Anthony J. Nocella II,Richard J. White,Erika Cudworth,2015-07-11 Building upon anarchist critiques of racism sexism ableism and classism this collection of new essays melds anarchism with animal advocacy in arguing that speciesism is an ideological and social norm rooted in hierarchy and inequality Rising from the anarchist influenced Occupy Movement this book brings together international scholars and activists who challenge us all to look more critically into the causes of speciesism and to take a broader view of peace social justice and the nature of oppression Animal advocates have long argued that speciesism

will end if the humanity adopts a vegan ethic This concept is developed into the argument that the vegan ethic has the most promise if it is also anti capitalist and against all forms of domination **An Ethics Beyond** Kevin Richard

Kaiser,2019-07-22 This study examines the fiction of contemporary American author George Saunders in terms of how it presents situations applicable to the chief notions of posthumanist ethics and how these conceptions concern nonhuman animals which are prevalent in his writing Posthumanist ethics can help us understand what is at play in Saunders s fiction Meanwhile his texts can help us understand what is at stake in posthumanist ethics This interdisciplinary project may be beneficial both to conceiving new notions of ethics that are more inclusive and more implicitly to understanding the relevance of Saunders s fiction to the current American sociocultural climate Ecocritical Theory Axel Goodbody,Kate Rigby,2011-09-13 One of the more frequently lodged serious and justifiable complaints about ecocritical work is that it is insufficiently theorized Ecocritical Theory puts such claims decisively to rest by offering readers a comprehensive collection of sophisticated but accessible essays that productively investigate the relationship between European theory and ecocritique With its international roster of contributors and subjects it also militates against the parochialism of ecocritics who work within the limited canon of the American West Bringing together approaches and orientations based on the work of European philosophers and cultural theorists this volume is designed to open new pathways for ecocritical theory and practice in the twenty first century
