**OECD, United Nations Environment
Programme**

Tourism And Climate Change Tourism And Climate Change:

Tourism and Climate Change Daniel Scott, C. Michael Hall, Gossling Stefan, 2012-06-14 Climate change is the single most important global environmental and development issue facing the world today and has emerged as a major topic in tourism studies Climate change is already affecting the tourism industry and is anticipated to have profound implications for tourism in the twenty first century including consumer holiday choices the geographic patterns of tourism demand the competitiveness and sustainability of destinations and the contribution of tourism to international development *Tourism and Climate Change Impacts Adaptation and Mitigation* is the first book to provide a comprehensive overview of the theory and practice of climate change and tourism at the tourist enterprise destination and global scales Major themes include the implications of climate change and climate policy for tourism sectors and destinations around the world tourist perceptions of climate change impacts tourism's global contribution to climate change adaptation and mitigation responses by all major tourism stakeholders and the integral links between climate change and sustainable tourism It combines a thorough scientific assessment of the climate tourism interrelationships with discussion of emerging mitigation and adaptation practice showcasing international examples throughout the tourism sector as well as actions by other sectors that will have important implications for tourism Written by three leading academics in this field this critical contribution highlights the challenges of climate change within the tourism community and provides a foundation for decision making for both reducing the risks and taking advantage of the opportunities associated with climate change This comprehensive discussion of the complexities of climate change and tourism is essential reading for students academics business leaders and government policy makers

Tourism, Recreation, and Climate Change Colin Michael Hall, James E. S. Higham, 2005-01-01 This book represents the first comprehensive examination of the relationship between tourism and climate change and is of interest not only to students of tourism but also to policy makers and the tourism industry who will have to respond to the challenges posed by climate change **BOOK JACKET** **Climate Change and Tourism** Susanne Becken, John E. Hay, 2012 The contribution of tourism to climate change and the likely effects of climate change on tourist destinations have been well reported and discussed however there is a lack of evidence based systematic advice as to how the industry should respond This book addresses the gap between our increasing understanding of the drivers and consequences of climate change and practical advice for mitigation and adaptation This text acknowledges the importance of a sound conceptual understanding of climate change and considers how the industry might best respond This approach relies upon the roles of supportive policies and institutions and is presented through critically assessed case studies from across the world These examples support an overall framework which provides a methodology for translating adaptation and mitigation policies into practice **Tourism and Climate Change** Susanne Becken, John E. Hay, 2007-01-01 The book provides a comprehensive discussion of the latest knowledge in the field of tourism and climate change It is aimed at tourism practitioners and those with an academic interest

in the fields of tourism management and climate change mitigation adaptation and policy Tourism and the Implications of Climate Change Christian Schott, 2010-12-03 Provides a platform for knowledge exchange between different disciplines and for learning from both theory and practice in the context of tourism and climate change This book examines subjects as diverse as the European hotel sector the North American cruise tourism industry and New Zealand youth hostels and campervans **Climate Change and Tourism** World Tourism Organization, United Nations Environment Programme, 2008 This publication contains the key proceedings and technical report of the Second International Conference on Climate Change and Tourism held in Davos Switzerland 1-3 October 2007 The Davos Declaration and the summary of the conference debates demonstrate a clear commitment of the tourism sector to address climate change issues and provide concrete recommendations for actions The extensive technical report included in this publication was commissioned to an international team of experts by the World Tourism Organization UNWTO the United Nations Environment Programme UNEP and the World Meteorological Organization WMO It provides a synthesis of the state of knowledge about current and future likely impacts of climate change on tourism destinations around the world possible implications for tourist demand current levels and trends in GHG emissions from the tourism sector and an overview of policy and management responses adopted by the key stakeholder groups international organizations public administrations the tourism industry with respect to adaptation to and mitigation of climate change This publication is principally aimed at the tourism industry and government organizations at the different levels who will have the primary responsibility of developing mitigation and adaptation strategies to respond to the challenges that global climate change will bring to the tourism sector It also constitutes an important tool for international agencies nongovernmental organizations NGOs and financial institutions

Tourism and Climate Change Daniel Scott, Colin Michael Hall, Stefan Gössling, 2012 Climate change is the single most important global environmental and development issue facing the world today and has emerged as a major topic in tourism studies Climate change is already affecting the tourism industry and is anticipated to have profound implications for tourism in the twenty first century including consumer holiday choices the geographic patterns of tourism demand the competitiveness and sustainability of destinations and the contribution of tourism to international development Tourism and Climate Change Impacts Adaptation and Mitigation is the first book to provide a comprehensive overview of the theory and practice of climate change and tourism at the tourist enterprise destination and global scales Major themes include the implications of climate change and climate policy for tourism sectors and destinations around the world tourist perceptions of climate change impacts tourism's global contribution to climate change adaptation and mitigation responses by all major tourism stakeholders and the integral links between climate change and sustainable tourism It combines a thorough scientific assessment of the climate tourism interrelationships with discussion of emerging mitigation and adaptation practice showcasing international examples throughout the tourism sector as well as actions by other sectors that will have important

implications for tourism Written by three leading academics in this field this critical contribution highlights the challenges of climate change within the tourism community and provides a foundation for decision making for both reducing the risks and taking advantage of the opportunities associated with climate change This comprehensive discussion of the complexities of climate change and tourism is essential reading for students academics business leaders and government policy makers

Tourism, Climate Change and Sustainability Maharaj Vijay Reddy, Keith Wilkes, 2013 Other research dimensions discussed in the book are drawn from Brazil Hawaii England Australia and New Zealand *Tourism and Climate Change in the 21st Century* Paula Remoaldo, Helder Lopes, Vitor Ribeiro, Juliana Alves, 2024-06-20 This book explores the effects of climate on tourism and the effectiveness of climate adaptation in this sector Taking into account the spatial dimension of tourism and climate change it highlights the need for more detailed information the weak interaction between stakeholders and the limitation of resources in the context of rapid changes brought on by the necessary implementation of the third order stage of tourism The book focuses on adaptation mitigation and resilience to climate change including topics such as human thermal comfort of visitors the water resources in tourism areas the circular economy the mobility and transports the psychological aspects of weather and climate in recreational practices The book concludes an assessment of the status challenges and prospects for the adaptation of the tourism sector to climate change The book appeals to scholars and students of economic geography regional and spatial science tourism economics and related fields *Climate Change and Tourism in the Asia Pacific* Bruce Prideaux, Bob McKercher, Karen McNamara, 2015-09-07 Climate change will exert an enormous impact on all societies in the medium to long term Tourism as both a commercial activity and social phenomenon is not immune To date industry has been slow to recognise the scale of the threat posed by a changing climate on its operations and consumers have been extremely reluctant to modify their travel behaviours The Asia Pacific region is well on the way to being the 21st Century powerhouse of tourism however the manner in which it develops will in part be determined by how the global community responds to climate change This book examines climate change issues related to tourism in the Asia Pacific region Chapters discuss demand and supply side issues explore government policy responses and introduce several new adaptation models The book also calls for a more effective linking of social science research with the scientific discourse to create long term resolution of and adaptation to this issue This book was published as a special issue of Asia Pacific Journal of Tourism Research **Tourism and Climate Change** Susanne Becken, John E. Hay, 2007-08-17 This book discusses the tourism climate system and provides a sound basis for those interested in tourism management and climate change mitigation adaptation and policy In the first three chapters the book provides a general overview of the relationships between tourism and climate change and illustrates the complexity in four case studies that are relevant to the wide audience of tourism stakeholders In the following seven chapters detailed discussion of the tourism and climate systems greenhouse gas accounting for tourism mitigation climate risk management and comprehensive tourism climate policies are provided

This book compiles and critically analyses the latest knowledge in this field of research and seeks to make it accessible to tourism practitioners and other stakeholders involved in tourism or climate change **Tourism and Climate Change** Jorge Marques,Makhabbat Ramazanova,Helena Albuquerque,2025-11-01 This book focuses on the intricate relationship between climate change and the tourism industry examining the challenges and opportunities arising from this global phenomenon The tourism sector a significant contributor to both the acceleration and impact of climate change is scrutinized for its carbon footprint in transportation and accommodation The direct consequences of extreme weather events further compound the complexity However within these challenges lies the potential for positive transformation The book explores the role of the tourism industry as a catalyst for sustainable practices and environmental conservation Through an examination of resilient strategies it aims to provide insights into fostering a harmonious relationship between tourism and the environment thereby ensuring a positive impact in the context of a changing climate **OECD Studies on Tourism Climate Change and Tourism Policy in OECD Countries** OECD,United Nations Environment Programme,2011-12-07 This report analyses policies and issues related to climate change adaptation and mitigation in the tourism sector It provides policy recommendations with the objective to identify priority areas to be included in a framework for action in the area of climate change and tourism **Meeting the Challenges of Climate Change to Tourism** Louis D'Amore,Patrick Kalifungwa,2014-07-24 As UN Secretary General Ban Ki moon has stated Climate change is the pre eminent geopolitical and economic issue of the 21st century It rewrites the global equation for development peace and prosperity The scientific evidence is clear climate change is happening and the exposure to weather related disasters such as heat waves forest fires cyclones and flooding has the potential to seriously impact the tourism sector The travel and tourism industry is both a significant contributor to climate change being responsible for 5% of global greenhouse gas emissions and is directly impacted by it At the same time the industry is a vital driver of the global economy with an estimated US 6 6 trillion total contribution in 2012 and is particularly significant to developing and emerging economies where the impacts of climate change can be most disruptive This collection of papers is a timely and indispensable source of insights and models of best practice relating to the mitigation of and adaptation to climate change by various sectors of the industry *The Need for Sustainable Tourism in an Era of Global Climate Change* Pardeep Singh,Shikha Daga,Kiran Yadav,Abhay Jain,2024-12-02 This insightful work analyses how the tourism and hospitality industry may lower its carbon footprint and maintain its long term viability by implementing energy efficient and waste reduction technology The book will discuss how sustainable tourism may achieve its sustainable development objectives and contribute to a green global economy Tourism, Climate Change and Carbon Management: Three Case Studies Stefan Gossling,Brian Garrod,2011-11-30 This case study is part of the Contemporary Cases Online series The series provides critical case studies that are original flexible challenging controversial and research informed driven by the needs of teaching and learning **Climate Change Adaptation and Mitigation in**

the Tourism Sector United Nations Environment Programme. Sustainable Consumption and Production Branch, 2008 With its close connections to the environment and climate itself tourism is considered to be a vulnerable and highly climate sensitive economic sector similar to agriculture insurance energy and transportation At the same time tourism is a contributor to Greenhouse Gas GHG emissions including emissions from transport accommodation and activities In 2005 tourism s contribution to GHG emissions was estimated to be approximately 5% According to the Davos Declaration on climate Change and Tourism the sector has to rapidly respond to climate change within the evolving UN framework and progressively reduce its Greenhouse Gas GHG emissions if it is to grow in a sustainable way In response to this challenge this publication is designed to provide a pragmatic platform to strengthen the capacity of professionals to understand and respond effectively to the global challenges of climate change in tourism destinations It is the result of the ongoing cooperation between UNEP UNWTO and WMO in the context of the wider UN response to climate change The publication presents an overview of the current science and policy of climate change followed by self guidance material on mitigation and adaptation exploring tools methods and techniques associated with the management of climate change in tourism It also identifies examples of good practice from which stakeholders might learn in order to develop their own capacities for implementing climate change strategies

Climate Change and Global Tourism Heather Zeppel, 2011 This research compendium lists all current publications in English relevant to climate change and global tourism It covers articles books and reports published from 1985 through to July 2011 The articles were located through keyword searches i e climate change carbon emissions footprint of tourism journals major tourism organisations e g WTC WTTC PATA ETC academic publishers key databases i e Google Scholar OAIster Scopus environmental agencies and research centres This comprehensive review of published research about tourism and climate change provides a wide range of global case studies about the impacts of climate change on key tourism sectors and regions These cover both adaptation and mitigation responses to climate change by the tourism industry P 1 Responding to Climate Change World Tourism

Organization, 2014 Responding to climate change tourism initiatives in Asia and the Pacific explores the general causes and effects of climate change on tourism at a global and regional level Presenting specific case studies from Asia and the Pacific the publication examines tourism s contribution to greenhouse gas emissions ultimately calling for greater mitigation and adaptation measures from the public and private sector The study concludes that the socio economic impacts of climate change on tourism require greater vigilance and further research to ensure the sector s long term sustainability and its effective contribution to the great challenge of climate change

Contemporary Challenges of Climate Change, Sustainable Tourism Consumption, and Destination Competitiveness Timo Ohnmacht, Julianna Priskin, Jürg Stettler, 2018-09-12 This volume presents twenty updated and new theories of travelers decisions and behaviors The volume describes the advances in theory construction and practical applications of theory in the disciplines of tourism hospitality
