The Rupture Andrew Small, 2022-11-17 This is the inside story of a revolution in China policy from Washington to Brussels Berlin to New Delhi The Rupture explains how many of the Western politicians thinkers and business leaders closest to Beijing have become its sharpest opponents how the COVID 19 pandemic dramatically accelerated this collective rethink and why 5G represents the first test case as to whether China may win the battle for the future Noted China expert Andrew Small offers a kaleidoscopic picture of a rivalry ranging far beyond great power politics He traces US efforts to recast relations with old allies as Washington realises that it cannot confront China alone charting Europe s growing role in the

technological and economic contest and Beijing's attempts to build a coalition of its own from Moscow to Taliban-run Kabul. As competition grows between systems the Western model itself is transforming for China's rise changes the balance of ideas as much as the balance of power. NASA Technical Note United States. National Aeronautics and Space Administration, 1959 **The Digital NBA** Steven Secular, 2023-06-20 The National Basketball Association reaches a global audience via a multiplatform strategy that leverages its uncanny ability to connect fans to all things NBA. Steven Secular brings readers inside the league's global operations and traces the history of the NBA's approach to sports media from its 1980s embrace of cable through the streaming revolution of the twenty-first century. As fans around the world stream games and other league content, NBA teams incorporate foreign languages and cultures into broadcasts to boost their product's appeal to audiences in Brazil, China, and beyond. Secular's analysis reveals how the NBA continues to transform itself into a wildly successful media producer and distributor more akin to a streaming studio than the sports leagues of old, even as its media partners and sponsors erase any notion of sports as a civic good. A timely look at a dynamic media landscape. **The Digital NBA** shows how the games we love became content first and sport a distant second. **Taschenbuch für reisende durch Deutschland und die angrenzenden länder ...** Julius Bernhard Engelmann, 1818 **IXe [i.e. Neuvième] Congrès international de mécanique appliquée**, 1957
