Unified Reality Theory The Evolution Of Existence Into Experience:

Unified Reality Theory Steven Kaufman,2015-12-04 Unified Reality Theory demonstrates that the source of reality is a universal consciousness and that we are in no way separable from that source and so in no way truly separable from each other or any other aspect of reality I recommend this book to anyone interested in understanding the nature of reality and their place in it Deepak Chopra Unified Reality Theory describes how all reality evolves from an absolute existence It also demonstrates that this absolute existence must have consciousness as an attribute that s intrinsic to its being Thus Unified Reality Theory shows that consciousness rather than being a product of the evolution of physical reality is itself the source of what we experience as physical reality and that physical reality is itself but one aspect of an evolving universal consciousness Unified Reality Theory shows that most fundamentally this absolute consciousness existence evolves into reality by means of a single process self relation That is consciousness existence becomes reality by forming relationships with itself analogous in a very limited way to what happens to a rubber band that s twisted upon itself i e it remains whole while differentiating into other forms Thus Unified Reality Theory demonstrates that reality is a state of existential self relation The idea that the universe consists of existence which has formed relationships with itself isn t new Taoists have understood this idea for at least a couple of thousand years What s new here is the presentation of this idea in the form of a detailed and defined structural model that correlates with the behavior of physical reality as described by science in general and physics in particular Ultimately Unified Reality Theory uses science and logic to make the case that God exists as a pervasive and absolute consciousness that transcends the realities of space and time and that we as well as everything else are that **My**

Big TOE Awakening Discovery Inner Workings Thomas Campbell,2023-08-29 Section 1 provides a biography of the author pertinent to the creation of this trilogy This look at the author s unique experience sheds light upon the origins of this work Section 2 logically justifies the basic conceptual building blocks needed to construct My Big TOE s foundation It discusses the cultural beliefs that trap our thinking into a narrow and limited conceptualization of reality defines the fundamentals of Big Pictureepistemology and ontology and examines the inner workings and practice of meditation It defines and develops the two basic assumptions upon which this trilogy is based From these two assumptions time space consciousness and the basic properties purpose and mechanics of our reality are logically inferred Section 3 develops the interface and interaction between we the peopleand our digital consciousness reality It derives and explains the characteristics origins dynamics and function of ego love free will and our larger purpose It develops the psi uncertainty principle as it explains and interrelates psi phenomena free will love consciousness evolution physics reality human purpose digital computation and entropy Section 4 describes a model of consciousness that develops the results of Section 3 and supports the conclusions of Section 5 The origins and nature of digital consciousness are described along with how artificial intelligence AI leads to artificial consciousness which leads to actual consciousness and to us It derives our physical universe

our science and our perception of a physical reality The physical reality is directly derived from the nature of digital consciousness Section 5 pulls together Sections 2 3 and 4 into a model of reality that describes how an apparent nonphysical reality works interacts and interrelates with our experience of physical reality Probable realities predicting and modifying the future teleportation telepathy multiple physical and nonphysical bodies and the fractal nature of an evolving digital consciousness reality are explained and described in detail Section 6 is the wrap up that puts everything into a personal perspective It points out My Big TOE s relationship with contemporary science and philosophy It solidly integrates My Big TOE into traditional Western scientific and philosophical thought **My Big TOE Discovery** Thomas Campbell,2023-08-29 The interface between us and our consciousness AND a model of consciousness My Big TOE - Discovery S Thomas Campbell,2023-08-29 The interface between us and our consciousness AND a model of consciousness Unfolding Consciousness Edi Bilimoria,2024-03-11 Exploring the Living Universe and Intelligent Powers in Nature and Humans author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth Presented in three volumes plus volume IV contains references resources further reading they reveal the unity of the Eastern and Western branches of our perineal wisdom Bilimoria shows how science seeks truth using a synthesis of both traditions Evidence from a wide range of sources scientific medical philosophical religious and cultural is put forward to argue the case that humans are spiritual beings primarily and not merely complicated biological machines Bilimoria teaches that consciousness is not the product of matter but the primary element from which all else emanates This process and its underlying mechanisms are described in detail with much clarity This work has over 2000 references and is supported by copious tables and diagrams plus individual chapter summaries and sidenotes to assist readers in navigating the multidimensional terrain traversed Key areas The scientific and esoteric worldviews compared and contrasted The ultimate promise of science The soft and hard problems of consciousness How external input to the physical senses results in an internal subjective experience Quantum physics its contribution to a new scientific paradigm The Mystery Teachings of All Ages their worldwide unity and central message Wet computers and computers Is the brain no different in principle from a computer Death and after the transition and continuity of consciousness in other realms Paranormal phenomena and apparitions Subtle bodies Evolution and destiny Powers latent in human beings Divinity and the united message of all world religions The question of immortality The primacy of consciousness and the manner of its unfoldment from the unmanifest realms to the physical world Edi Bilimoria s guest appearance on the Shepheard Walwyn podcast series can be found on this link <https://shepheardwalwyn.com/edi-bilimoria-unfolding-consciousness-why-sapolsky-is-wrong-and-how-to-get-in-tune-with-life> My Big TOE - Inner Workings S Thomas Campbell,2003-02 Presents the formal reality model in detail Provides the wrap up that puts everything discussed into an easily understood perspective Additionally points out My Big TOE s relationship with contemporary science and philosophy *The Liberation of Consciousness from Identification with Form* Steven

Kaufman,2019-05-30 The purpose of this work is to explain in detail how consciousness identifies with form how that identification is perpetuated by the reactivity that naturally follows and why this misidentification is a necessary part of the evolution of consciousness into ever greater awareness of itself Ultimately the reason for explaining all of this is to make it clear that the way out of this self constructed and self perpetuated delusion is through some degree of nonreactivity That is what will be explained is that the way out of what seems to be the trap in which we have purposefully placed ourselves lies simply through ceasing to continuously interact with the world in a way that is dictated solely by our delusion regarding our nature i e by the idea that what we are is form Because as long as we continue to interact with the world solely on the basis of this delusion the delusion cannot do other than persist And as long as the delusion persists as long as we are actively generating and perpetuating this delusion through our reactivity i e through the way in which we naturally tend to interact with the world of form while knowing ourselves as form we must continue to know ourselves as we are not and so we must also continue to suffer *My Big TOE - Inner Workings H* Thomas Campbell,2023-08-29 Presents the formal reality model in detail Provides the wrap up that puts everything discussed into an easily understood perspective Additionally points out My Big TOE s relationship with contemporary science and philosophy *My Big TOE - Awakening H* Thomas Campbell,2023-05-30 Section 1 provides a partial biography of the author Section 2 lays out the basic conceptual building blocks needed to construct My Big TOE s foundation **Creative Evolution** Amit Goswami,2014-01-23 By denying evolution altogether says quantum physicist Amit Goswami intelligent design believers fly in the face of scientific data But the idea of intelligent design does contain substance that neo Darwinists cannot ignore Goswami posits that consciousness not matter is the primary force in the universe Biology must come to terms with feeling meaning and the purposefulness of life as well as with the idea of a designer What s more reconciling the question of life s purposefulness and the existence of the designer with neo Darwinism also answers many other difficult questions The result is a paradigm shift for biology and the vision of a coherent whole that Goswami calls science within consciousness In this timely important book the author offers clear arguments supported by the findings of quantum physics that represent a major step in resolving controversies between science and religion
