Zulu Warriors The Battle For The South African Frontier:

Zulu Warriors John Laband, 2014-05-27 Toward the end of the nineteenth century the British embarked on a concerted series of campaigns in South Africa. Within three years they waged five wars against African states with the intent of destroying their military might and political independence and unifying southern Africa under imperial control. This is the first work to tell the story of this cluster of conflicts as a single whole and to narrate the experiences of the militarily outmatched African societies. Deftly fusing the widely differing European and African perspectives on events, John Laband details the fateful decisions of individual leaders and generals and explores why many Africans chose to join the British and colonial forces. The Xhosa, Zulu, and other African military cultures are brought to vivid life, showing how varying notions of warrior honor and manliness influenced the outcomes for African fighting men and their societies. *The Eight Zulu Kings* John Laband, 2018-08-17 In *Eight Zulu Kings*, well-respected and widely published historian John Laband examines the reigns of the eight Zulu kings from 1816 to the present. Starting with King Shaka, the renowned founder of the Zulu kingdom, he charts the lives of the kings Dingane, Mpande, Cetshwayo, Dinuzulu, Solomon, and Cyprian to today's King Goodwill Zwelithini, whose role is little more than ceremonial. In the course of this investigation, Laband places the Zulu monarchy in the context of African kingship and tracks and analyses the trajectory of the Zulu kings from independent and powerful pre-colonial African rulers to largely powerless traditionalist figures in post-apartheid South Africa. **The Buried Man** Stephen Coan, 2025-03-06 H. Rider Haggard (1856-1925), author of *King Solomon's Mines*, *Allan Quatermain*, and *She*, was no stranger to the continent where his bestsellers were set. He lived in southern Africa from 1875 to 1881, a period that witnessed Britain's attempted confederation of the sub-continent, the Anglo-Zulu War of 1879, and the final subjugation of its indigenous peoples. In this new biography, the South African aspect of Haggard's life is explored in hitherto unrecorded detail. The success of *King Solomon's Mines* saw him relinquish a legal career to write full-time; he also became a respected agricultural expert and social commentator, receiving a knighthood for his public service. Haggard wrote over seventy books, fiction and non-fiction. His African adventure stories feature strong black characters, and the majority of his novels assertive female ones, not least *She*. Haggard's unwitting expression of the Victorian sub-conscious attracted the interest of both Freud and Jung. Haunted by a lost love, the tragic death of his only son, and frequent bouts of depression, he endlessly probed the conundrums of life and death. Containing much new material, this biography explores Haggard's personal and public life to resurrect the writer whom Graham Greene, an admirer, called 'the buried man'. **Debating African Philosophy** George Hull, 2018-11-21 In African countries, there has been a surge of intellectual interest in foregrounding ideas and thinkers of African origin in philosophy, as in other disciplines that have been unjustly ignored or marginalized. African scholars have demonstrated that pre-colonial African cultures generated ideas and arguments which were at once truly philosophical and distinctively African, and several contemporary African thinkers are now established figures in the philosophical mainstream. Yet despite the universality of its

themes relevant contributions from African philosophy have rarely permeated global philosophical debates Critical intellectual excavation has also tended to prioritize precolonial thought overlooking more recent sources of home grown philosophical thinking such as Africa s intellectually rich liberation movements This book demonstrates the potential for constructive interchange between currents of thought from African philosophy and other intellectual currents within philosophy Chapters authored by leading and emerging scholars recover philosophical thinkers and currents of ideas within Africa and about Africa bringing them into dialogue with contemporary mainstream philosophy foreground the relevance of African theorizing to contemporary debates in epistemology philosophy of language moral political philosophy philosophy of race environmental ethics and the metaphysics of disability make new interventions within on going debates in African philosophy consider ways in which philosophy can become epistemically inclusive interrogating the contemporary call for decolonization of philosophy Showing how foregrounding Africa its ideas thinkers and problems can help with the project of renewing and improving the discipline of philosophy worldwide this book will stimulate and challenge everyone with an interest in philosophy and is essential reading for upper level undergraduate students postgraduate students and scholars of African and Africana philosophy

The Dust Rose Like Smoke James O. Gump, 2016 In 1876 Lakota and Cheyenne warriors annihilated Custer s Seventh Cavalry at Little Bighorn Three years later and half a world away a British force was wiped out by Zulu warriors at Isandhlwana in South Africa In both cases the total defeat of regular army troops by forces regarded as undisciplined barbarian tribesmen stunned an imperial nation Although the similarities between the two frontier encounters have long been noted James O Gump s book *The Dust Rose Like Smoke* is the first to scrutinize them in a comparative context This study issues a challenge to American exceptionalism he writes Viewing both episodes as part of a global pattern of intensified conflict in the latter 1800s resulting from Western domination over a vast portion of the globe Gump s comparative study persuasively traces the origins and aftermath of both episodes He examines the complicated ways in which Lakota and Zulu leadership sought to protect indigenous interests while Western leadership calculated their subjugation to imperial authority The second edition includes a new preface from the author revised and expanded chapters and an interview with Leonard Little Finger great great grandson of Ghost Dance leader Big Foot whose story connects Wounded Knee and Nelson Mandela

The Politics of Media Scarcity Greg Elmer, Stephen J. Neville, 2024-01-31 This book questions the predominance of media abundance as a guiding concept for contemporary mediated politics The authors argue that media abundance is not a universal condition and that certain individuals communities and even nations can more accurately be referred to as media scarce where access to media technologies and content is limited highly controlled or surveilled Through case studies that focus on guerilla militants incarcerated Indigenous people and cold war era infrastructure including Soviet closed or secret cities and Canadian nuclear bunkers the book s chapters interrogate how the once media scarce later speak to and can be heard by the predominant abundant media culture Drawing from several art

projects and diverse cultural sites the book highlights how media scarce communities negotiate and otherwise narrate their place in the world their past experiences and lives and escape from subjugation To better understand media scarce politics the book asks how and when communities become by accident or force by choice or necessity media scarce This innovative and insightful text will appeal to students and scholars around the world working in the areas of media and politics art and politics visual studies surveillance studies and communication studies

Land Warfare since 1860 Jeremy

Black,2018-08-10 This cogent global history traces the evolution of land warfare since the start of the Crimean War Jeremy Black argues that although it has always been critical to the outcome of conflicts worldwide land warfare has become undervalued in comparison to air power in modern military thinking In practice land warfare was crucial during the American Civil War the two world wars and the conflicts of the Cold War Indeed the revival of great power confrontation has led to an urgent need to re examine the entire contemporary period Looking to the future the book shows convincingly that we must consider the nature of the military for non state actors as well for as the major powers Ultimately Black contends there is no substitute for the control over territory provided by boots on the ground

A British Profession of Arms Ian F.

W. Beckett,2018-10-25 You offer yourself to be slain General Sir John Hackett once observed remarking on the military profession This is the essence of being a soldier For this reason as much as any other the British army has invariably been seen as standing apart from other professions and sometimes from society as a whole A British Profession of Arms effectively counters this view In this definitive study of the late Victorian army distinguished scholar Ian F W Beckett finds that the British soldier like any other professional was motivated by considerations of material reward and career advancement Within the context of debates about both the evolution of Victorian professions and the nature of military professionalism Beckett considers the late Victorian officer corps as a case study for weighing distinctions between the British soldier and his civilian counterparts Beckett examines the role of personality politics and patronage in the selection and promotion of officers He looks too at the internal and external influences that extended from the press and public opinion to the rivalry of the so called rings of adherents of major figures such as Garnet Wolseley and Frederick Roberts In particular he considers these processes at play in high command in the Second Afghan War 1878 81 the Anglo Zulu War 1879 and the South African War 1899 1902 Based on more than thirty years of research into surviving official semiofficial and private correspondence Beckett s work offers an intimate and occasionally amusing picture of what might affect an officer s career wealth wives and family status promotion boards and strategic preferences performance in the field and diplomatic outcomes It is a remarkable depiction of the British profession of arms unparalleled in breadth depth and detail

New Directions in

African Military History Timothy J. Stapleton,2025-06-02 New Directions in African Military History takes a thematic approach to the history of war and military structures in Africa and highlights the under researched areas African Military History represents a relatively new and fast growing sub field bridging the previously wide gap between the well established

genres of African History and Military History Based on a synthesis of existing literature and aimed at a wide readership this book adopts a broad temporal range and uses select examples to highlight a series of points to cover the pre colonial to post colonial eras and offer examples from various parts of the continent This volume evaluates controversial academic debates examining evidence research methods approaches and changing historiographical contexts as well as pointing to potential new areas of research It comprises seven thematic chapters on ways of war weapons technology navies air power battles women combatants and genocide in African history This volume will be of value to students and scholars alike interested in Modern History Military History and African History **The Routledge History of Global War and Society** Matthew S. Muehlbauer, David J. Ulbrich, 2018-02-21 The Routledge History of Global War and Society offers a sweeping introduction to the most significant research on the causes experiences and impacts of war throughout history This collection of twenty seven essays by leading historians demonstrates how war and society studies have dramatically expanded the chronological geographic and thematic breadth of the field of military history Each chapter addresses the ways in which recent scholarship has integrated cultural ethical environmental medical and ideological factors to explain both conventional conflicts and genocide terrorism and other forms of mass violence The broad scope of the collection makes it the perfect primer for scholars and students seeking to understand the complex interactions of warfare and those affecting and affected by conflict

From Memory to Marble Elizabeth Rankin, Rolf Michael Schneider, 2020-09-07 For the first time the 92 metre frieze of the Voortrekker Monument in Pretoria one of the largest historical narratives in marble has been made the subject of a book The pictorial narrative of the Boer pioneers who conquered South Africa's interior during the Great Trek 1835-52 represents a crucial period of South Africa's past Conceptualising the frieze both reflected on and contributed to the country's socio political debates in the 1930s and 1940s when it was made The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid as well as its place in post apartheid heritage The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument Based on unpublished documents drawings and models these processes are unfolded step by step from the earliest discussions of the purpose and content of the frieze through all the stages of its design to its shipping to post war Italy to be copied into marble from Monte Altissimo up to its final installation in the Monument The book examines how visual representation transforms historical memory in what it chooses to recount and the forms in which it is depicted The second volume expands on the first by investigating each of the twenty seven scenes of the frieze in depth providing new insights into not only the frieze but also South Africa's history Fran ois van Schalkwyk of African Minds co publisher with De Gruyter writes From Memory to Marble is an open access monograph in the true sense of the word Both volumes of the digital version of the book are available in full and free of charge from the date of publication This approach to publishing democratises access to the latest scholarly publications across the globe At the same time a book such as From Memory to Marble with its unique and exquisite

photographs of the frieze as well as its wealth of reproduced archival materials demands reception of a more traditional kind that is on the printed page For this reason the book is likewise available in print as two separate volumes The printed and digital books should not be seen as separate incarnations each brings its own advantages working together to extend the reach and utility of From Memory to Marble to a range of interested readers For more material you can browse at Stanford's database Voortrekker Monumentality a digital archive *Before Photography* Kirsten Belgum, Vance Byrd, John D.

Benjamin, 2021-03-08 Recent years have seen a wealth of new scholarship on the history of photography cinema digital media and video games yet less attention has been devoted to earlier forms of visual culture The nineteenth century witnessed a dramatic proliferation of new technologies devices and print processes which provided growing audiences with access to more visual material than ever before This volume brings together the best aspects of interdisciplinary scholarship to enhance our understanding of the production dissemination and consumption of visual media prior to the predominance of photographic reproduction By setting these examples against the backdrop of demographic educational political commercial scientific and industrial shifts in Central Europe these essays reveal the diverse ways that innovation in visual culture affected literature philosophy journalism the history of perception exhibition culture and the representation of nature and human life in both print and material culture in local national transnational and global contexts Globalizing

Confederation explores the ideas and events that captured the imagination of people around the world **Ruling the World** Alan Lester, Kate Boehme, Peter Mitchell, 2021-01-07 Ruling the World tells the story of how the largest and most diverse empire in history was governed everywhere and all at once Focusing on some of the most tumultuous years of Queen Victoria's reign Alan Lester Kate Boehme and Peter Mitchell adopt an entirely new perspective to explain how the men in charge of the British Empire sought to manage simultaneous events across the globe Using case studies including Canada South Africa the Caribbean Australia India and Afghanistan they reveal how the empire represented a complex series of trade offs between Parliament's colonial governors colonists and colonised peoples agendas They also highlight the compromises that these men made as they adapted their ideals of freedom civilization and liberalism to the realities of an empire imposed through violence and governed in the interests of Britons **Military Strategy** Jeremy Black, 2020-04-07 A global account

of military strategy which examines the practices rather than the theories of the most significant military figures of the past 400 years Strategy has existed as long as there has been organised conflict In this new account Jeremy Black explores the ever changing relationship between purpose force implementation and effectiveness in military strategy and its dramatic impact on the development of the global power system Taking a total view of strategy Black looks at leading powers notably the United States China Britain and Russia in the wider context of their competition and their domestic and international

strengths Ranging from France's ancien régime and Britain's empire building to present day conflicts in the Middle East Black devotes particular attention to the strategic practice and decisions of the Kangxi Emperor Clausewitz Napoleon and Hitler

The Scientific Imagination in South Africa William Beinart, Saul Dubow, 2021-05-20 South Africa provides a unique vantage point from which to examine the scientific imagination over the last three centuries when its position on the African continent made it a staging post for Portuguese Dutch and British colonialism In the eighteenth century South African plants and animals caught the imagination of visiting Europeans In the nineteenth century science became central to imperial conquest devastating wars agricultural intensification and the exploitation of rich mineral resources Scientific work both facilitated and offered alternatives to the imposition of segregation and apartheid in the twentieth century William Beinart and Saul Dubow offer an innovative exploration of science and technology in this complex divided society Bridging a range of disciplines from astronomy to zoology they demonstrate how scientific knowledge shaped South Africa's peculiar path to modernity In so doing they examine the work of remarkable individual scientists and institutions as well as the contributions of leading politicians from Jan Smuts to Thabo Mbeki

The Boer Invasion of The Zulu Kingdom 1837-1840 John Laband, 2023-02-16 The battle of Blood River or Ncome on 16 December 1838 has long been regarded as a critical moment in the history of South Africa It is the culminating victory by the land hungry Boers who had migrated out of the British ruled Cape and invaded the Zulu kingdom in 1837 Many Afrikaners long acclaimed their triumph as the God given justification for their subsequent dominion over Africans By contrast Africans celebrate the war with pride for its significance in their valiant struggle against colonial aggression In this account John Laband deals as even handedly as possible with the warring sides in the conflict In contrasting their military systems he explains both victory and defeat in the many battles that marked the war Crucially he also presents the less familiar Zulu perspective explaining the political motivation strategic military objectives and fissures in the royal house This is the first book in English that engages with the war between the Boers and the Zulu in its entire context or takes the Zulu evidence into proper account

Encyclopedia of African Colonial Conflicts Timothy J. Stapleton, 2016-11-07 Two volumes introduce the history of colonial wars in Africa and illustrate why African countries like the Democratic Republic of Congo Nigeria Somalia and Sudan continue to experience ethnic political and religious violence in the early 21st century This sweeping study examines the wars of colonial conquest fought in Africa during the 19th and early 20th centuries From Britain's efforts to wrest control of the Sudan from military leader Muhammad Ahmad al Mahdi to Italy's decisive defeat at the Battle of Adowa in Ethiopia to Leopold II's brutal reign over the Belgian Congo the work surveys the devastation reaped upon the continent by colonization and illustrates how its combative influence continues to resonate in Africa today Written by scholars in the fields of history and politics this complete reference includes entries on wars campaigns rebellions battles leaders and organizations The work delves into key historical periods including the Scramble for Africa ca 1880 to 1910 early European colonial wars in Africa such as the Dutch in the Cape and the Portuguese in Angola

and Mozambique and African rebellions against the early colonial state in the 1890s and early 1900s Entries feature prominent events and personalities as well as lesser known occurrences and players

An Age of Hubris Timothy Keegan,2023-07-05 An Age of Hubris is the first comprehensive overview of the impact of missionary enterprise on the Xhosa chiefdoms of South Africa in the first half of the nineteenth century chronicling a world punctuated by war and millenarian eruptions and the steady encroachment of settler land hunger and colonial hegemony With it Timothy Keegan contributes new approaches to Xhosa history and most important a new dimension to the much trodden but still vital topic of the impact cultural social and political of missionary activity among African peoples The most significant historical works on the Xhosa have either become dated foreground imperial colonial history or remain heavily theoretical in nature In contrast Keegan draws fruitfully on the rich Africanist comparative and anthropological literature now available as well as extant primary sources to foreground the Xhosa themselves in this crucial work In so doing he highlights the ways in which Africans utilized new ideas resources and practices to make sense of react to and resist the forces of colonial dispossession confronting them emphasizing missionary frustration and African agency
