La crise est un moment singulier de l'existence des hommes et du monde où l'ordre habituel des choses se met à vaciller et menace même de retourner au chaos. On la redoute donc le plus souvent en essayant de l'éviter. Mais plutôt que d'en craindre le pire, ne peut-on en espérer le meilleur ? Dans sa violence même la crise ne fait-elle pas apparaître de nouvelles possibilités ? Ne faut-il pas alors tenter de s'en saisir comme l'occasion d'une renaissance aussi bien dans l'existence personnelle des individus que dans la vie collective des peuples

Histoire de l'économie française Jean-François Eck, 2009-05-20 Cet ouvrage se divise en quatre parties : l'évolution des mutations lentes de l'environnement, les transformations du système de production et la place de la France dans le monde. Après la crise des années 1930 vient le temps du redressement, années 1950-1960, puis des incertitudes, années 1970-1990, pour parvenir en 1999 à l'adoption de l'euro. L'auteur conclut l'ouvrage sur la question suivante : existe-t-il un modèle original de capitalisme

Pérégrinations ibériques Bartolomé Bennassar, 2018-08-30 Bartolomé Bennassar est un voyageur. Le temps et l'espace sont ses horizons. La profondeur historique de l'histoire espagnole, les grandes terres de l'Amérique latine. Comme tout pérégrinant, il critique ses voyages, mais avec une plume double : celle de l'écriture romanesque, l'un de ses romans a connu une adaptation au cinéma, et celle de l'historien. Il nous livre dans ce petit ouvrage la quintessence d'un itinéraire humain et intellectuel, de la découverte de la discipline qui sera la sienne, l'histoire, sa carrière scandée au rythme de la publication d'une œuvre historiographique importante de spécialiste attentif des évolutions du monde hispanique sans oublier la passion de l'enseignement qui inlassablement l'emmène avec ses étudiants sur les routes des Andes

Les Abandonnés Xavier de Jarcy, 2019-02-01 Pourquoi la France qui se voulait la nation de l'art de vivre, de la mesure et de la démocratie a-t-elle le pays à développement qui a le plus mal logé ses habitants et pourquoi s'est-elle enfoncée dans une perpétuelle crise du logement, cause d'un malaise urbain dont elle peine encore à extraire ? Nous avons aujourd'hui une vision faussée des problèmes des banlieues, la dérive des quartiers commencerait après la crise économique de 1974 et serait liée à l'immigration. Or Xavier de Jarcy, en reconstituant la genèse des quartiers de banlieue, tape par tape et en donnant à entendre la parole de tous les intervenants : ministres, élus locaux, architectes, constructeurs, promoteurs, démographes, géographes et bien entendu habitants, nous montre que les erreurs d'urbanisme et la ségrégation sociale ont commencé bien plus tôt. Nous des théories prônant un urbanisme autoritaire formulées dans l'entre-deux-guerres, les grands ensembles devaient mettre fin aux taudis, mais aussi façonner une

Women's Rights and Women's Lives in France 1944-1968 Claire

Duchen, 2003-09-02 *Women's Rights and Women's Lives in France 1944-1968* explores key aspects of the everyday lives of women between the Liberation of France and the events of May 68. At the end of the war, French women believed that a new era was beginning and that equality had been won. The redefined postwar public sphere required women's participation for the new democracy and women's labour power for reconstruction, but equally important was the belief in women's role as mothers. Over the next two decades, the tensions between competing visions of women's proper place dominated discourses of womanhood as well as policy decisions and had concrete implications for women's lives. Working from a wide range of sources including women's magazines, prescriptive literature, documentation from political parties, government reports, parliamentary debates, and personal memoirs, Claire Duchen follows the debates concerning womanhood, women's rights, and women's lives through the 1944-1968 period and grounds them in the changing reality of postwar France.

Past Forward

Dayna Oscherwitz, 2010-09-15 *In Past Forward*, French Cinema and the Post Colonial Heritage, author Dayna Oscherwitz focuses on the world of French films with a new lens. Drawing upon a wealth of research and the examination of popular French movies, Oscherwitz offers fresh perspectives not only on the unique importance of motion pictures and their indelible influence on French character, but on current debates regarding individual and collective memory. *Past Forward* traces the development and ascension of the French heritage film: those historical and costume dramas focusing on prestigious French subjects, events, and settings. These motion pictures preeminent during a period of globalization and fear over the affects of immigration in 1980s France quickly came to embody a specific version of French national and collective identity: one that idealized the past, condemned the present, and created an institutional form of memory. Oscherwitz presents the intriguing notion that French heritage films are not exclusively expressions of nationalism and nostalgia, as has commonly been asserted. On the contrary, although these movies were born out of a perceived loss of French culture, their ambivalence toward traditional hallmarks of nationalism opens them up to new interpretation. Also in contrast to typical conceptions, the author suggests that these heritage films are far from cinematic bastions of multicultural backlash; instead, she argues, popular culture has in its own fashion reinserted the history of colonialism and immigration into the national past, thus reimagining heritage itself. Against this backdrop, Oscherwitz goes on to investigate the multicultural worlds of *beur* and *banlieue* movies, cinema seemingly in direct contrast with the heritage film, offering the theory that these films serve as a counter-memory to an institutionalized one and provide alternative models of collective memory and identity. Through careful analysis of several examples, Oscherwitz demonstrates how these two seemingly different realms, heritage and multicultural cinema, are far from mutually exclusive in the construction of French identity. Throughout the volume, numerous well-known French movies are

reexamined inviting new interpretations of and challenging old views through investigations of familiar cinematic works Past Forward is a revolutionary volume that boldly reimagines our ideas about French film and its role in communicating history and memory Les Cahiers de l'Urbanisme Pierre Mardaga, 1999 Les espaces productifs en France Alexandra Monot, 2023-12-15 L'économie française a connu depuis les années 1950 des mutations majeures Si la France demeure une puissance agricole mondiale l'agriculture s'est resserrée socialement et spatialement sur un nombre restreint d'agriculteurs et sur les espaces les plus aisés à exploiter L'industrie a subi une restructuration sur des secteurs innovants au détriment de ceux de faible technologie aujourd'hui largement délocalisés ce qui a modifié la géographie du secteur industriel sur le territoire français Enfin le pays s'est fortement tertiarisé la fois par l'essor d'une économie professionnelle et de la connaissance mais aussi par l'externalisation des services aux entreprises Ces bouleversements structurels de l'économie française s'expliquent en grande partie par le passage de secteurs d'activités des systèmes productifs
