United Nations The First Fifty Years:

United Nations Stanley Meisler,1995 Beginning with the birth of the U N when Roosevelt Stalin Truman and Gromyko set the stage United Nations brings us a cast of profoundly important and colorful international players the brilliant Dag Hammarskjöld who became the most daring imaginative secretary general the U N ever had Nikita Khrushchev who electrified the General Assembly as he pounded his shoe in protest over the Congo Ralph Bunche the grandson of a slave and the Jackie Robinson of American diplomacy who won the Nobel Peace Prize for his U N work in the Middle East and U S ambassador Daniel Patrick Moynihan who walked out of the General Assembly over the Third World s anti Zion resolution

Dismantling the League of Nations Jane Mumby, 2023-11-30 The League of Nations one of the world's first multi function intergovernmental organisations was also one of the first to undergo liquidation This book unveils the last chapter in its story showing how complex and time consuming the end of this great experiment truly was Starting with the signing of the Charter of the United Nations in 1945 the death knell of the League Mumby traces the closure process that followed From the final meeting of the Assembly in April 1946 the transfer of assets and functions to the UN the liquidation of the Secretariat and the last acts of business through 1948 this book follows the story through the eyes of those who made it happen It demonstrates why this process took longer than expected highlights the importance of human agency in even the most bureaucratic of institutions and points to the lingering impact of the League on international organisations today Uncovering both the institutional and personal aspects of the League of Nations final chapter this book furthers our understanding of this famous institution shedding light on those that continue to dominate contemporary international relations and exposing the unavoidable complexity of dismantling an intergovernmental organisation

Oppenheim's International Law: United Nations Rosalyn Higgins, Philippa Webb, Dapo Akande, Sandesh Sivakumaran, James Sloan, 2018-12-13 The United Nations whose specialized agencies were the subject of an Appendix to the 1958 edition of Oppenheim's International Law Peace has expanded beyond all recognition since its founding in 1945 This volume represents a study that is entirely new but prepared in the way that has become so familiar over succeeding editions of Oppenheim An authoritative and comprehensive study of the United Nations legal practice this volume covers the formal structures of the UN as it has expanded over the years and all that this complex organization does All substantive issues are

addressed in separate sections including among others the responsibilities of the UN financing immunities human rights preventing armed conflicts and peacekeeping and judicial matters In examining the evolving structures and ever expanding work of the United Nations this volume follows the long held tradition of Oppenheim by presenting facts uncoloured by personal opinion in a succinct text that also offers in the footnotes a wealth of information and ideas to be explored It is book that while making all necessary reference to the Charter the Statute of the International Court of Justice and other legal instruments tells of the realities of the legal issues as they arise in the day to day practice of the United Nations Missions to the UN Ministries of Foreign Affairs practitioners of international law academics and students will all find this book to be vital in their understanding of the workings of the legal practice of the UN Research for this publication was made possible by The Balzan Prize which was awarded to Rosalyn Higgins in 2007 by the International Balzan Foundation For a Strong and Democratic United Nations South Centre (South Commission),1997 Only the best will do
