The Startup Owner's Manual Steve

Blank, Bob Dorf, 2020-03-17 More than 100 000 entrepreneurs rely on this book The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book and it's taught at Stanford Berkeley Columbia and more than 100 other leading universities worldwide Why The Startup Owner's Manual guides you step by step as you put the Customer Development process to work This method was created by renowned Silicon Valley startup expert Steve Blank co creator with Eric Ries of the Lean Startup movement and tested and refined by him for more than a decade This 608 page how to guide includes over 100 charts graphs and diagrams plus 77 valuable checklists that guide you as you drive your company toward profitability It will help you Avoid the 9 deadly sins that destroy startups chances for success Use the Customer Development method to bring your business idea to life Incorporate the Business Model Canvas as the organizing principle for startup hypotheses Identify your customers and determine how to get keep and grow customers profitably Compute how you'll drive your startup to repeatable scalable profits The Startup Owners Manual was originally published by K S Ranch Publishing Inc and is now available from Wiley The cover design and content are the same as the prior release and should not be considered a new or updated product *Motorola Xoom: The Missing Manual* Preston Gralla, 2011-05-23 Motorola Xoom is the first tablet to rival the iPad and no wonder with all of the great features packed into this device But learning how to use everything can be tricky and Xoom doesn't come with a printed guide That's where this Missing Manual comes in Gadget expert Preston Gralla helps you master your Xoom with step by step instructions and clear explanations As with all Missing Manuals this book offers refreshing jargon free prose and informative illustrations Use your Xoom as an e book reader music player camcorder and phone Keep in touch with email video and text chat and social networking apps Get the hottest Android apps and games on the market Do some work with Google Docs Microsoft Office or by connecting to a corporate network Tackle power user tricks such as barcode scanning voice commands and creating a Wi Fi hotspot Sync your Xoom with a PC or a Mac The Problem with Software Adam Barr, 2018-10-23 An industry insider explains why there is so much bad software and why academia doesn't teach programmers what industry wants them to know Why is software so prone to bugs So vulnerable to viruses Why are software products so often delayed or even canceled Is software development really hard or are software developers just not that good at it In The Problem with Software Adam Barr examines the proliferation of bad software explains what causes it and offers some suggestions on how to improve the situation For one thing Barr points out academia doesn't teach programmers what they actually need to know to do their jobs how to work in a team to create code that works reliably and can be maintained by somebody other than the original authors As the size and complexity of commercial software have grown the gap between academic computer science and industry has widened It's an open secret that there is little engineering in software engineering which continues to rely not on codified scientific knowledge but on intuition and experience Barr who worked as a programmer for more than twenty years describes how the industry has evolved from the era of mainframes and Fortran to today's embrace of the cloud He explains

bugs and why software has so many of them and why today's interconnected computers offer fertile ground for viruses and worms The difference between good and bad software can be a single line of code and Barr includes code to illustrate the consequences of seemingly inconsequential choices by programmers Looking to the future Barr writes that the best prospect for improving software engineering is the move to the cloud When software is a service and not a product companies will have more incentive to make it good rather than good enough to ship
