Re Search through Architecture ICAR 2015 proposes a debate of the subject defining some new principles of nowadays
architectural design In the XXI st century in searching of a style after Postmodernism it is considered that new architecture
based on algorithms and parameters may offer new senses of space continuity and legibility In opposite the contextualist and
phenomenologist movements consider this approach as a formal and fragile tendency culturally un sustained and which won
t prove its consistence in time as utopist and futurist did Topics like new avant garde movement stylistic searching
anachronistically architecture space continuities and correspondences lived architecture or experimental manifesto projects
the evolving of geometries urban continuities or classical defragmentation functional zoning social impact scenarios space
formalization aesthetic and symbolic design values authentically or new built archaeology sustainable design etc will be

 Online Instruction for the 21st Century Fudge, Tamara Phillips, Ferebee, Susan Shepherd, 2021-06-25 The world of education
 has undergone major changes within the last year that have pushed online instruction to the forefront of learning Thanks to
 the COVID 19 pandemic online learning has become paramount to the continued and uninterrupted teaching of students and
 has forced students and teachers alike to adjust to an online learning environment Though some have already returned to the
 traditional classroom or plan to very soon others have begun to appreciate the value of online education initiatives that had
 previously been discussed but never acted upon as they have been in the past year With plenty of positive and negative
 aspects online learning is a complex issue with numerous factors to consider It is an issue that must be studied and examined
 in order to improve in the future Curriculum Development and Online Instruction for the 21st Century examines the issues
 and difficulties of online teaching and learning as well as potential solutions and best practices This book includes an
 examination on the value of teaching fully via the internet as well as the challenges inherent in the training of teachers to
 teach in online environments While addressing key elements of remote learning such as keeping student data safe as well as
 methods in which to engage students this book covers topics that include assessment tools teaching deaf students web
 technology and standardized curricula Ideal for K 12 teachers college faculty curriculum developers instructional designers

Circular Economy for Buildings and Infrastructure Jian Zuo, Liyin Shen, Ruidong Chang, 2024-05-03 This edited volume covers theoretical and practical aspects of circular economy in building development offering chapters dealing with topics such as material design affordability of housing development waste management and recycling smart metering and more A particular focus is placed on various stakeholders points of view The book's chapters are co developed and contributed by multidisciplinary teams including both academics and industry practitioners The case study oriented approach taken here helps to facilitate the reader's understanding of how building sustainability can be achieved in the context of circular economy The building industry has significant environmental social and economic impacts As one of the biggest energy consumers and carbon emitters building sustainability has attracted wide attention globally Building projects and their associated activities consume a large amount of energy natural resources and water while producing a large proportion of wastes throughout their lifecycles The traditional linear approach of make use and dispose has been heavily criticized whilst the circular approach has gained momentum Indeed circular economy has emerged as one of key principles to manage sustainability related issues by means of focusing on the circularity of resources as well as the cost implications **Metal**

Oxide-Based Heterostructures Naveen Kumar, Bernabé Marí Soucase, 2022-11-13 Metal Oxide Based Heterostructures Fabrication and Applications provides information on synthesis strategies structural and hierarchical features morphological characteristics of metal oxide based heterostructures and their diverse applications This book begins with an introduction to the various multidimensional heterostructures synthesis aspects and techniques used to control the formation of heterostructures Then the impact of synthesis routes on the formation of mixed metal oxide heterostructures and their properties are analyzed The effect of nonmetal doping metal doping and composites of metal oxide heterostructures on the properties of heterostructures is also addressed and that also includes opportunities for optimization of the materials

performance for specific applications Special attention is given to the surface characteristics of the metal oxide heterostructures and their impact on the material s performance and the applications of metal oxide heterostructures in various fields such as environmental remediation sensing organic catalysis photovoltaics light emitting materials and hydrogen production Introduces key principles for metal oxide heterostructures their properties key characteristics and synthesis routes Emphasizes the relationship between synthesis strategies and material performance including optimization strategies such as tailoring the material s surface characteristics or structure Discusses metal oxide heterostructures and their application in lighting and displays energy environment and sensing *Urban Water Governance in Postcolonial Zimbabwe* Abraham R. Matamanda,Tazviona R. Gambe,Johannes I. Bhanye,Tafadzwa C. Maramura,Oratilwe Annastacia Khoza,2025-09-04 This book focuses on urban water supply and governance in the Global South using urban Zimbabwe as a case study to provide insights and perspectives into the realities of the water governance Applying a resilience and sustainability perspective we argue that fragmentation of responsibilities between various institutions the difficulty of coordination at various levels and the politics centered on water supply constrain effective water governance in Zimbabwe This has resulted in a downward spiral in urban water services in Zimbabwe s urban centers Additionally the innovative nature of this study is to draw from an often neglected dimension in urban water governance which is the political ecology which brings into perspective the varying int1erests associated with environmental contests and conflicts that influence water allocation and sharing among urban areas by the public sector Therefore this book dwells on understanding the politics economic and ecology of water governance through an interdisciplinary lens This analysis is critical for this study because Zimbabwe s current state of obsolete water infrastructure has also had a negative impact on the supply of high quality portable water services to the public in urban areas This book will be a critical read for academic and professionals in the fields of urban geographers planners sociologists and water experts It will also be useful for undergraduate and postgraduate students from Geography Urban and regional Planning Political Science Development Studies and Economics

Disrupting Shameful Legacies Claudia Mitchell,Relebohile Moletsane,2018-08-14 Much has been written in Canada and South Africa about sexual violence in the context of colonial legacies particularly for Indigenous girls and young women While both countries have attempted to deal with the past through Truth and Reconciliation Commissions and Canada has embarked upon its National Inquiry on Missing and Murdered Indigenous Women and Girls there remains a great deal left to do Across the two countries history legislation and the lived experiences of young people and especially girls and young women point to a deeply rooted situation of marginalization Violence on girls and women s bodies also reflects violence on the land and especially issues of dispossession What approaches and methods would make it possible for girls and young women as knowers and actors especially those who are the most marginalized to influence social policy and social change in the context of sexual violence Taken as a whole the chapters in *Disrupting Shameful Legacies Girls and Young Women*

Speaking Back through the Arts to Address Sexual Violence which come out of a transnational study on sexual violence suggest a new legacy one that is based on methodologies that seek to disrupt colonial legacies by privileging speaking up and speaking back through the arts and visual practice to challenge the situation of sexual violence At the same time the fact that so many of the authors of the various chapters are themselves Indigenous young people from either Canada or South Africa also suggests a new legacy of leadership for change
