Pro-Poor Mountain Tourism Michal Apollo, Yana Wengel, Thomas Pogge, 2024-12-06. This timely and interdisciplinary book is the first to examine mountain tourism and local communities with a pro-poor lens. By drawing on human geography, political and social science, ethics and moral philosophy and empirical research, the volume explores how mountain tourism can be used to fight poverty and inequality in mountain regions. Mountain tourism represents a growing mass tourism phenomenon. The local population, recognizing the possibilities for increased income, started to develop in situ services. However, sensitive to outside influences, the environment of high altitude mountain areas, resident communities have been abruptly exposed to impacts from mountain tourism related activities, although until recently they have been cut off from civilization. The natural environment and people living in mountain regions have been affected by an increasing number of visitors in the last few decades. Hence, this book provides an expert-led and comprehensive summary of mountain tourism development and illustrates how tourism can increase benefits for the poor within local communities. Furthermore, it presents updated management and governance policies. This volume will be of pivotal interest to scholars and practitioners from the fields of geography and tourism studies, ethics and development, economics as well as policymakers, aid agencies and general readers interested in sustainable development in mountain regions.

Tourism and Hospitality Management - A Modern Fusion of Sectors Anukrati Sharma, Shruti Arora, Santus Kumar Deb, 2025-10-10. Tourism and Hospitality Management: A Modern Fusion of Sectors assesses the evolving landscape of global tourism, highlighting how tradition and innovation intersect to shape new forms of travel and hospitality. Through interdisciplinary perspectives, this collection explores emerging trends such as digital detox, tourism, virtual reality in guest experiences, robotic technologies in kitchens and the growth of e-tourism across regions like India, Sri Lanka, Bangladesh and Turkey. The book investigates both the technological and cultural transformations driving the sector while also addressing post-pandemic shifts in traveler behavior, sustainability concerns and the importance of community-based tourism models. Strategic frameworks like the e-Tourism Value Chain Model (eTVCM) are presented to help bridge theory and practice. Key features: Integrates perspectives from sociology, tech, marketing and cultural studies. Highlights sustainable, mindful and community-based travel models. Analyzes next-normal tourism behaviors and ethical concerns. Presents strategic tools and models for industry application.
