Neighborhood Watch Joanna Green, Russell Walker, 2017 Read any news report on the housing market and inevitably it will include facts or figures from the real estate data giant Zillow com The company initially set out to solve two key economic frictions in the real estate industry information asymmetry and the principal agent problem by empowering users to access real time housing data and eliminating the need for realtors The company soon realized however that American homeowners and buyers were not willing to give up the traditional real estate agent model and changed course In the end Zillow decided to join rather than replace the middlemen in the real estate industry

Zestimating Our Future: Zillow and Its Plans for Realtors Keith Leonard Porter, 2024-06-26 75% of Zillow's income comes from agents in one form or another Whether that is from leads upfront or from referral fees at closing depends on the market This thought should give agents the feeling that Zillow needs us The truth is Zillow does not need us Not all of us at least If you are an agent who is not involved with Zillow and not paying them in any way they have no need for you In fact they are currently making moves to replace you In this book I will show you beyond any doubt that Zillow is no longer just a media company They are a competing brokerage One that has aims to be at the center of every real estate transaction with or without you
